Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 410L.C.—21st January, 1935.—The following report of the Select Committee on the Estates Partition (Amendment) Bill, 1933, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Estates Partition (Amendment) Bill, 1933.

We, the members of the Select Committee of the Bengal Legislative Council to which the Estates Partition (Amendment) Bill, 1933, was referred by a motion carried in the Bengal Legislative Council on the 14th December, 1934, have the honour to submit this our report with the Bill, annexed.

All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in the *Calcutta Gazette* of the 31st August, 1933.

3. We do not consider that the Bill requires republication.

4. The Committee met on the 18th December, 1934, and concluded its sitting on that day.

5. The changes recommended in the Bill are as follow :—

Long Title and Preamble.—We have omitted the word "further" in the Long Title and Preamble as being incorrect.

We have corrected a clerical error by the substitution of the word "appearing" for "reappearing."

Clause 1.—We have recommended the substitution of the figures "1935" for the figures "1933" as the Bill will probably be passed in the year 1935.

Clause 2.—We have recommended the omission of this clause as being unnecessary.

Clause 3.—The main object of the Bill is to allow rent-free lands to be partitioned, without the consent of all the proprietors. But the effect of the amendment to section 82 of the Estates Partition Act as proposed in the Bill as introduced would be to make partition of all rent-free lands compulsory. We consider that in actual practice it would not be found convenient to the proprietors or the tenants to partition such lands in every case and that the Collector should be given discretion to deal with such lands according to the main principles (*mutatis mutandis*) laid down in the Act for the partition of rent-paying lands. The best method of giving such discretion to the Collector, in our opinion, is to repeal the whole of section 82 of the Act, and we have accordingly recommended the substitution of a new clause to this effect in place of clause 3 of the Bill as introduced.

We recommend that the Bill, as reported on by us, be passed.

Resolution and Report of the case of sinking of the I. S. V. "Manoung."

GOVERNMENT OF BENGAL.

Marine Department.

CALCUTTA, THE 18TH JANUARY 1935.

RESOLUTION—No. 102Mne.

The I. S. V. "Manoung" with a large number of passengers and some cattle on board sank in the river Hooghly off Fuldobi on the 7th June 1934. There was considerable loss of life. A Special Court of Enquiry was appointed by Government under section 33 of the Inland Steam Vessels Act, 1917, to investigate the circumstances attending the loss of this vessel. The report of the Court is appended hereto.

2. In the opinion of the Court, the master of the vessel, Asraf Ali, was primarily to blame for the accident and the Court recommended that the Certificate of Competency as 2nd Class Master held by him should be cancelled permanently. The Court also made certain recommendations in regard to the life-saving appliances to be carried by inland steam vessels and recorded certain observations regarding the responsibility devolving upon the district board of Midnapore as lessors of the ferry service in which the vessel was employed.

3. Government have considered the report of the Court and accept the finding of the Court that the serang, Asraf

Ali, was primarily to blame for the disaster. Orders have accordingly been passed under section 45 of the Inland Steam Vessels Act, 1917, permanently cancelling the Certificate of Competency held by the Master of the vessel.

4. Government are advised that the evidence given before the Marine Court establishes a *prima facie* case against—

(*a*) the Master of the vessel of offences under section 58 of the Inland Steam Vessels Act of 1917 and sections 280, 282 and 304A of the Indian Penal Code;

(*b*) the owners of the vessel of offences under section 58 of the Inland Steam Vessels Act of 1917 and sections 282 and 304A of the Indian Penal Code;

(*c*) the booking clerk of offences under sections 282 and 304A of the Indian Penal Code.

Government have accordingly directed the prosecution of the aforementioned persons.

5. The Court's recommendation regarding the revision of the existing rules for the carrying of life-saving appliances is still under examination by the Principal Officer, Mercantile Marine Department, Calcutta District.

6. A copy of the Court's report has been forwarded to the Local Self-Government Department of this Government and their attention has been invited to the comments recorded in answer (3) to question 12 regarding the lack of supervision on the part of the district board, Midnapore.

Order.—Ordered that a copy of the resolution, with a copy of the Court's report, be published in the *Calcutta Gazette*. Ordered also that a copy of the resolution, with the Court's report, be forwarded to the Political, the Judicial and the Local Self-Government Departments of this Government, for information.

By order of Governor in Council,

R. L. WALKER,

Addl. Dy. Secy. to the Govt. of Bengal.

Report.

This Court was appointed to enquire into the circumstances attending the sinking of the I. S. V. "Manoung" on the 7th June last in the Hooghly off Fuldobi. The Deputy Legal Remembrancer, Mr. Khondkar, represented the Crown before us and Mr. Hazra, Counsel, appeared for the serang and the owners of the vessel.

Twenty-five witnesses were examined by Mr. Khondkar and one of the owners, Mr. Gaebele, was examined by Mr. Hazra.

The following facts are admitted by both sides: The "Manoung" was an old Burma coasting vessel. She was purchased by the present owners Mr. Gaebele and one Mr. Fernandez on 16th May 1934. She was surveyed afresh in Calcutta on 1st June 1934 and the certificate (Ex. 1) was issued. The owners secured a lease from the District Board, Midnapore, to run the vessel as a ferry steamer from Petua Ghat to Kakdwip *viâ* Fuldobi. The service was actually commenced from the 4th June 1934. On the 7th June, the "Manoung" left Petua Ghat at 9-30 a.m., with passengers, their goods and cattle on board. A station master had been appointed by Mr. Gaebele for Petua Ghat. This was witness No. VII, Manindra Nath Datta, a callow inexperienced youth who did not know his job. There was no station house either. Consequently, the conductor of the "Manoung," witness No. VI, Krista, was entrusted with the duty of selling of tickets on board the vessel while the so-called station master, Manindra, was asked to stop unauthorised country boats from carrying passengers for hire on this route and thus poaching on the Steamer Company's monopoly. The "Manoung" was an unstable boat and had a list while in motion, first on one side and then on the other. All went more or less well, however, on the day of the disaster, till the vessel was a few miles (4 to 8) away from Fuldobi, when the steamer listed heavily on the port side once—never to rise again and capsized with all hands.

The evidence led before us reveals two sharply divided versions of the occurrence. The conflict in the evidence is on two broad points, viz., (1) the number of passengers and cattle on board and (2) the cause of the disaster.

On the one hand, the Steamer Company's employees and a few of the passengers state that there were 150 to 200 passengers and 20 to 25 cattle on board. The Serang Asraf Ali (witness No. V) and the conductor Krista allege that they actually counted the numbers and according to them, there were actually 152 passengers and 22 cattle. According to this batch of witnesses, a sudden squall of wind sprang up just before the disaster and this caused spray to come in on the starboard side of the ship. According to some of the passengers, the vessel shipped some water too on this side. The passengers and the cattle got panicky as a result and rushed to the port side of the vessel and in consequence the vessel capsized to port.

On the other hand, a large number of passengers have deposed that the "Manoung" was grossly overloaded at Petua Ghat. It was a hât day at Kakdwip and many of the passengers had a lot of luggage with them, betel leaves, cocoanuts, vegetables, ploughs, etc. The vessel was practically packed to suffocation and there was hardly any standing place even on board. So great was the rush that some intending passengers (variously estimated to be 15 to 150 in number) had to be left behind at Petua Ghat for want of space on board. Those who succeeded in getting in complained to Krista about the overcrowding and some got nervous as the vessel listed from one side to the other and implored Krista to let them down on shore at Petua Ghat. But the gangway was withdrawn and they were not allowed to get down. Only one passenger, witness No. XXII Ananta Pattanaik, an educated man, was successful in inducing Krista to allow him to get down. Apparently, he succeeded where others failed, because he perhaps impressed Krista by being able to hold an argument with him in English. As a matter of fact, witness No. VI Krista admits that four passengers were actually put down as they were nervous of the list. The number of passengers are estimated by this group of witnesses to be from 400 to 650. According to them, the number of cattle on board was 30 to 45. There was no squall, no spray or shipping of water and no rush of passengers from one side to the other but the ship was listing heavily from the start and it capsized and turned turtle, as it was taking a turn at the place of the disaster.

Witness No. XXI, Dr. S. N. Sen, Meteorologist, proves that the self-recording anemometer at Saugor Island did not record any squall at about 12 noon on the 7th June last, the wind velocity being something like 14 miles per hour in gusts and the mean velocity being about 10 miles per hour. Saugor Island is not very far from the place of disaster and consequently it is improbable that there should have been any violent squall there. Dr. Sen admits in cross-examination that there may have been a purely local squall at the place of disaster even reaching a velocity up to 30/35 miles per hour without the same being recorded at Saugor. But as Dr. Sen says a squall of this velocity would not be dangerous even to country boats, and less so to a steam-launch and far less to a sea-going vessel like the "Manoung."

We have considered the two versions of the occurrence given before us very carefully and we have come to the unanimous conclusion that the version given by the employees of the Steamer Company and a few of the passengers does not represent the true state of affairs. The second version is in our opinion the substantially correct one, although the witnesses to this version may have exaggerated the numbers to a certain extent. Such exaggeration is after all to a certain extent but natural and does not, in our opinion, discredit the witnesses.

We prefer not to rely on the witnesses who prove the first version (which we may call the Steamer Company's version) for a variety of reasons. The employees, viz., the serang, the conductor and the so-called station master are after all highly interested witnesses. They would naturally try to clear their Company of all blame in the matter and also to clear themselves of all responsibilities for the disaster. As a matter of fact, we must remember that they apprehend they have legal liabilities over the affair, both civil and criminal. It is human nature therefore that they should minimise the numbers as much as they dare and ascribe any other reason for the disaster but overcrowding. Most of the passenger witnesses again, who support them, appear to have resiled from their previous statements before the Chairman of the Local

Board, Rai Bahadur Abanti Kumar Maiti (witness No. XXIII), who held an enquiry into this matter under the orders of the District Magistrate of Midnapore, who is the *ex-officio* Chairman of the District Board. We were not impressed with the rest of the witnesses of this batch either. Their version really does not tally with the circumstances and probabilities of the case.

As has been already mentioned, there is incontrovertible evidence that some passengers did get down at Petua on account of nervousness. It could not merely be on account of the list while the ship stood at the bank. This explanation by Krista does not explain the fact properly. It is evident that the ship must have been uncomfortably overcrowded as witness No. XXII Ananta alleges. There is also reliable evidence that some intending passengers had to be left behind. The only reasons for this must have been sheer want of space on board the ship. Krista and the serang claim to have actually counted the number of passengers coming on board. It was really the serang's duty to limit the number according to the certificate (Ex. 1). Krista, however, says that the serang did not count at all. As regards Krista also, it seems most unlikely that he should have done any counting. Passengers came on board over a long period of time and over the gangway as well as from country boats on both sides of the ship. It was practically impossible for Krista or anybody else to have kept anything like a correct estimate of the number coming on board in these circumstances. Krista would have had to virtually count the passengers again at the time of issuing tickets. It is too much to expect that he would do this duty twice over, specially as it was no duty of his strictly speaking. We do not believe that there was any counting of passengers at all at Petua Ghat but the passengers were allowed to get on board as they liked till every bit of available space on board was completely filled up.

As regards the reasons for the disaster, we are satisfied that there was no squall of any particular severity on the day and consequently no occasion for a panic amongst the passengers of the nature alleged by the serang and the other witnesses who came to support him. The story of the passengers rushing from the starboard to the port side of the steamer and this fact materially contributing to the capsizing of the steamer also fails to impress us. From both versions of the occurrence, it is sufficiently clear that the disaster was a very sudden one which allowed no time to anyone to behave in such panicky manner. It is admitted even by the serang that there was no screaming by anybody. If there had been any such panic as alleged, most certainly we would have expected a regular howl from the panic-stricken passengers even before they rushed from one side of the ship to the other. This is specially so as there were quite a number of female passengers on board and even the men were just common ignorant cultivators and petty traders.

On these grounds we disbelieve the version of the serang and his supporters materially. The other version seems to us to be the more reasonable and probable one.

We have tried to estimate the number of passengers and cattle on board. The estimate given by the passengers seems to us to be unreliable guess work. We are satisfied, however, that the entire space available was crowded up. It appears that there was available for passengers an area of 800 square feet or so on the two decks. There was an additional space of 50 square feet or so (the hatch area) and another 50 square feet or so odd spaces on board, *e.g.*, passages, alley ways, etc. These latter spaces also could be and were, according to us, occupied by the passengers. This gives us a total space of 900 square feet. From the evidence, it appears to us that about one-third of the legitimate passenger area (*i.e.*, one-third of 800 square feet=266 square feet) were occupied by the cattle. This left about 634 square feet for the passengers. The certificate (Ex. 1) allowed 3 square feet per passenger on smooth water. This would apparently allow reasonably comfortable accommodation for the passengers. It is clear to us that on this particular trip, the passengers were much more uncomfortably crowded than this allowance implies. Allowing for space occupied by passengers' luggage, some of which was placed on the decks, the bulk being in the hold, we feel that 2½ square feet per passenger would be a fair and safe estimate to adopt. At this rate 634 square feet would accommodate

about 254 passengers. In round figures, we should say therefore that there were at least 250 passengers on board. As regards cattle, the estimates of the conflicting groups of witnesses are less divergent. We do not therefore find that there were many more cattle beyond 22, the number admitted by the crew. A very conservative estimate of the numbers would therefore be 250 for passengers and 22 for cattle.

The ship was licensed to carry 133 passengers on partially smooth waters. The trip in question was over partially smooth waters. Krista admits it and the point was not seriously contested before us by Mr. Hazra during the recording of evidence. During argument, however, Mr. Hazra contested the point and argued that this particular stretch of the Hooghly has not been legally declared to be partially smooth waters inasmuch as rules have not been duly published under section 74 of the Inland Steam Vessels Act, Mr. Khondkar has not been able to point out in reply the exact notification in the local gazette declaring the limts of smooth and partially smooth waters on the Hooghly. But he has pointed out to us these limits as prescribed in rule 19, Part V of the Bengal Government Publication with title "Manual of Requirements as to the Survey of Vessels for Passenger Certificates (Certificates of Survey) under the Inland Steam Vessels Act, 1884," at page 117 (Edition of 1911). Mr. Hazra has not pointed out any other notification, rule or instruction laying down any different limits. The certificate (Ex. 1) uses the term "partially smooth waters." We are of the opinion that, in the circumstances, the owners and the serang were bound by these limits. I may mention here that witness No. VI Krista admits in his evidence that this was partially smooth water. We hold therefore that the trip was in partially smooth waters and the maximum number of passengers the steamer could carry on this trip under the license was 133. If any cattle were carried, a reasonable corresponding reduction must be made in this number.

We have found that 250 passengers and 22 cattle must have been carried at least on this fatal trip. For 22 cattle, a reasonable reduction of 66 passengers should have been made, assuming each head of cattle to occupy as much space as 3 passengers. No such reduction was made however. On the other hand, as many as 250 passengers were carried. The steamer accordingly carried the equivalent of 316 passengers (66+250) on board instead of 133, an excess of 183. This, in our opinion, amounted to gross overloading.

We next take up the question of the causes that led to the disaster. We have already discredited and disbelieved the theory put forward by the serang. In our opinion three causes contributed to the disaster. Firstly, the vessel was a cranky one, admittedly listing from one side to another of itself. This was apparently due to an insufficiency of ballast in the hold. Secondly, the vessel was badly overcrowded. This resulted in making the ship more top-heavy than ever and consequently less stable. Thirdly, the immediate cause which proved to be the last straw on the back of the camel was the turn that the vessel was taking at the place of the disaster. The swell and the tide apparently affected the stability of the ship for the worse on the helm being put over at this particular spot and the ship capsized as a result of the cumulative effect of all these three causes.

Having disposed of the two main lines of controversy in regard to this disaster, we proceed to answer the questions set before us in this enquiry:—

Question 1.—When S. S. "Manoung" left Petua Ghat on her last voyage, was she properly manned?

Answer.—Our answer to this is in the affirmative.

Question 2.—Was she seaworthy and properly equipped with life-saving appliances?

Answer.—She was undoubtedly seaworthy as her past services as a coasting vessel amply show.

This ship carried six life-buoys. Rule 24, page 57 in Part IV of Manual of Requirements cited above, lays down that there must be one life-buoy for every 25 passengers. This ship was therefore properly equipped for this trip on partially smooth waters provided the maximum number of passengers 133 was adhered to. But on smooth waters, the ship was entitled to carry 266 passengers under the certificate and accordingly it should really have carried 11 life-buoys. Witness No. IV Commander Orchard

admits that the certificate of survey (Ex. 1) is in this respect incorrect.

Question 3.—What was the number of passengers on board?

Answer.—We cannot give an exact figure in answer to this. But we are of the opinion that there must have been at least 250 passengers on board.

Question 4.—How many heads of cattle were on board?

Answer.—As we have explained, there were at least 22 heads of cattle on board. The actual number seems to have been about 25.

Question 5.—Were any steps taken to ascertain that the number of passengers embarked did not exceed the number for which the vessel was certified? If so, what steps?

Answer.—We do not believe any such steps were at all taken.

Question 6.—What reduction was made in the number of passengers to be carried on account of cattle?

Answer.—No reduction was made on this ground.

Question 7.—Was there any cargo on board? If so, to what approximate amount and where stored?

Answer.—There was no cargo properly speaking. But there were some amount of passengers' luggages and goods. Some of it was stored in the after-hold and some on the deck. We are unable to form any approximate estimate of the amount thereof.

Question 8.—What fuel, water and stores were on board?

Answer.—The evidence on this point comes from the crew and Mr. Gaebele entirely. There seems to have been about 9 tons of coal, about 2 tons of water and a little stores belonging to the crew.

Question 9.—To what cause or causes do you attribute the accident?

Answer.—This has been discussed above at length. The causes were threefold:—

(1) There was gross overcrowding.

(2) The ship was cranky and unstable —apparently on account of insufficient ballast.

(3) The ship was taking a turn at the spot and the tide and the swell reacted still more unfavourably on the already defective stability of the ship, thus capsizing the ship.

Question 10.—Was there loss of life, and if so, to what extent?

Answer.—There certainly was loss of life—and in our opinion, a considerable loss too. From the legal evidence before us, we are unable to give even an approximate estimate of the number.

Mr. Khondkar has produced through witnesses two lists of persons alleged to have died in this disaster. The first list contains 107 names and was prepared on 26th June 1934 by witness No. XXIII Rai Bahadur Abanti Kumar Maiti, Chairman of the Local Board, who held an enquiry locally. The second list, containing 201 names, was prepared on 5th September 1934 by witness No. XXV Paresh Nath Banerji, Sub-Inspector of Police. The defence naturally objected to these lists. The lists are not really legally admissible and we cannot pass any opinion whatsoever on the correctness or otherwise of these lists.

We get, however, from some of the witnesses that some of their relatives and acquaintances actually died as a result of this disaster. Thus witness No. X Rakhal Routh says four of his relatives died. Witness No. XI Mahendra Nath Pradhan speaks of one of his acquaintances having died. Witness No. XIII Gajendra Mandal says two of his relatives and four or five of his acquaintances died. Witness No. XXII Ananta says five of his neighbours died. Assuming these men to speak of different persons, 17 persons have been *proved* to have died. Naturally, we could not take all the evidence of this nature which might possibly have been produced on behalf of the Crown. The enquiry would then have assumed unwieldy proportions. Mr. Khondkar on behalf of the Crown did not attempt to exhaust all such evidence quite reasonably.

Question 11.—Did the life-saving appliances carried by the vessel materially contribute to the saving of life? If not, have you any recommendations to make concerning life-saving appliances carried in these small vessels?

Answer.—There is evidence to show that only two men were saved by one of

the life-buoys. The appliances therefore did not materially contribute to the saving of life.

We strongly recommend that the rules providing for the carrying of life-saving appliances should be revised and strengthened. The number of buoys required to be carried by these ships should be doubled. The members of the Court are also agreed that there should be some form of additional buoyant life-saving apparatus to be carried compulsorily by these passenger-carrying vessels. All of us except one member agree that in most cases light bamboo rafts to be carried in such a manner that they would float up as soon as a ship goes down would be the most suitable and the simplest contrivance. We do not, however, propose here to go into the details of the proposal, e.g., specific requirements of rafts or similar contrivances for different kinds of river craft (country boats and steam-launches big and small).

Question 12.—Do you attribute blame to anyone; if so, to whom and why?

Answer.—(1) The serang is to blame for this disaster primarily. In our opinion, he utterly failed in his duty of checking the number of passengers with a view to prevent overloading. He is also to blame for persisting in starting on his voyage with an overloaded steamer. The rules require that tickets are to be sold on land before a passenger is allowed to board a vessel. The serang, as the master of the ship, also failed in his duty in allowing passengers to embark on the vessel without tickets having been issued to them prior to the voyage.

(2) The owners of the ship are also to be blamed for failure to make proper arrangements for selling tickets on land and for controlling the number of passengers going on board, as we have seen, there was no station house built and no proper station master functioning at Petua Ghat. Their conduct is also reprehensible for running a cranky ship like the S.S. "Manoung" without proper ballast. Mr. Gaebele knew of the defect but took no steps apparently for inviting expert opinion as to how to remedy the same.

(3) We are also of opinion that the District Board were also hasty in giving the lease of the monopoly of the ferry to the Steamer Company without first satisfying themselves that the service would be carried on efficiently and safely. The evidence of the Rai Bahadur and of Mr. Gaebele makes this abundantly clear. It also appears that the District Board should have set up some sort of machinery for supervising and controlling the ferry service so that efficiency and safety might be ensured. It appears that there were supervisors for this duty during the time country-boats were serving the ferry, but the supervisor at Petua Ghat was discharged some time ago when a steamer service was established with S.S. "Mavis" doing the trip. Evidently, the District Board was content to leave matters to the entire discretion of the Steamer Company. This, in our opinion, amounted to shirking of responsibilities. By accepting revenue from the ferry service, a moral duty and responsibility are cast on the District Board to look to the safety and comfort of the passengers. They cannot get away from this responsibility by leaving everything to be done by the Steamer Company.

It is not clear to us whether the District Board had a statutory duty in this regard. If they had none, the law or statutory rules thereunder should be amended as found necessary in order to make the District Board responsible for seeing that conditions of the lease are followed and the passengers who pay their fare are carried reasonably, safely and comfortably across.

Question 13.—Should any certificate be dealt with, if so, to what extent?

Answer.—The serang's certificate should be cancelled permanently in view of his incompetence and neglect of duty.

The 24th October 1934.

Assessor's opinion.

I. When "Manoung" left Petua on her last trip, was she properly manned?—Yes.

II. Was she seaworthy and properly equipped with life-saving apparatus?—During her trip down river she was reported to be cranky. She must have been underballasted. The vessel carried six life-buoys instead of double the quantity.

III. What was the number of passengers on board?—Over two hundred.

IV. How many heads of cattle were on board?—Twenty-five.

V. Were any steps taken to ascertain that the number embarked did not exceed the number for which the vessel was certified, if so, what steps?—None.

VI. What reduction was made in the number of passengers to be carried on account of the cattle?—None. Attendants and cattle with passengers were huddled together.

VII. Was there any cargo on board? If so, to what approximate amount and where stowed?—A considerable amount of passengers' luggage and merchandise was stowed on deck, but no freighted cargo in the hold.

VIII. What fuel, water, stores, were on board?—About 3 tons of coal in the bunker *plus* 5 tons of coal stowed in the forehold, as ballast, 6 small water tanks of 40 gallons, and crew's personal belongings.

IX. To what cause or causes do you attribute the accident?—An excessive amount of passengers on both the bridge and main decks *plus* cattle and implements and merchandise rendering the vessel top-heavy. It has been definitely ascertained that the vessel took one roll while altering her course, with the ebb tide athwart her beam and did not recover, but capsized suddenly.

X. Was there any loss of life, if so, to what extent?—Yes, the number cannot be ascertained.

XI. Did the life-saving appliance carried by the vessel materially contribute to the saving of life? If not, have you any recommendation to make concerning life-saving appliances?—No. Owing to the suddenness of the disaster neither the boats nor the life-buoys proved of any avail. As this class of vessel is not obliged to carry but a limited number of life-buoys, we would recommend that the present number of buoys should be doubled and that at least two bamboo (?) rafts should be carried in the most convenient place on the main deck or roof.

XII. Do you attribute blame to any one? If so, to whom and why?—Yes. In the first instance to the owner or manager of the company for the inadequate and careless manner that arrangements were made to embark and disembark passengers, and secondly for the gross ignorance in allowing the passengers to embark without tickets and in not having a competent supervisor or station master at Petua Ghat.

The serang's certificate should be cancelled for endangering his vessel by overloading and criminal negligence.

NOTIFICATION.

No. 1142L.R.—18th January 1935.—The following report of the Bengal Board of Economic Enquiry on rural indebtedness, together with connected papers, is published for general information. Any public bodies or individuals who desire to make any representations regarding any of the recommendations should submit them to the Secretary to the Government of Bengal, Revenue Department, on or before the 15th of March, 1935.

O. M. MARTIN,
Secy. to the Govt. of Bengal.

Preliminary Report of the Board of Economic Enquiry on rural indebtedness.

The Board was constituted by Government Resolution of 1st December 1933 to conduct inquiries into such economic matters as might be referred to it by the Local Government and to initiate and conduct, subject to the sanction of Government, enquiries into other economic matters.

2. The personnel of the Board was not finally settled till 26th February and the first meeting could not take place till 14th March. In the meantime, however, the note of Government dealing with the indebtedness of the agricultural population of Bengal and discussing the broad aspects of the problem had been circulated to all members. Apart from the question of reconciling the diverse reports of the Jute Committee this is the only subject which has been referred to the Board in accordance with the terms of reference.

3. His Excellency Sir John Anderson was good enough to open the first meeting with a short address which was much appreciated by all the members. A general discussion of the scope of the Board's activities followed and the extent to which it would be necessary for it to make inquiries on its own behalf and the agencies it could employ. It was pointed out that there was a vast volume of statistical information available about the budget and economic condition of agricultural families in Bengal in settlement reports and the publications of the Government of India and the publications of the Agricultural Department of the local Government and the reports of the Banking Committee. The general feeling, however, was to the effect that nothing could be done until this material had been investigated and epitomized and placed before all the members in a convenient form. Arrangements must, therefore, be made for remedying the deficiencies and making supplementary inquiries. It was felt that, if nothing else was necessary, local inquiries must be made as to the extent indebtedness had increased during the last three years of depression.

4. A Statistical Sub-Committee was then selected to undertake these duties. Another sub-committee was appointed to study the legislation which had already been undertaken or suggested in this and other provinces with a view to relieving the problems of usurious interest and growing indebtedness. A third sub-committee was formed to

study the constitution of the new land mortgage banks and other forms of credit societies and to make suggestions for their improvement and development. Both these sub-committees were given the task of studying the financial aspects and considering what sort of staff would be required if a scheme of debt conciliation and rural insolvency proceedings was approved in principle.

5. The Statistical Sub-Committee decided to rely in the first place on the inquiries which had been made in February to March 1934 by the Collectors in two or three villages of each circle in the Province. The information thus gathered as regards 6,359 families in sixteen districts was collated in the statistical laboratory of the Presidency College of Professor Mahalanobis, one of the members of the Board. The object of the analysis was to find out how many families there were in Bengal of the classes with which the Board was chiefly concerned, i.e., those with a stable interest in their lands who were mainly dependent on agriculture for their livelihood who could be classified as solvent, of doubtful solvency, or as insolvent. The test which it was decided to apply was that families whose debt did not exceed twice their present income after deducting the food consumed could be placed in the first class, those whose principal debt did not exceed four years' income in the second class, while those whose debts exceeded the latter figure must be regarded as insolvent. When the forms were devised however the importance of the area which each family cultivated as a *prima facie* indication of its ability to maintain itself in comfort in normal years and to give it reasonable prospects of a surplus wherewith to repay its debts was not realised and the forms did not lend themselves easily to this analysis. There were other defects in the forms also. From the majority of the forms as filled up it was difficult to ascertain the amount of interest that had accumulated and the actual difference between the principal indebtedness in 1928 before the depression and in 1933 after the depression. For this reason the Professor was obliged to base his statistics on the principal indebtedness, ignoring interest. As the scheme recommended by the Board is based on a general belief that the money-lenders are prepared at the present time to sacrifice the greater part of their accrued interest provided they are given sufficient assurances of the repayment of the capital, this defect is not perhaps serious. To some extent it has been neutralised by taking the income at the height of the depression for purpose of comparison with the debt.

More serious defects are the small proportion of the families in each district and therefore in the Province as a whole whose circumstances were investigated and the incurable difficulty of expecting the uneducated tenants of Bengal to remember their outgoings and incomings of three years ago or even to give accurate statements of their present debts, much less of their actual expenditure. The scientists among our members were also much impressed by Professor Bowley's report to the effect that no reliance could be placed on figures based on specimens unless those specimens were selected strictly at random. The instructions to the Circle Officers had been to select typical villages for their enquiries. When, however, the specimens represented so small a portion of the aggregate as they did in the case of these inquiries, most of us thought that the main thing was that no specimen should be abnormal or it must vitiate the results for the district, and this is all that the instruction to the Circle Officer meant in practice.

6. The tests which Professor Mahalanobis was able to apply to the statistics collated for Faridpur, the first district completed, satisfied him that the results were on the whole satisfactory. The general resemblance of the results subsequently placed before them for other districts completely satisfied the other members. The statistical committee were able to present the figures given in Appendix I as a working basis and the Board at their meeting in August accepted them and decided that no further inquiries were essential at this stage, though all additional or supplementary material available should be used for purposes of verification and comparison. Certain inquiries on a revised form were being made in certain districts. They were made under the personal supervision of Babu Nihar Chandra Chakravarty, the Board's Assistant Secretary. They were designed to remedy the defects which experience had disclosed in the previous inquiries, especially those due to varying interpretation by the inquiring officers of the rules laid down for their guidance and hence to eliminate as far as possible the personal element. The results of these supplementary enquiries are summarised in Appendix II. The summary of the results of an economic enquiry made by the Settlement Department in Rangpur is given in Appendix V.

7. On one point of particular importance the inquiries hitherto referred to threw very little light. The purpose of the debt conciliation scheme as outlined in the Government note was to relieve the agricultural debtors. Some members of the Board were inclined to believe that the scheme was almost equally of advantage to the creditors. It was one of the chief assumptions on which we were working that the money-lenders as a whole had failed to collect any interest, much less any part of the capital of their outstanding loans, during the last three years. Some of them might have sued their debtors in the civil courts, but owing to the absence of purchasers at a reasonable price execution proceedings dragged on indefinitely, and if the land was sold it was difficult to get possession or to find other cultivators to take settlement. If the number of cases in which the creditors sold up their debtors was say 5 per cent. only and in 95 per cent. of cases the debtors paid nothing and remained in possession of their land without any penalty, the consequence in course of time would be that the present indebtedness of the vast majority of agricultural population would be wiped out by limitation and the mahajans would lose their capital. If there was anything in this view, then legislation was as essential in the interests of the mahajans as in the interest of the debtors.

By the courtesy of the Inspector-General of Registration, all the Sub-Registrars in the Province were addressed to make particular inquiries as to the proportion of tenants with decrees recently executed against them or hanging over them, but the results have not yet come in.

8. The material which the Board has accepted may be summarised as follows:—

There are 50 lakhs of agricultural families with a permanent and transferable interest in their lands. They are mainly occupancy raiyats though some tenure-holders who cultivate part of their lands are included and some under-raiyats. Agricultural labourers and temporary under-raiyats or bargadars are excluded.

23 per cent. are not in debt at all.
43 per cent. are in debt less than two years' income (Class A).
Total debt Rs. 27 crores.

16 per cent. are in debt less than 4 years' income (Class B).
Total debt Rs. 23 crores.

The total indebtedness is in the neighbourhood of Rs. 97 crores.

22 per cent. of the 22 lakhs of families in the second class have land less than 2 acres and 21 have more than 8 acres. 21 per cent. of the 8·5 lakhs of families in the third class have less than 2 acres and 11·5 more than 8 acres.

9. While this information was being collected, the other sub-committees and the staff of the Board were considering the legislation and experiments that had been made in other provinces and in certain native states and seeking to find an answer to the questions put before them by Government. It was realised that the problem was immense and that it did not matter for practical purposes whether 40 per cent. or 70 per cent. of the agricultural families were in debt or whether their average debt was Rs. 50 or Rs. 150. The real figures for any individual family would only be ascertained when the actual work of dealing with their debt began if then the work of conciliation could only be undertaken as an experiment and the only practical question was the extent of the experiment. This was dependent not on the programme, but on the resources of Government as regards finances and staff.

9A. One of the questions asked in the Government note was whether the agriculturists had sufficient surplus to repay their existing debts. From the figures given in Appendix I, Table 1, there is an average deficit between income and expenditure of 22 rupees. In Bankura the annual deficit is as much as 83 rupees and the agriculturist spends nearly twice his income. But in Chittagong there was an even heavier deficit according to the figures given by the inquiring officers in 1928 before the depression started. On the other hand, in the districts where the subsequent inquiries were made which are summarised in Appendix II, a surplus is shown in all districts which goes as high as 29 rupees in Dacca in 1928. The Board are of opinion that much importance cannot be placed on the figures for income and expenditure either in 1928 or 1933. The important thing is that the average debt shown in the last column is in all cases considerably less than one year's income in 1928. Expenditure has been shown to have decreased by 40 per cent. between 1928 and 1933. There is no reason why it should not decrease still further. There is a possibility also that income may again approximate the figures of 1928, as the price of rice has already gone up in all districts. The Board are therefore of opinion that all the families whose capital debt does not exceed twice the income of 1933 can repay their debt after the conciliation or adjustment by equated payments spread over a period of from 10 to 15 years.

As regards the families in class B whose debts are between 2 and 4 years of their calculated present income, the position is not so clear, but for similar reasons the Board are of opinion that if excessive interest is ruthlessly cut down, they should be able to pay off all their debts in equated payments spread over 15—25 years. In this class everything depends on the amount of land each family has and we have unfortunately not got the figures of average debt of families with 2, 4, 6, 8 acres of land, respectively. The average debt of this class

is 270 and the average income of all families was 218 in 1928. We see no reason to suppose therefore that all families in this class with more than 2 acres of land are not in possession of the necessary surplus. It is probable that the average debt of families with between 2 and 8 acres is less rather than more than the average.

The idea of the Bill which has been drafted is that an Adjustment Board should take up every case and deal with it as a whole. All the debts of each family must be reported and examined and instalments for payment will then be fixed. The civil courts will have no jurisdiction as regards the debtors who have come under the operation of the Act except as regards debts incurred after the award and decrees for such debts cannot be executed until the awarded debts have all been paid. If the debtor fails to exercise economy and to pay off his instalments, the Certificate Officer will issue certificates, and in case of repeated defaults he will sell all the land and treat the debtor as an insolvent. In fixing the instalments the Board will have regard to the surplus. In adjusting the debts it will be guided by amicable arrangements agreed to by a proportion of the creditors under section 12, or by reasonable offers made by the debtor or creditor under section 14. In either case it will adjust all the debts of that particular debtor and there will be no great difference of principle or system.

As regards insolvents who roughly correspond with the class whose debt exceeds four years' income, there will be a difference of principle. In the case of the classes previously mentioned debts will not ordinarily be reduced below the amount of the principal. In the case of insolvents they will. As far as we know all existing and proposed schemes for rural insolvency proceedings provide for selling up all the property of the debtors with the possible exception of their homesteads, agricultural implements, and cattle. We propose to reduce the debts of the insolvent to the amount it is estimated he can pay in instalments extending up to 20 years provided he exercises rigid economy. Our proposal is not so likely to cause an upheaval in agrarian societies and should not give rise to any new problems. It is far kinder to the debtor because he will be left with his land and given another chance. If, however, he does not take advantage of this chance and if he fails to pay the instalments which may be fixed punctually, he must be sold up ruthlessly. Some of our members are of opinion that even his homestead should be liable to sale. It greatly reduces the value of the land to a purchaser if part of it is occupied as a homestead by the ex-tenant. There is a danger in leaving a large number of families on the land with no land of their own to cultivate. It can at best lead to an extension of the system of barga cultivation, which has generally been held to have a bad economic effect on agricultural conditions. Further it seems desirable to make a distinction between the fate of those debtors who are sold up as insolvents after their debt has been drastically reduced to the amount they can pay and those who have failed for perhaps no fault of their own to pay liabilities not so reduced.

10. The Bill referred to above (Appendix IV) is drafted on the lines of the Central Provinces Act and the Punjab Bill. Its main provisions are as follows:—

(*a*) A Debt Adjustment Board will be constituted in as many centres as Government finds possible to receive applications both from debtors and creditors of the agricultural classes. [Central Provinces Act, section 4 (*1*), Bill, section 3 (*1*).]

(*b*) It can dismiss any application summarily; if not it can call for detailed statements from both debtors and creditors and fix a date for hearing both parties within one month; the amount of debts not stated by the creditors will be treated as the amount admitted by the debtor. The Board can extend the time for application if it sees good reason, but is not bound to do so. [Central Provinces Act, section 7 (*1*), Bill, sections 7 (*1*) and 8 (*2*).]

(*c*) The Board, if the creditors and debtors to the extent of 60 per cent. of the debts agree to conciliation, can settle all the debts of that debtor and the award counts as a decree of a civil court. [Central Provinces Act, section 12, Bill, section 12.]

(*d*) The Board, if it thinks either debtor or creditor has made a reasonable offer, can make an award for all the debts provided the amount awarded is not less than the principal of the debt, otherwise it dismisses the application. [Central Provinces Act, section 15, Bill, section 14.]

(*e*) If after an award any instalment becomes overdue, it can be recovered by certificate procedure. [Central Provinces Act, section 13, Bill, section 14AA.]

(*f*) Debts incurred after the award cannot be sued for till all the certificated debts have been realised. [Bill, section 17A.]

N.B.—It is thought that this will deter mahajans from lending more to those debtors and that by notices in union boards and sub-registration offices it is possible to give sufficient publicity to the names of the people who have come under the operation of this Act.

(*g*) Where the Board judges a tenant to be insolvent, it can reduce the debt to the amount he can pay, say 75 per cent. of the value of his land or assets, and fix instalments for its payment. [Bill, section 14(B).]

(*h*) If the instalments are not paid punctually, the Board can sell up all the property except the homestead itself. It will pay creditors proportionately from proceeds and release the insolvent from any further liability. [Bill, section 15.]

(*i*) The civil court will have no jurisdiction while proceedings are pending before the Board and cannot interfere with their awards. All the lands which are the security for the awarded debt will be attached as under section 64, Civil Procedure Code. [Bill, section 7A.]

(*j*) The Board will notify the landlords of the debtor's lands and execution of rent decrees will be postponed for six months. [Bill, sections 14AAA and 17A.]

(*k*) The awards will be transferable and they can be taken over for collection by any approved credit society. [Bill, section 23 (*1*).]

The Board are in favour of legislation on these lines being passed at the earliest possible date and there are not many provisions in the Bill on which there are great differences of opinion. The exception is the question of the effect of attachment of the lands of the debtor till the award is discharged on the security of the landlord for his rent and how the payment of the current rent can be ensured. As a possible means of meeting this difficulty, the proviso to section 17A has been drafted for the consideration of Government.

11. The questions which have given rise to controversy and on which full agreement has not been reached are connected with the working of the proposed Act. The first point on which some of the members are not convinced is whether conciliation alone without some attempt at simultaneous part payment in cash or debentures of the

creditors' dues will yield results worthy of the organisation and expenditure involved. In the Government note it was suggested that unless payments in cash were arranged the creditors would have no inducement to agree to substantial reductions of their claim. All the members are in favour of Government starting land mortgage banks in every subdivision as soon as possible, but as it is regarded as an essential feature of such banks that they should not lend more than 50 per cent. of the market value of the debtor's land, it is felt that these banks will not, even if they could be established in great numbers in a short time, be of much help to the ordinary cultivator, the class which represents 70 per cent. of the rural population of Bengal. The essential feature of the existing rural co-operative banks is that each member should be security for all others and even if these banks were available in every village the scheme is too big to be worked on purely co-operative lines. If Government could see its way to raising Rs. 2 crores and distributing it like agricultural loans through its own officers in order to pay to each mahajan one out of 8 or 12 instalments of every awarded debt, the chances of the scheme being a success would be increased enormously. If Government thinks that its natural objection to take upon itself the odium of becoming the direct money-lender of the agriculturist is insuperable, it might be considered whether each union board could become a temporary bank lending money advanced by Government from a public loan. For a year after the first instalment had been advanced there would be no work to do and there would be time to get the account system in working order or to arrange for independent banks to take over the credits and liabilities. Whether any scheme is possible or not with this end in view the members who are doubtful still unhesitatingly recommend that debt conciliation and adjustment should be taken up on as wide a scale as possible. They are of opinion that the fact that the machinery of the Certificate Department will be available for realising their dues instead of the civil court and that the Certificate Officer will himself be responsible on application for taking the initiative and that the lands of the debtors will be attached all the time the instalments are being paid will be sufficient inducement, more especially perhaps to the creditors of families who are deeply in debt and from whom they cannot expect any voluntary payments. Though this is not exactly clear from the Bill some of the members contemplate that the Revenue Officer will be responsible for receiving all monies due to creditors and that the creditors will get nothing direct. This seems to be a heavy burden to put on the Revenue Officer, but it would avoid disputes and the giving of insufficient credit for payments actually made.

12. The next question was how far the working of the Act should be treated as an experiment. This is largely a matter of words because the scheme must be an experiment. It is obviously impossible to deal with the debts of 39 lakhs of families simultaneously. It has been assumed that no Board can deal with more than 600 cases a year and that it would take 680 Boards to cover the Province in three years even if their attention is confined to the 12·30 lakhs of solvent families with between 2 and 8 acres of land. (Appendix III.)

The Board contemplate that as a beginning one Board should be constituted in every Chaukidari Circle Officer's jurisdiction at once with the Circle Officer or a Munsif as President and that a second officer, preferably a junior Sub-Deputy Collector or a Settlement

Kanungo should be appointed as his executive officer and Certificate Officer. Two or three retired Government officers or non-officials would be members, and after this Board had acquired some experience each of the original members would go out with new members to work as subsidiary Boards independently. There are at present 179 Circles in Bengal and circles where there were many applications and where the work prospered would gradually be split up into two, each with its own Circle Officer and executive officer. The number of panels or subsidiary Boards in each circle would depend on the quality of the people available as members and the general progress. In order to complete the programme in three years, on an average each Board would have to be divided eventually into 6 or 7 subsidiary Boards working independently. The operation of the Act would be an experiment in the sense that its working would be constantly watched and its system varied as defects became apparent; further, considerable variations would be allowed in different areas to give an opportunity of testing various methods. But to judge the success of an experiment of this nature from the point of view of determining whether it was possible to prevent the agriculturists getting into debt again or whether in reasonable number of cases no loss at all to Government was involved would take 10 or more years. The Board are strongly of opinion that the scheme should not be treated as an experiment from this point of view; they say that similar schemes have been successful in one Indian State and that Government must act on the presumption that it will be a success because no alternative has been suggested by anybody and there is absolute agreement that the present indebtedness of the agricultural population and the inability of the mahajans to recover their full dues and to lend out more money even in urgent cases call for drastic remedies. It has been argued that as there is no other scheme to fall back on if this is a failure, it must be made a success by profiting from the mistakes and correcting the procedure, and altering the law. A set determination to proceed with the scheme in spite of failures and losses here and there will rally in its favour all workers social and political.

The Board do not, therefore, recommend that the Act should be applied only to a few districts or to one thana or subdivision even in each district.

13. It was the main recommendation of the District Administration Committee that Government should have their own resident officer in units as small as possible. It is the proposal of others including the Indian Chamber of Commerce that there should be in every group of unions resident officers to bring into co-ordination the work of the Agricultural, Industries, Co-operative and other departments. The scheme of our Board would work in with all these proposals of which the object was closer touch between Government and the people in the villages. Circles would become smaller and their Circle Officer would have wider and more diverse duties. With the help of their executive officers they might revise and then maintain the record-of-rights in their circles, they would execute all certificates, inspect co-operative banks and enforce jute restriction and other schemes connected with the economical development of the villages.

14. As regards the cost of the extra staff required, it is proposed that there should be a levy of 1½ per cent. in court-fee stamps on every application for adjustment and that the Circle Officer should

realise all instalments and pay the creditors and that there should be a levy of 3 per cent. on all sums collected and paid. If the creditors eventually paid these fees it would be much cheaper than the costs they would have incurred in civil courts.

15. The Bill as drafted provides for the reduction of the debts of insolvents to the amount they can pay in not more than 20 instalments. If a man's property is only worth 60 per cent. of his total debts, the mahajan by selling him up in the civil court would not realise as much as 60 per cent. of his claims. It is argued therefore that the creditors cannot lose by agreeing to such adjustment and the relief the scheme will give to such people is far more valuable than the relief solvent debtors will obtain. Sir E. Benthall after first being in favour of taking up the easier cases first is now of opinion that the definite objective should be to deal with the more difficult cases first. The majority of the Board are not in favour of limiting the operation of the Act as drafted to any particular class of debtors either in the first stage or eventually. In every area the class of cases given preferential treatment will depend on circumstances, e.g., if funds were available for paying instalments, then the money available should be used to benefit as many individuals as possible and cases of indebtedness of less than Rs. 200 might be taken up first: If any restriction is imposed the Board suggests that no cases of indebtedness exceeding Rs. 1,000 should be taken up and that families with more than 8 acres could be left out on the ground that such people could sell some of their land and look after themselves. If further restriction is necessary families with less than 2 acres could be left out because it is doubtful if such families can ever support themselves on the proceeds of their land alone. If their mahajans are willing to leave them alone and to get what they can gradually, Government would be doing the debtors no good by interfering. If they are in debt to any great extent it is impossible to prevent them becoming landless labourers sooner or later because they have no surplus wherefrom to pay interest or principal of any debt.

16. One of the points raised in the Government note was the prevention of future borrowing. Mr. N. Sarkar was very anxious that future borrowing should not be restricted too drastically. A man might want to buy more land and temporary borrowings to buy seeds, etc., might be necessary in many cases. The Board are of opinion that when say 6 out of 8 instalments have been paid there is no reason why the debtors should not be able to borrow again for productive purposes and they do not think that the provisions of the Bill as drafted will prevent it.

On the other hand the Bill seems to go far enough in preventing further borrowing. Until the awarded debt is discharged, the would-be lender will have no security except the ornaments or personal credit of his borrowers. Proceedings of the magnitude contemplated cannot go on anywhere in secret and the money-lenders should not be allowed to plead ignorance if before issuing a loan they have failed to ascertain whether the borrower has taken advantage of the Act or not.

17. All the members have agreed that arrear rents except those barred by limitation should be included in the certificated award and that possibly they should be given priority of payment; nearly all the members have agreed that the different tenancies of the debtor should

be attached on the analogy of section 64 of the Civil Procedure Code, until the awarded debt is paid off. But there are great difficulties in providing for the regular payment of current rent. The award will not be of much use to the creditors if in the meantime the tenant defaults and the landlord sells the holding under the Tenancy Act. But the landlords will resist the proposals vigorously if they think that their long admitted right to treat rent as a first charge is being encroached on. At first it was proposed that section 168 of the Tenancy Act should apply but this merely means that if the first sale subject to the encumbrance of the awarded debts fails, another sale free of this encumbrance will take place. The next proposal was that the debtors should be responsible for producing their rent receipts before the Revenue Officer each year, and that if they failed to do so he should take action under the Certificate Act, as if an instalment had not been paid. The proposal in the Bill is that the landlord can bring a suit for current rent, but he must give six months' notice before proceeding to execution. That would, it is thought, give time for the creditors to arrange for payment.

18. During the past few years there have been combinations of raiyats not to take settlement of purchased holdings and it is well known that certificates against the members of bankrupt co-operative banks filed by a liquidator are seldom successful. Past experience shows that there is a considerable danger that if defaults are common in any neighbourhood and many villagers are sold up, nobody will buy the land for fear of litigation and that the creditor, whether he be Government or a land mortgage bank or a private individual if he has to purchase, will not be able to settle the land. It was suggested that in the case of sales under this Act the purchaser should acquire the land with a clear title and only be responsible for money claims as compensation to any co-sharer who declared that he was not a party to the proceedings. Opinions are divided, but it seems doubtful if the general public would at present consent to any such special provision. If the Collector has the power to deliver possession to the purchaser by ejecting the old tenant or his sub-lessees, pending the decision of title in a regular civil suit, it is possible that if the public approve the principles and are satisfied that the instalments fixed for payment were well within the capacity of the debtor to pay, they will have no sympathy with defaulters and that the difficulty will not often arise. Section 14AAA as incorporated in the Bill for the consideration of Government may suggest lines on which a solution of the difficulty may be found.

19. The members are practically unanimous that interest on the awarded debt should not exceed 6 per cent. Whether it will be necessary to calculate this annually and to add it to the instalments is not certain. If Government or a bank advanced the amount it would be convenient if they could wait till all the instalments had been paid and then collect an extra instalment when the debtor was otherwise free from debt to cover all interest and expenses.

20. When the Bill was first drafted it was assumed on the analogy of the Central Provinces Bill that all awards would be registered. Most of the members are now of opinion that the registration will be unnecessarily expensive and troublesome. The awards will be filed in the office of the Conciliation Board or when the Board ceases to function in the office of the Revenue Officer who will carry on the executive functions of the Board. Record in this office should be given the effect of registration by the Act.

Explanatory Statement to Appendix III.

Estimate for Debt Conciliation work in Faridpur.

(The total number of families of the raiyats with occupancy rights in land has been taken from the total number of earners of the cultivating class shown in the Census Tables. Probably this is an overestimate because some families have more than one " Earner ".)

Number of families of classes A, B and C debtors are 145,000, 57,000 and 60,000, respectively.

Progress of work—

600 cases per Board per year for whole-time Board.

Disposal of work in 3 years—

81, 32 and 33 Boards in all 146 Boards would be required for A, B and C classes, respectively.

Cost for each Board—

	Per mensem.
	Rs.
One Revenue Officer	200
,, Orderly	10
,, Clerk Peshkar	30
,, Enquiry Agent	30
Fixed travelling allowance for Enquiry Agent	10
Peon	12
Boat hire, etc., for non-official members of Board	20
Contingencies	8
Total ..	320

There are 9 circles in the district, each on an average with one Sub-Registrar, one Circle Officer, one Sub-Inspector of Schools and one Co-operative Auditor. Altogether they will give 18 officers' work if they work half time. If only one Revenue Officer be given for each circle and the works of the Boards are done to a large extent by non-official agency, the actual extra cost incurred by Government on gazetted officers will be the pay of these 9 Revenue Officers only. Each Subsidiary Board will, however, require its own clerk and peons and Enquiry Agent. Assuming, however, that half the pay of all existing Government officers proposed to be employed on this work should be included in the scheme. The calculation of cost is as follows :—

	Rs.
9 Revenue Officers for three years, 36 half-time officers or 18 officers, i.e., 27 officers in all for three years at Rs. 200 per mensem	1,94,400
Establishment for 146 Boards at Rs. 120 per mensem for three years ..	6,30,720
Total ..	8,25,120

APPENDIX IV.

THE BENGAL RELIEF OF INDEBTEDNESS BILL.

A

BILL

to provide for the relief of indebtedness and the improvement of agrarian conditions in Bengal.

WHEREAS it is expedient to relieve agriculturists from indebtedness and to improve the position of the agricultural population by helping them to settle their debts on fair terms ;

AND WHEREAS the previous sanction of the Governor-General required under section 80A(*3*) of the Government of India Act and the previous sanction of the Governor required under section 80C of the said Act have been obtained ;

It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called "The Bengal Relief of Indebtedness Act, 19 ."

(*2*) It extends to the whole of Bengal except the town of Calcutta as defined in the Calcutta Municipal Act, 1923.

(*3*) This Act shall come into force on such date and in such areas as the Local Government may, by notification, direct.

Interpretation clauses.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) The expressions "agriculture", "holding", "land", "tenant", "occupancy holding", "agricultural year", "landlord", "rent", and "village" shall have the meanings assigned to them in or under the Bengal Tenancy Act, 1885.

(*2*) "Loan" means a loan whether of money or in kind and includes any transaction which is in the opinion of the Board in substance a loan.

(*3*) "Debtor" means a person who owes a debt or debts, whose primary means of livelihood is agriculture.

(*4*) "Debt" includes all liabilities of a debtor in cash or in kind, secured or unsecured, payable under a decree or order of a Civil Court or otherwise, whether mature or not, but shall not include trading debts, arrears of wages, or any money for the recovery of which a suit is barred by limitation.

Explanation.—A debtor who temporarily ceases to earn his livelihood by agriculture or is prevented from so doing by reason of minority or sex or age, or bodily infirmity, does not by such cessation, or inability lose his status as a debtor, under this Act.

(*5*) " Prescribed " means prescribed by rules made under this Act.

(*6*) " Board " means a Debt Adjustment Board established under this Act.

(*7*) " Supplementary income " means any income derived by the debtor from any source other than by cultivation of land.

Setting of Debt Adjustment Boards.

3. (*1*) The Local Government may, for the purposes of settlement between creditors and debtors as defined in this Act, establish a Debt Adjustment Board for any area in Bengal to which this Act has been applied under section 1(*3*).

(*2*) Such Board shall consist of a Chairman and as many more members as the Local Government may appoint. The Local Government may, for reasons to be recorded in writing, cancel the appointment of any member or dissolve any Board.

(*2A*) After the dissolution of any Board, the Local Government shall have power to appoint an officer to exercise all or any of the powers conferred under this Act on a Board as may be determined and notified by the Local Government.

(*3*) The Chairman and every member of a Board so established shall be appointed for a term not exceeding three years, but shall be eligible for reappointment on the expiry of his term.

(*4*) The Local Government shall have powers to delegate its powers under this section to the Commissioner of a Division.

(*5*) The quorum of a Board shall be prescribed by the Local Government.

(*6*) Where the Chairman and members of a Board are not unanimous, the opinion of the majority shall prevail, and if the Board is equally divided, the Chairman shall exercise a casting vote.

Application for settlement between debtor and his creditor.

4. A debtor or any of his creditors may apply to the Board appointed for the area in which the residence or the major portion of the debtor's landed property is situate, to effect a settlement between the debtor and his creditors.

Verification of application.

5. Every application to a Board shall be in writing and be signed and verified by the applicant in the manner prescribed by the Code of Civil Procedure (Act V of 1908) for signing and verifying plaints.

Particulars to be stated in application.

6. (*1*) Every application presented by a debtor to a Board shall contain the following particulars, namely :—

(*a*) the village and union where he resides ;

(*b*) the particulars of all claims against him, together with the names and residences of his creditors ;

(*c*) the particulars and the original amount of each loan ;

(*d*) the particulars of all his property with the khatian numbers of his tenancies and the name or names of landlords, together with a specification of the value of such property and the place or places at which any such property is to be found ;

(*e*) the particulars of any supplementary income including loans or investments in which he has an interest ;

(*f*) the particulars of any mortgage or other encumbrances of his property.

(*2*) Every application presented by a creditor shall contain the following particulars, namely :—

(*a*) the village or villages where the debtor and the creditor reside ;

(*b*) the amount and full particulars of his claim against such debtor ;

(*c*) the particulars of debtor's properties together with khatian numbers of holdings and the name or names of landlords as also of any investment made by the debtor and of any mortgage of debtor's property, so far as are known to the applicant ;

(*d*) particulars about the debtor's supplementary income so far as may be known to him.

Procedure on receipt of application.

7. (*1*) On receipt of an application under section 6, the Board shall pass an order fixing a date and place for hearing the application :

Provided that the Board may at any time dismiss the application if, for reasons to be stated in writing, it does not consider it desirable or practicable to attempt to effect a settlement between the debtor and his creditors.

(*2*) Notices of the order under sub-section (*1*) shall be delivered to creditors and where the debtor is not the applicant notice of the order under sub-section (*1*) shall be delivered to him in such manner and in such form as may be prescribed in this behalf by the Local Government.

Attachment of debtor's property.

7A. At the time of making an order admitting an application under section 4 of this Act or at any subsequent time before final disposal under any of the provisions in the Act, notwithstanding anything contained in any enactment for the time being in force, the Board may, either of its own motion or on the application of any creditor, order the attachment of the whole or any part of the property in the possession or under the control of the debtor in his own right.

N.B.—The question was raised whether a clause similar to rules 58-61 of Order XXI of the Civil Procedure Code should be inserted here to provide for the summary adjudication of claims against the debtor, whose property was being attached. Section 19 might give the Board the necessary power to review its order of attachment on good cause being shown, but it was doubtful. If the words "in his own right" do not serve the desired purpose, it might be necessary to qualify possession as "legal" possession.

7B. Where an attachment has been made any private transfer or delivery of the property attached or any interest therein shall be void as against all claims enforcible under the attachment. **Private transfer or delivery of attached property void.**

7C. (*1*) Where the property is immovable, the attachment shall be made by an order prohibiting the debtor from transferring or charging the property in any way and all persons from taking any benefit from such transfer or charge. **Order of attachment and its publication.**

(*2*) The order shall be published in any manner the Local Government may prescribe.

8. (*1*) If, after examining the debtor or the creditor, the Board is of opinion that it is desirable to effect a settlement it shall deliver, send or publish in such manner as may be prescribed, a notice calling upon every creditor in case of an application under section 6, sub-section (*1*) or the debtor in case of an application under section 6, sub-section (*2*) to submit a statement as prescribed in section 6 and shall post a copy of the same in the Union Board office where the creditor or debtor as the case may be resides. Such statements should be submitted to the Board in writing within a month from the date of posting the copy in the Union Board office. **Notice calling upon debtor or creditors to submit statements of debts.**

In case of an application by a creditor under section 6(*2*), the Board shall in manner prescribed on receipt of the debtor's statement call upon his other creditors as disclosed from the statement to submit a statement as prescribed in section 6(*2*) :

Provided that, if the Board is satisfied that any creditor or the debtor was for good and sufficient cause, unable to comply with such directions within the time fixed, it may extend the period for the submission of his statement of the debts owed to or by him.

(*2*) Every debt, of which a statement is not submitted by a creditor to the Board in compliance with the provisions of sub-section (*1*) shall be deemed to be the amount as stated in the debtor's application subject to the provisions of sections 12, 14 or 14A.

9. Every creditor submitting in compliance with a notice issued under sub-section (*1*) of section 8 a statement as prescribed in sub-section (*2*) of section 6 shall furnish, along with such statement, full particulars of all such debts and shall at the same time produce all documents (including entries in books of account) on which he relies to support his claims, together with a true copy of every such document : **Procedure on submission of statement of debts.**

Provided that a decree or order of a Civil Court shall be conclusive evidence as to the amount of the debt to which the decree relates, but the amount may be reduced in accordance with the provisions of sections 12 (*1*), 14 and 14B.

(*2*) The Board shall, after marking for the purpose of identification every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(*3*) If any document which is in the possession or under the control of the creditor is not produced by him as required by sub-section (*1*), the document shall not be admissible in evidence against the debtor in any suit by the creditor or by any person claiming under him.

(*4*) The Board shall disallow any debt which may be found to be collusive and set forth to defraud other creditors. The reasons for such finding shall be recorded in writing.

Board to attempt amicable settlement.

10. The Board shall call upon the debtor and each creditor to explain his case regarding each debt, and shall use its best endeavours to induce them to arrive at an amicable settlement.

Power of Board to require attendance of persons and production of documents and to receive evidence.

11. (*1*) Any Board empowered under this Act may exercise all such powers connected with the summoning and examining of parties and witnesses and with the production of documents as are conferred on Civil Courts by the Code of Civil Procedure, and every proceeding before the Board shall be deemed a judicial proceeding.

(*2*) Any person present may be required by a Board to give evidence or to produce any document then and there in his possession or power.

Power of the Board to dismiss application.

11A. If no award is made under sections 12, 14 or 14B, or if in the opinion of the Board any applicant fails to pursue his application with due diligence, the Board shall dismiss the application.

Award in case of amicable settlement of 60 per cent. of debts, its registration and effect.

12. (*1*) If the debtor and creditors to whom not less than sixty per cent. of the total amount of the debtor's debts are due come to an amicable settlement, the Board may, following the same principles to the extent it considers equitable, make a settlement of all the debts in writing in the form of an award recording the amounts payable to each creditor and the manner in which and the times at which they are to be paid and the rates of interest payable till the awarded amount is liquidated. Such award shall be read out and explained to the parties present, and shall be signed or otherwise authenticated by the Board.

(*2*) An award made under section 12(*1*) shall be registered in the office of the Board and the effects shall be the same as if it had been registered under the Indian Registration Act 1918, and it shall then take effect as it were a decree of the Civil Court.

13. (Omitted.)

Award in case of fair offer by any of the parties.

14. (*1*) If for any reason no settlement is made under section 12, but the Board is of opinion that the debtor or any of the creditors has made a fair offer, it may frame an award covering all the debts of such debtor following the principles of fair offers made by certain creditors as regards the dues of the remaining creditors. The award shall contain the same particulars regarding the amounts payable to each creditor and the manner in which and the time at which they are to be paid and the rates of interest payable till the awarded debts are liquidated as provided for in the preceding section.

(*2*) In no case under this section shall a loan be reduced to an amount less than the original principal, except with the consent of the particular creditor concerned.

Priority of secured debts.

14A. (*1*) Notwithstanding anything contained in this Act in all proceedings before a Board, it shall give priority to secured debts, and the mortgage or any lien on a debtor's property shall subsist till the whole of the amount, for which an award has been made in respect of such debt, has been duly discharged.

(*2*) All questions of priority between secured creditors shall be determined by the Board in accordance with the priority of the dates on which the instruments creating such securities were executed.

(*3*) The Board shall arrange the creditors in such order of priority as it thinks fit having regard to the date on which the debts were incurred, and other circumstances which the Board considers relevant and shall make an order for the allocation among the creditors according to their priority as determined and in proportion to the amounts shown against each and shall specify in each case the latest date upon which the instalment is to be paid commencing from the next agricultural year. The Board shall assign payment of the amount of each instalment as far as practicable to two or three creditors to avoid multiplicity of payments.

Recovery of sums due under award.

14AA. (*1*) If a debtor defaults in paying any amount due in accordance with the terms of an award registered under sub-section (*2*) of section 12, or under sub-section (*1*) of section 14, such amount shall be recoverable as a public demand on the application of the creditor made within ninety days from the date of default.

(*2*) Where the Collector fails to recover as a public demand any part of such amount, he shall certify that it is irrecoverable and thereupon the award shall cease to subsist.

(*3*) Where an award ceases to subsist, any amount which was payable under such award, but has not been paid shall be recoverable as if a decree of a Civil Court had then been passed for its payment.

List of landed properties of debtors to be circulated and published.

14AAA. (*1*) When an award has been made and registered, a list of the landed properties which are the security for the debt will be published by circulation to the landlords of the same and by affixing in the Union Board office.

Effect of sale on default.

(*2*) Notwithstanding anything contained in any enactment for the time being in force, if no objection to the title or possession of the debtor is filed before the Board within 12 months, or if an objection is filed and disallowed and no civil suit is filed against the decision within 3 months and subsequently the property is sold for default of the debtor to pay his due instalments, the property shall vest in the purchaser.

Adjustment of an insolvent's debt, and award for the same.

14B. Notwithstanding anything contained in the Provincial Insolvency Act, 1920, when a Board after consideration of a debtor's properties and income from other sources and all his debts records a finding that there is no prospect of the debtor being able to repay the whole of his debts even if instalments are spread over 20 years, the Board may reduce the debts with due regard to the value of the debtor's property and other income and fix instalments for the payment of the same according to the paying capacity of the debtor and make an award to such effect. The award shall be drawn up signed, authenticated and registered in the same manner and shall contain the same particulars as laid down in section 12. It shall have the same effect as an award under the same section.

Failure to pay instalment by an insolvent.

15. (*1*) When an award has been made under the foregoing section if the debtor fails to pay the instalments as fixed in the award and the Board does not think fit to grant extension of time for payment it shall be lawful for the Board to sell the property excluding only that area of land which is actually in use by the debtor for the purpose of his dwelling-house and owned by such debtor, in such manner and after such time as may be prescribed in this behalf by the Local Government.

(*2*) When all the assets of the debtor have been realised under sub-section (*1*), arrears of rent shall be a first charge; if there are any secured creditors the Board shall first pay to each secured creditor, the proceeds of any assets held as security up to the secured debt due to him as adjusted by the Board. Where the amount of such proceeds is insufficient to meet the total amount of such debt, the creditor shall rank in respect of the balance of such debt as an unsecured creditor. The remaining sale-proceeds will be distributed rateably.

(*3*) The Board shall then grant a certificate to the debtor discharging him from any further liabilities with respect to the debts so liquidated.

Application subject to approval of Registrar of Co-operative Credit Societies in case of a member of such societies.

16. Notwithstanding anything provided for in the preceding sections 12, 14 and 14B no application shall be entertained by the Board regarding any debtor who is a member of a Co-operative Credit Society without the previous approval in writing of the Registrar of Co-operative Societies.

Bar of civil suits.

17. (*1*) No Civil or Revenue Court shall entertain any suit or proceeding in respect of—

(*a*) any matter pending before a Board, or

(*b*) the validity of any procedure or the legality of any award under this Act, or

(*c*) the recovery of any debt dealt with in an award under section 12, 14, or 14B, unless the award has ceased to subsist, before the awarded debt has been paid, or

(*d*) any debt disallowed by the Board under section 9 (*4*).

(*2*) When an application has been made to a Board under section 4, any suit or other proceeding then pending before a Court in respect of any debt for the settlement of which application has been made shall be stayed, until the Board had dismissed the application or made an award. If an award has been made, the suit shall be struck off with permission to file a new suit, if the award ceases to subsist before the claim as adjusted by the Board is paid.

Bar to execution of a decree by Civil Court.

17A. Notwithstanding anything in the Code of Civil Procedure, no decree passed in any suit or proceeding against a debtor whose properties have been attached under section 7A, shall be executed, provided that—

(*i*) if the application under section 4 is dismissed, execution proceedings may proceed,

(*ii*) decrees for recovery of debts incurred after an award may be executed after all the claims dealt with in the award have been paid,

(*iii*) suits for recovery of arrears of rent may be executed after six months from the date of a notice of the decree being given to the Board,

(*iv*) decrees for recovery of debts incurred after an award has been made may be executed on 6 months' notice being given to the Board and on the Board giving a certificate that the loan was incurred for absolutely necessary or remunerative purposes such as the purchase of additional land.

Bar of appeal for revision.

18. The Local Government shall appoint one or more persons with judicial experience in each district where the provisions of this Act have been applied for the purpose of hearing appeals from the decisions of Boards constituted under this Act.

Power of Board to review its order.

19. A Board may, on the application from any person interested, review any order passed by it and pass such order in reference thereto as it thinks fit :

Provided that no order shall be reversed unless notice has been given to the persons interested to appear and be heard in support of such order.

Appearance of party before Board by agent, but not by legal practitioner.

20. In any proceedings under this Act any party may with the permission of the Board be represented by an agent authorised in writing, but not by a legal practitioner or by a tout declared as such by any competent Court or by the Board.

Transfer of the amount of debt in an award or a certificate or an order of adjustment to approved credit organisation.

23. (*1*) An award made under this Act shall be negotiable and may be transferred by a creditor to any approved credit organisation as may be prescribed by the Local Government under such terms and conditions as may be prescribed.

(*2*) Notwithstanding anything contained in an award in case of such transfer the debtor shall be liable to pay the amount as shown in the award under such terms and conditions as may be determined by such approved credit institutions and agreed to by the debtor.

Power to make rules.

APPENDIX V.

Extract from Notes on Economic Enquiry in the Rangpur District by the Settlement Department.

An enquiry was made of the economic condition in 11 villages of 508 families with 3,272 persons giving an average of 6·4 persons per family.

The classification of families according to standard of living is difficult and there was no uniformity. However from the figures as they stand one-ninth of the villagers are living in starvation, *i.e.*, they have just sufficient to keep themselves alive and no more or of whom it can be said that there is definite evidence of under-feeding or real lack of clothing. This probably represents a fairly pessimistic view of the standard of the country. Against this, between one-third and one-quarter of the families representing one-third of the persons can on any view be described as in comfort.

Those who have less than 1 acre of khas land may be styled landless. They can have little land besides their homesteads. They amount to a quarter of families and a little less than one-fifth of the individuals.

The compilation of figures shows that 29 per cent. of the families are free from debt. This is a more serious condition of indebtedness than that found in Faridpur by Mr. Jack. In that district about 1906-10, 55 per cent. of families of cultivators and 59 per cent. of all families were found to be free from debt.

Debt in some measure is determined by credit. The fact that in every village except one the proportion of families free of debt exceeds the proportion of individuals show that the "free of debt" class contains more than a proportionate share of small families while although the landless class form only one-quarter of the total families they form three-eighths of the families free of debt. Only four out of the twenty-six big family groups possessing 10 or more acres of khas land are free of debt.

Any opinions as to why indebtedness is now more widespread in south-east Rangpur than it was in Faridpur 25 years ago, must necessarily be based on mere speculation. One may surmise that the present enquiry took place at a time when debt was very prevalent. A period of high prices has been followed by three or four years of low prices; prices of jute and paddy being only a third of what they were five or six years ago. Before cultivators adapted themselves to the new low level of prices they certainly took recourse to loans to maintain their expenditure and in the first two years of falling prices there was still ample cash in the hand of money-lenders, available for lending.

The total debt is really an artificial figure. Villagers were asked what loans they had taken. Then after learning the rate of interest and the amount said to have been repaid, the present value of the debt was worked out by simple arithmetic. By this method, a sum of Rs. 40 borrowed in 1928 at 48 per cent. per annum and Rs. 25 repaid, is calculated at Rs. 130, and Rs. 50 borrowed in 1928 at 37½ per cent., and Rs. 18 repaid, as Rs. 143. These rates of interest, which ordinarily vary from 3 per cent. per month to 1 anna in the rupee per month (36 per cent. to 75 per cent. per annum) can only be regarded as nominal. It is unlikely that any Court would decree such

sums as are due according to the strict letter of the bonds, and Mahajans certainly compound with their debtors for much smaller sums. The original principal of outstanding loans was Rs. 66,000; while even after deducting sums repaid the present nominal value is Rs. 1,10,000. Probably the effective debt—what the money-lenders reasonably expect to receive—is not much more than half this sum.

One small matter calls for note. When calculating the present value of debts, the outstanding value of complete usufructuary mortgages was calculated at a share of the capital sum borrowed, proportionate to the outstanding period of the mortgage. Thus if Rs. 50 was borrowed on complete usufructuary mortgage for ten years from 1336 to 1345, the present value was shown as Rs. 25, *i.e.*, $5/10 \times 50$.

Causes of debt.—Circle Officers were asked to find out the reason for borrowing each loan. It is well known that many loans, or rather acknowledgments of debts, are not new money, but only renewal of old loans. Officers were asked to discover the causes of the original loan; and this instruction was usually followed. For loans totalling about one-eight of the present value, no cause was given, or the reason was "to pay off old loans." Of the rest, more than a third is described as incurred for purchase of food, clothing or household expenses. More than a fifth is said to have been borrowed because of marriages. Purchase of land or payment of nazar, and purchase of cattle are the next largest classes of debt and these four groups together account for four-fifths of the total debt. Immediately, the query arises, "can we trust the villagers' own statements about the reason for borrowing?" It is not possible to obtain any evidence to check their statements and it can only be said that at any rate they have given consistent statements about the cause of debt to five different officers. The biggest cause of debt "food, clothing, and household expenses" calls for comment. One Circle Officer thinks that this is a reason for borrowing, which does not occasion any shame; and such debts are mentioned freely, where others may be concealed. But such borrowing is bound up with the agricultural system of the area. This is a paddy importing area. Jute is sold, and articles purchased when there is cash in hand. Paddy, however, is bought on credit throughout the year, and if the cultivator has not the cash to pay off the debt, he takes the easy course of executing a hand-note. This is another reason for believing that much of the rural debt, although expressed in cash values, is not really borrowing in cash. It is also likely that the sums so borrowed by account with mahajans include some loans taken for other purposes, such as payment for rent. But it is not suggested that all the borrowing is in kind; and for reasons given later, it seems likely that at any rate before the slump, or in the early days of falling prices, there was considerable cash borrowing. Articles such as oil, dal, and clothes have to be bought for cash down. In days of prosperity, much of the expenditure on these must have been done with borrowed money. Figures show how frequently marriage ceremonies occasion debt, and also that litigation considered in relation to the country as a whole is of no particular importance as a cause of debt, though individual families may be ruined by litigation. In all, only 38 families out of 508 which formed the subject of the enquiry, said they had ever incurred any expenditure for litigation. Seventeen of the 38 lived in the two villages which were nearest to Gaibandha.

Of the outstanding debts, the greater part was borrowed in the three years 1928, 1929 and 1930. Since then the amount of borrowing has slackened off. The villagers were asked to give their debts. They naturally described the debt as it stands after the last hand-note executed, or after the latest composition with their creditors. It is never possible to distinguish how much debt is new money and how much is in satisfaction of existing debts by execution of fresh hand-notes, but from what is known of the amount of money available in different years it is reasonable to assume that many of the loans taken between 1928 and 1931 were new money. Loans incurred before 1928 seem to have been nearly all satisfied, and since 1931 there has been little borrowing. The debt which must now be settled is that incurred in the period 1928 to 1931. This is not likely to be liquidated by fresh borrowing from the mahajans and rural banks which were the main sources of credit in the past. Leaving aside the possibility of any large scale debt relief under Government auspices, it is probable that creditors will compound the debts on terms which are fair and equitable to both parties. Signs are not wanting that this is actually being done. A fair proportion of the loans which were stated to have incurred in 1934 are known to be compoundings of previous debts,—commonly on the "Kistibandi" principle. In a "Kistibandi" settlement the debt is fixed at a certain sum which is to be paid off in so many instalments without further interest. This indeed, is not always a method of settling loans; sometimes a new loan is given on terms that it will be paid off in instalments. There is no provision for interest, but the sum mentioned in the bond is greatly in excess of the actual sum borrowed. However Rs. 3,411 out of the Rs. 4,521 said to have been borrowed in 1934, is fairly certainly settlement of old loans.

The Rent-situation.—Figures average out at 2½ years' rent in arrears at the end of 1340 (rents for 1340, if unpaid were classed as arrears). But it must not be understood that no rent has been paid for the last 2½ years. These are arrears which have accumulated gradually, and rent is still paid in part.

Again, it is certain that many cultivators are even, in the best of times, in arrears with their rent. During field work, or attestation one commonly finds receipts given in 1335 for rent due in 1333 or even earlier, and this at a time when the prices of agricultural produce were the highest ever recorded.

In mouza Manmanthapur the sum nominally payable on debts was Rs. 1,097, but only Rs. 200 were paid in 1340 B.S. In Kachua, out of Rs. 2,379 due, only Rs. 154 is reported to have been paid. This shows that if the sums payable on debts according to the stipulation in the bonds were actually paid, cultivators would pay more to mahajans in interest, than they pay to their landlords in rent. Actually, they are now paying their landlords much more than they are paying their mahajans.

Family budgets.—Figures given for family budgets must be accepted with caution. Compilation is beset with traps for the unwary, but all officers worked on the same principle. They endeavoured to find out the family consumption of rice, and then entered the value, in current prices, of the paddy equivalent. Dal, mustard oil, spices, salt, tobacco, clothing and kerosine are normally bought for cash. Here the usual, and safest method of proceeding was to find out how much was spent

at every hat, and then to multiply until the annual expenditure was found. This method lends itself to magnifying every error, but produced notably consistent results by the different officers. For fish, meat, vegetables, milk and betel nuts it was tried to proceed on the principle of asking how much was bought at every hat, and for how many months. Then it was tried to find out how much was obtained by own production, or how much fish was caught by the family, and then was assigned a value to the quantity, adopting current market prices. This may not be strictly accurate, but is the best possible. In Faridpur Mr. Jack thought it impossible to give a cash value to the fish caught and consumed by the family. The officers have done the best they could by asking what would have been the price of the fish if bought; or for how many months in the year fish was bought and then giving a proportionate value to the fish caught.

The importance of rice in the cultivators' diet is apparent. The cash value of rice consumed is everywhere (except one mouza) given at from two-thirds to three quarters of the cash value of the total food stuffs consumed.

Excepting rice, the expenditure on other items of recurring expenditure, clothing is evidently the biggest item. Tax has been shown as a recurring charge as even now unlike rent and interest it is paid regularly. If in any village there is much unpaid or irregular payment the cause will certainly be not economic difficulty, but slackness among the collecting authorities. At an average of 4 annas per head per year, the Union Board rate only amounts to about "1/64" to "1/80" of the expenditure on food.

The article which shows the most consistent level of consumption is salt. The consumption works out at 9 or 10 kutcha seers per head per year (including salt for cattle). The demand is completely inelastic.

No figures have been given for item of "spasmodic" expenditure, such as cost of births, marriages and deaths, and cost of house building and repairs. The Faridpur method was followed, when averaging these costs to one year. It was assumed that one birth, one marriage and one death would occur to every member of the family in 30 years, and the aggregate cost of one of each class of ceremony for each member was divided by 30 to give an annual figure. The method cannot be vouchsafed to be actuarially sound; but it was peculiarly liable to error in the circumstances of the present, when standards of expenditure have fallen heavily in the last 5 years. People are at best vague when giving the cost of a wedding. Some may give the amount which they would like to spend or think ought to be spent, and others are guided by their ideas of what was spent in the last wedding in the family. This may have been 5 years ago, when there was much more money available.

Similarly no total of "income" or expenditure has been given. Figures show a consistent excess of expenditure over income; even if allowance be made for non-payment of the rent and interest which is due according to the record-of-rights and the terms of bonds.

It is believed that villagers consistently tend to underestimate their income and some of the richer may for "prestige" exaggerate their expenditure.

Note for the Statistical Sub-Committee by the Secretary to the Board of Economic Enquiry.

Regarding the problem of rural indebtedness, Government have referred under paragraph 4 (*i*) of Resolution No. 6159-Com., dated the 1st December 1933, concrete suggestions in broad outlines for conducting enquiries by the Board of Economic Enquiry in the Note for the Board, which has been circulated.

These are—

(1) Prevention of extravagance in new borrowing.

(2) The liquidation of existing debt by—

(*a*) Debt conciliation on voluntary basis of debts up to Rs. 1,000.

(*b*) Compulsory adjustment of accumulated interest.

(*c*) Rural Insolvency Act.

(3) Reorganisation and expansion of co-operative societies including land mortgage banks on paper lines, and setting up of other approved credit institutions to take over adjusted debts.

It has been pointed out that the schemes suggested above will depend entirely on two essential features, viz.,—

(*a*) Existence of sufficient surplus to pay off the adjusted debt.

(*b*) Existence of co-operative banks, or other approved credit institutions to take over the adjusted debt.

The Sub-Committee is concerned with enquiry under (*a*).

Statistical Registers, Reports and Lists containing general information.

There are registers in each district office based on the Revenue Survey in the middle of the last century showing the villages under each pargana and the area appertaining to each separate estate within the village as also the villages or portions of them appertaining to each estate, the area of each estate lying within each village, the land revenue for each estate. In the Land Revenue Administration Reports published annually by the Government the total number of estates permanently and temporarily settled and also under direct management in each district, the land revenue and road and public works cess payable, the amounts paid, the amount of arrears, the prices fetched at public auction and various other information is given. The reports on the management of the Court of Wards also published annually give the rentals, collections and arrears, debts and repayment of each estate under its management. The Annual Report of the working of Co-operative Societies in Bengal gives information regarding (1) number of societies, (2) number of members, (3) amount of loans, (4) loans due by individuals, (5) overdues and (6) repayment by members and other details.

Various laws have been passed for codifying the rights and status of cultivators, the latest amendment of the Bengal Tenancy Act gives them right to transfer their lands without the consent of landlords. The provisions for enhancements of rents of cultivators are mainly on the basis of higher rates prevailing for similar lands in the neighbourhood

and in consideration of the rise in prices of the staple food during the currency of the present rent. For the investigation of the latter by Courts a Statutory Price List of Staple Food-crops in the Local Areas of Bengal is published quarterly and an annual compilation made therefrom by Government in the Revenue Department under section 39 of the Bengal Tenancy Act. This is only for "rice" which is the staple food-crop of Bengal.

The Director of Agriculture publishes weekly with the Weather and Crop Reports the price of common rice for the subdivisional stations of districts. He also publishes a fortnightly Prices Current (retail) of common rice and salt in some specified marts of every district. A fortnightly Prices Current (wholesale) is also published by him of some important marts in the Presidency of the prices of paddy (unhusked rice)—best and common, rice—best and common, wheat, raw cotton, coal, raw jute, and gur (sugarcane). All these prices are published in the Government *Calcutta Gazette*. The Season and Crop Report gives the harvest prices of the following crops for each district, viz., winter and autumn rice, wheat, barley, gram, gur (unrefined), cotton, linseed, rope and mustard, jute and tobacco leaf.

The agency employed for the collection of statistics is the same for both departments, who are responsible local officers. Their duty requires them to visit every mart personally and ascertain the information from respectable shopkeepers.

To safeguard the interests especially of cultivators, who generally hold no leases for their lands, a record-of-rights, district by district, was undertaken to be prepared by Government since 1900 and these will be completed within the next 3 or 4 years. The record-of-rights involves a survey and enquiry of each plot of land, preparation of a record showing the fields appertaining to each tenancy, the classification of land of each plot, the rent paid to the landlord, the rights under which the tenancy is held and other details of the tenancy. Similar record is prepared for every tenure-holder under a proprietor and for the proprietor as well, thus giving a comprehensive record of all interested in land. During the course of preparation of record-of-rights of a district various items of statistical information have been collected, for the district as a whole.

These are mainly (1) the different classifications of lands and the area under each, (2) the area under different crops, (3) the statistics of land tenure, i.e., the distribution of land under different classes of owners, the incidence of rent and cess, (4) Agricultural stock statement showing the number of ploughs, carts, boats, etc., and the live-stock.

Report and Enquiries regarding economic position with special reference to indebtedness.

In some of the earlier operations, detailed statistics have been collected regarding the economic condition of the people of the districts —the most detailed of these is that of Faridpur the main results of which have been collected in Major Jack's book "Economic Life of a Bengal District." Most of the original statistical forms and the detailed tabulation from which the tables in the book have been compiled covering over one hundred volumes are in the Record-room of the Faridpur Collectorate. Detailed enquiries regarding indebtedness were

also made in Dacca and Jessore districts. Settlement Reports of Dacca, Mymensingh, Midnapore and Jessore of the three districts of East, West and Central Bengal will show the estimate of the economic position by the Settlement Officers. Crop-cutting experiments were conducted by officers for ascertaining the yield and the results further verified by reliable enquiries from cultivators themselves. Typical family budgets of cultivators were also prepared in course of preparation of record-of-rights. All these informations have been incorporated in the Final Reports of Settlement Operations of districts. It is not possible to enumerate the different heads of subjects dealt with in these reports, which are all printed. At present the Final Reports of following districts with years of operation are available:—

(1) Bakarganj (1900-08),
(2) Faridpur (1904-14),
(3) Dacca (1910-17),
(4) Mymensingh (1908-19),
(5) Midnapur (1911-17),
(6) Bankura (1917-24),
(7) Noakhali (1914-19),
(8) Tippera (1915-19),
(9) Jalpaiguri (1906-16),

The Settlement Reports of Murshidabad, Birbhum and Chittagong are under preparation and that of the 24-Parganas has not yet been published. Settlement Operations are in progress in the districts of Burdwan, Malda, Hooghly and Rangpur and Dinajpur and Howrah will be taken up next year.

Information regarding economic position has been collected from time to time.

In 1926, Mr. Burrows, the then Collector of Faridpur, made an intensive enquiry of a village in Faridpur district at the instance of the Royal Commission on Agriculture. An extract from his report regarding indebtedness is appended to the Report of the Commission.

The Bengal Banking Enquiry Committee had an intensive enquiry in 1929 through non-official and official agencies about the economic position of agriculturists, in selected areas of certain districts. The forms filled in by the enquirers are available. Apparently the Committee did not make much use of the results as they "suffered somewhat in precision and thoroughness." The results of the intensive enquiry in one village Karimpur of the Bogra district have been utilised in the Report of the Committee.

An enquiry was made by the Collectors in November of 1933 and March of 1934 regarding the stocks of crops held by cultivators and generally into their economic position.

The latest enquiry on a detailed basis have been called for in Form No. 1 and No. 2 which were circulated to all the members of the Board at the first meeting. It has been arranged that for the 25 plains districts in Bengal, there will be enquiries made in about 200 villages. The enquiry will be limited to the families of persons paying fixed rents or having rights of occupancy in land as these classes of people form the major portion of the agricultural population and also they have good security to offer on which mortgaged loans may be given.

It will be for the Sub-Committee to consider which of the information contained in statistical Registers, Reports, Lists and Forms may be utilised directly or indirectly for the purposes of their enquiries regarding the proportion of cultivators with the requisite margin. The Sub-Committee may indicate the lines on which any of these should be tabulated and collated and devise the form for such tabulation and collation. If, however, the available materials are found to be insufficient to form an estimate of the proportion referred to in the Government Note, the Sub-Committee may indicate if further investigations are necessary. Also if the materials available will not serve the purpose of arriving at the required estimate, it may suggest in what other form information should be collected and the agency for conducting the enquiry.

Note for the Sub-Committee to investigate the possibility of debt conciliation and liquidation amongst agricultural population (by the Secretary, Board of Economic Enquiry).

The object of this note is to summarise the legislations and the administrative measures introduced from time to time for dealing with indebtedness in general, and of agriculturists in particular. The executive measures undertaken have also been dealt with. Their defects and shortcomings have been prominently brought forward in paragraphs 12 to 19 with a view that the Sub-Committee may, in devising legislative and executive measures for dealing with the question, advise as to the means by which they can be avoided or rectified.

(A) General Legislations.

I.—*History and legislation regarding Money-lending.*

2. *Rule of Damdupat.*—According to Hindu Law, the rule of damdupat is that the interest exceeding the amount of the principal cannot be recovered *at a time*, though the total amount paid from time to time may far exceed the capital. This rule of law is not now applied to the whole of India. It is applied to the Presidency of Bombay, the Provinces of Berar and Sindh, Santal Parganas and the portion of the City of Calcutta within the jurisdiction of the Original Side of the High Court. But it does not apply to the Presidency of Bengal outside the area mentioned above. This rule is not applicable in Madras.

The rule of damdupat only exists so long as the relationship of debtor and creditor exists but not when the contractual relation has come to an end by reason of a decree.

The principle of damdupat is not applicable to a decree for puisne mortgage nor to interest accruing after the institution of the suit. The interest on arrears may be capitalised by subsequent agreement, but prospective interest cannot be capitalised. The rule of damdupat is not affected by the Transfer of Property Act and the Indian Contract Act or the Acts relating to interests.

But it is so restricted that there is no limit to the amount of interest if the interest be paid in smaller sum than the principal. In this view, a judicial officer urged before the Provincial Banking Enquiry Committee that the rule to be really effective a creditor shall never be able to receive more than double the amount advanced and it should be made a Statutory Act (*vide* Replies to Special Questionnaires at page 27 of the Bengal Provincial Banking Enquiry Committee's Report, Volume III—Evidence).

The rule of damdupat was accepted in principle in enacting the Bengal Money-lenders' Act, 1933. In section 4 it is enacted that in case of loan prior to the commencement of the Act, the Court shall limit the amount of arrears of interest to the amount of principal unless there be satisfactory reasons for not enforcing the claim earlier. Section 6 of the Act, which comes into force throughout the Presidency from the first of July 1934, enacts that no Court shall, in respect of any loan made after the commencement of the Act decree on account of arrears of interest a sum greater than the principal of the loan and an amendment to insert "together with interest already paid" was rejected.

3. *Rule for adjustment of debt in 1772.*—Even at the beginning of the British Rule we find that prevalent usury in the province caused concern to the administrators. On taking over the administration of the province, Warren Hastings saw its evil effects and in 1772 the Committee of Circuit framed the following rule regarding adjustment of debts and rates of interest:—

"That in adjusting the claims of old debts it shall be observed as a rule that they bear no further interest after such adjustment but that the amount shall be payable by *kistibundee* (instalment) according to the circumstances of the party, and as the rates of interest hitherto authorised by custom have amounted to the most exorbitant usury, the following rates are now established to be received and paid as well for past debts as on future loans of money, viz., on sums not exceeding 100 rupees principal, an interest of 3 rupees 2 annas per cent. per mensem or ½ anna in the rupee. On sums above 100 rupees principal, an interest of 2 rupees per cent. per mensem. The principal and interest to be discharged according to the conditions of the bond and all compound interest arising from an intermediate adjustment of accounts to be deemed unlawful and prohibited; when a debt is sued for upon a bond which shall be found to specify a higher rate of interest than the established rates, the interest shall be wholly forfeited to the debtor and the principal only recoverable; and that all attempts to elude the law by deductions from the original loan under whatever denomination shall be punished by a forfeiture of one moity of the amount of the bond to the Government and the other half to the debtor."

4. *Regulating Act of 1774.*—By a Regulating Act of 1774 (13 Geo. Ch. 63), the maximum rate of interest as applicable to European British subjects in India was fixed at 12 per cent.

5. *Bengal Regulation of 1780.*—The rates of interest were reduced to twelve per cent. and twenty-four per cent. by a regulation of 1780. The regulation fixed the rate of interest irrespective of stipulation of higher or lesser rates of interest. The full advantage of the regulation for the purpose of adjustment of debts was, however, only taken by land-owners who prayed for adjustment and we find British officers deputed in the district of Mymensingh to adjust debts between zemindars and money-lending Sannyasis. One noticeable point in these adjustments is the simplicity of procedure by which they were arrived at. The officers called for accounts from both parties and after hearing them and examining the papers produced, recorded their decisions in a tabular statement showing the claims of the creditor and debtors and the decision which was a decree.

The compulsory adjustments were, however, only of the interest in cases where it exceeded the rate laid down in the Regulation. The Regulation was embodied in one of the series of Regulations passed in 1793.

6. *Act XXVIII of 1855.*—The laws against usury were repealed in England in the middle of the nineteenth century and following its wake the usury laws in India were repealed in 1855 by Act XXVIII of 1855. The law of damdupat remained in force in the localities mentioned before.

7. *Indian Contract (Amendment) Act of 1879.*—Subsequently, however, the unrestricted usury attracted the attention of Government. By the Indian Contract (Amendment) Act of 1899, the courts could give relief to debtors in cases of unconscionable bargains on proof of undue influence or where the bargain was by way of penalty.

8. *Usurious Loans Act of 1918.*—The Usurious Loans Act of 1918 empowered a court, where there is reasonable ground to believe that the rate of interest was excessive and the transaction was substantially unfair, to reopen the transaction and relieve the debtor of excessive interest even though there is an agreement to close previous dealings and open a new account.

9. *Usurious Loans (Amendment) Act of 1926.*—The Usurious Loans (Amendment) Act of 1926 empowered suits by debtors and for redemption of securities. The period of limitation was extended to twelve years. These are the all-India legislations directed against usury.

(B) Provincial Legislation.

10. Provincial Legislations against usury and regularisation of money-lending are summarised below:—

(1) *The Punjab Regulation of Accounts Act, 1930.*—It prescribes the keeping of accounts by creditors and the supply of statements of these accounts every six months to individual debtors.

(2) *The Bengal Money-lenders' Act, 1933.*—The Act applies the rule of damdupat as stated before. It lays down that rates of interest above 15 per cent. in case of secured loans and 25 per cent. in case of unsecured loans or where there is a stipulation of rest at intervals of less than six months are to be presumed to be excessive under Usurious Loans Act. It prohibits the recovery of compound interest at rate of more than 10 per cent. This Act enables the debtor to obtain full particulars of his debt from his creditor.

(3) *The Usurious Loans Central Provinces (Amendment) Act, 1931.*—It follows the Bengal Act.—It lays down that where the rate of interest is more than 18 per cent. in cases of unsecured loan or more than 12 per cent. in case of secured loans or where there is a stipulation for rests at intervals of less than six months the rate of interest may be deemed to be excessive. The rate for future loans has been put at 10 per cent.

(4) *The Assam Money-lenders' Act of 1934.*—The Assam Money-lenders' Act of 1934 has been recently passed. It is on the lines of the Bengal Act but the rates of interest have been reduced.

Similar provincial legislations are in contemplation in the Central Provinces, Bombay and the Punjab.

(C) Special Legislation for Agriculturists.

11. Special Legislations have also been undertaken from time to time in other provinces to protect agriculturists. The most important of these are the Deccan Agriculturists' Relief Act of 1879 and the Punjab Land Alienation Act of 1900.

The Deccan Agriculturists' Relief Act of 1879.—As to the working and amendments of the former, a reference is invited to Enclosure A which contains extracts from the Report of the Royal Commission on Agriculture.

The following extract from the report of the Committee appointed by the Bombay Government in 1920, to consider the repeal of the Deccan Agriculturists' Relief Act is interesting:—

"It must be acknowledged that since 1912 the economic condition of agriculturists as a class has much improved and it promises to improve still more as the country advances in industrial development. We think, therefore, that the time has come for bringing agriculturists under the provisions of the law which apply to other classes."

12. *The Punjab Land Alienation Act of 1900.*—The Punjab Land Alienation Act of 1900 came into force in 1901. Its main object was to prevent the small peasant proprietor being expropriated by the village money-lender. By it the non-agriculturists classes have been greatly restricted in the acquisition of land, they are not allowed to buy land from a member of the agriculturist tribe nor may they take it in mortgage from the latter for more than twenty years. At the end of the period the mortgage automatically lapses without payment and so the nominal value of a debt secured by mortgage varies with the age of the mortgage. Mr. Darling remarks that there is general agreement that this form of mortgage is disliked by all but the idler cultivators as it involves parting with land for a long period and debars an owner from taking advantage of the rising value of land to redeem a portion of it in a year or two. But it has given opportunity to agriculturist money-lender. The *Sahukar* deprived by the Act of the security of the land can only lend up to the limit of what can be repaid from the produce; but the agriculturist money-lender to whom the Act does not apply can afford to lend up to the value of the land. The latter is therefore in a stronger position of the two; and ultimately he is the more formidable for his object is the land and to obtain it he will press his client till he is compelled to sell. On the other hand the *Sahukar* depending solely on the produce hesitates to drive a client to extremes lest he should give up producing. At first after the passing of the Act, there was restriction of loan and consequent decrease of debt (from

Rs. 16 crores to Rs. 9 crores decades 1893-1902 to 1903-12) but with advance in prices and owing to the growth of agriculturist money-lenders the situation adjusted itself and the debt rose to Rs. 30 crores in the decade 1913-22. Thus "with the tendency of all protective legislations to defeat its own object, the Act fostered the growth of the agriculturists money-lender and borrowing soon became easy as ever."

13. *Restriction of transfer of land under Chapter VIIA of the Bengal Tenancy Act.*—Restriction against lease or transfer of land by aboriginal tribes as contemplated in Chapter VIIA of the Bengal Tenancy Act was enacted in 1918 but it affords no real protection. The evasion is effected by the aboriginal leaving the land under pressure of the money-lender and executing a deed of relinquishment in favour of the landlord and then the money-lender or the intending purchaser gets settlement from the landlords. So in the end the value which could have been secured by open sale is not obtained. In Malda, the application of the Chapter amongst the Santals and the Oraons has failed because to save distraint of their crops on account of debts, the Collector had to agree to usufructuary mortgages.

14. *The United Provinces Agriculturists' Relief Act, 1934.*—The United Provinces Agriculturists' Relief Bill, 1934, has been passed by the Legislative Council but has not yet received the assent of His Excellency the Governor. Its main provisions are:—

(*i*) To empower courts when passing decrees against agriculturists to fix instalments payable on fixed dates which may extend over a period of four years in the case of small agriculturists and over twenty years in other cases

(*ii*) To limit the rate of interest admissible after a decree has been passed to 2 per cent. in certain cases and 3 per cent. in other cases.

(*iii*) To empower courts to fix instalments even in cases in which decrees have been passed before the passage of the Bill.

(*iv*) To restrict mortgages with possession made after the passage of the Bill to mortgages which give possession with the right to all the profits of the land for a fixed period not exceeding twenty years on the condition that that period of possession will satisfy the debt.

(*v*) To facilitate the redemption of mortgages.

(*vi*) To limit the rates of interest on loans taken after the passage of the Bill to rates notified by the local Government as the prevailing rates. The rates to be so notified will be based on, though they will exceed, the rate at which of the local Government of India.

(*vii*) To limit the rates of interest recoverable on loans taken since 1st January 1917.

(*viii*) To prescribe rates of interest recoverable on loans after a sum equal to 100 per cent. of the principal in the case of secured loans and 150 per cent. in the case of unsecured loans has been realised or has accrued as interest.

(*ix*) To empower courts to reopen decrees passed on loans incurred since 1st January 1917, and to pass amended decrees for the amount payable if the interest were limited as in (*viii*) above.

(*x*) To require creditors to maintain a correct account for each agriculturist debtor for each loan separately and to supply the debtor annually with a statement of such account.

15. As has been stated in paragraph 2 of the Government Note, these legislations cannot afford a complete solution of the problem of rural indebtedness, although they should relieve some of the worst evils of uncontrolled usury.

Paragraph 4 of the Government Note regarding prevention of extravagance in new borrowing is for prohibition by legislation, recovery of any charges in regard to new debts by the legal process of the sale of the land and crops belonging to the debtor. But the provisions of such restrictions are not to apply to new loans granted by Co-operative Credit Societies, Land Mortgage Banks and other approved organisations. It is presumed that the principle underlying the suggestion is that while restrictions are to be imposed on new loans from outsiders, the credit of cultivators which has been enlarged greatly by the transferability of holdings is not to be decreased in any way and they will be able to take loans for legitimate and necessary purposes from approved credit organisations at fair rates of interest. It is the restriction of improvident borrowing from unscrupulous money-lenders which is to be aimed at by legislation.

16. Inculcation of the principles of thrift by co-operative organisations had not any marked effect on the members of the Rural Co-operative Societies as will be seen from the following summary of replies of some of the Central Co-operative Banks regarding their constituent rural societies.

In the case of Khulna Central Co-operative Bank, 'as regards the total amount of indebtedness of the members of the rural societies whereas the outside debt had been reduced, the total indebtedness has not been reduced.' This is said to be due to the fact that 'the landed properties on the whole have been increased.' But at the same it is remarked that although the Central Bank does not allow members of affiliated societies to raise loans from outside they do it surreptitiously.

The Nalhati Central Bank reported that all debts of 41 rural societies were paid off by Central Bank in different periods, but a regrettable feature was that all of these societies had incurred debt again.

The Dacca Central Bank reported to have reduced the debts of 6,685 individual members of rural societies to outside creditors from Rs. 7,65,299 to Rs. 4,91,894. The Comilla Central Bank reported to have minimised borrowing by members.

It is for the Sub-Committee to consider on what lines legislation should be undertaken—either by the amendment of present legislation or by new legislation—for restriction of new borrowing generally or supplementary to any legislation for debt adjustment.

II.—*Debt Conciliation on a voluntary basis.*

17. In paragraph 6 of the Government Note, debt conciliation on voluntary basis has been dealt with. The operation hitherto undertaken in the different provinces has been like ordinary arbitration except that it is carried on by Government officials; the proceedings have no support or authority from any legislative enactment. An account of such operations in the Central Provinces is given in the Indian Banking Enquiry Committee's Report. It will be seen that creditors often repented of their generosity but probably owing to Government officers making the settlement did not resile from the settlement.

18. *Settlement with money-lenders by the Co-operative Department.*—An interesting note on "Settlement with Mahajans" in the Pabna district is given in the Bengal Co-operative Journal, 1919. The principal was Rs. 13,406-5-9, interest Rs. 12,152-11-9, total Rs. 25,559-1-6. By settlement the creditors accepted Rs. 10,136 in cash, Rs. 5,658-15-6 to be paid by instalment. The writer remarked:— "The co-operative worker finds the Mahajan quite content sometimes to accept the original principal in cash either in one sum or by the instalment system, because it gives him fresh ready money for investment."

19. *Redemption of morgages amongst the Mundas.*—Redemption of mortgages was once undertaken by the Bengal Government for the Mundas. An account of this from the Bihar and Orissa Banking Enquiry Committee's Report is summarised below:—

In 1904, an enquiry was undertaken by Government of Bengal regarding usufructuary mortgages by Mundas in the Ranchi district. They were classified under two heads—

(*a*) mortgages, the amounts of which are less than the value of the lands mortgaged;
(*b*) mortgages the amounts of which exceed the value of lands mortgaged.

No action was proposed to be taken against (*b*), as regards (*a*), Government proposed to distribute loans under the Agriculturists' Relief Act. The Deputy Commissioner did not recommend the scrutiny of debts with a view to reducing those which were found to be exaggerated on the ground that legislation would be required and the general result would be unsatisfactory. In actual working the cases in which debt exceeded the value of land and in which the term of mortgages expired or was about to expire were taken up. The lands were mortgaged to Government and the recovery was by annual instalment, the period of repayment varying with the proportion that the debt bears to the value of the holding.

It was found that for an area 1,250 square miles, the total amount of the mortgages was Rs. 4,73,580. In cases involving Rs. 85,505 the estimated value of land exceeded the amount of the mortgage.

During the first year (1906) Rs. 70,191 was distributed as loans. During the next year Rs. 36,000 was distributed. During the third year Rs. 17,178 was advanced. In 1910, only Rs. 4,112 was actually distributed. In 1910, the Deputy Commissioner doubted the value of the scheme. He pointed out that Rs. 1,48,368 had been advanced. Out of the total amount due in repayment and interest over 41 per cent. stood unrecovered. The collection was mostly by certificate procedure. The Subdivisional Officer of Khunti reported that the loans have entirely failed in their object.

20. *The Central Provinces Debt Conciliation Act, 1933.*—Copy of the Central Provinces Debt Conciliation Act is given in Enclosure.

21. *The Madras Debt Conciliation Bill.*—The Madras Debt Conciliation Bill is intended to apply to agriculturists whose debts exceed Rs. 150 and is to be restricted in the first instance to debtors whose debts aggregate to below Rs. 25,000. Leave to introduce this Bill was granted by the Legislative Council on the 18th March 1934. It follows generally the lines of the Central Provinces Debt Conciliation Act.

22. Several points have been suggested in the Government Note in this connection for the consideration of the Board. These are:—

(1) The desirability of such legislation.

It may be stated that necessity for legislation is to give powers to the agency employed for the purpose of debt conciliation to bring together the parties, to have their statements as also of witnesses and lastly to record the agreement arrived at and register it so as to give it validity.

(2) The agency for such conciliation.

The agency in the Central Provinces is a debt Conciliation Board set up by Government. Some competent authorities in this province are, of opinion, that instead of a Board the work can be done more expeditiously by itinerant Revenue Officers of the status of Sub-Deputy Collectors conversant with local conditions.

(3) The amount of debt that should be taken up by the conciliation authority.

The proposal is to restrict conciliation of debt up to Rs. 1,000.

(4) The area that should be selected for the operation of the Act.

III.—*Compulsory Reduction of Interest.*

23. In paragraph 7 of the Note, Government have referred the question of compulsory reduction of interest. The scheme set forth provides for legislation under items (*c*) and (*d*). It is for the Sub-Committee to consider the lines on which legislation shall be undertaken. The Central Provinces Debt Conciliation Act provides for certification of debt in case there be no voluntary agreement between the parties, and the amount of debt so certified is to be recovered like voluntarily adjusted debts through Civil Courts. The Government scheme, however, contemplates under (*a*) the taking over of such debts by Co-operative Credit Societies, Land Mortgage Banks or other approved credit institutions, and so consequently the necessity of enquiry about surplus income as in (*b*) arises. In the circumstances, it is perhaps necessary for the Sub-Committee to consider on what lines legislation under (*c*) and (*d*) should be based to safeguard the institutions under (*a*). In view of the fact that the creditors will get back the amount of adjusted debt either in cash or its equivalent in good securities, it may be contemplated that the adjustment should be on liberal basis from the debtor's standpoint.

IV.—*Rural Insolvency Act.*

24. In paragraph 8 of the Government Note, the Board has been asked for opinion as to legislation for a Rural Insolvency Act. In the Reports of the Royal Commission on Labour and the Civil Justices

Committee there are references to insolvency regulations. It will be for the Sub-Committee to decide the form of Rural Insolvency Act suitable for the province.

The points for consideration and decision of the Sub-Committee may be summarised as follows:—

1. What class or classes of agriculturists (according to the definition of the Bengal Tenancy Act) may be considered as having good security to offer or whose credit is reasonably good?

2. Taking the classification under 1, what is the proportion of such class of agriculturists in debt who (*a*) cannot meet their existing debt obligations given the present level of prices of agricultural produce or (*b*) are unable through existing ordinary credit organisations to raise money on reasonable terms. (The decision will be mainly based on the report of the statistical Sub-Committee.)

3. Are any measures desirable and practicable:—

(*a*) For the reduction of debt of such class of agriculturists in the first instance?

(*b*) For restraining them from borrowing from outsiders in the future, if their present debts are reduced and transferred to a recognised credit society.

4. Is legislation of an emergency or a permanent character necessary to create statutory powers—

(*a*) For the carrying out of debt conciliation schemes on a voluntary basis?

(*b*) For the compulsory reduction of interest?

(*c*) For the compulsory recording of debts or licensing of money-lenders.

(*d*) In the form of a Special Rural Insolvency Act?

(*e*) For restraining fresh borrowing except for valid reasons?

5. If legislation is decided on, is it desirable to have a Special Sub-Committee from the member of the Sub-Committee to frame the scheme of such legislation?

6. If so, what should be the personnel of such Special Committee and the terms of reference and the time by which it should report? (The terms of reference may be for drafting in the form of Bills on the different items as in 4.)

(*a*) the place where the debtor resides; and

(*b*) the amount and particulars of his claim against such debtor.

7. (1) *Procedure on application.*—On receipt of an application under section 4, the Board shall pass an order fixing a date and place for hearing the application:

Provided that the Board may at any time dismiss the application if, for reasons to be stated in writing, it does not consider it desirable to attempt to effect a settlement between the debtor and his creditors.

(2) Notice of the order under sub-section (*1*) shall be sent by registered post to the debtor or creditors, as the case may be.

8. (1) *Notice calling upon creditors to submit statement of debts.*—If, after examining the debtor, it is in the opinion of the Board desirable to attempt to effect a settlement between him and his creditors, a notice shall be issued and served or published in the manner prescribed calling upon every creditor of the debtor to submit a statement of debts owed to such creditor by the debtor. Such statement shall be submitted to the Board in writing within two months from the date of service or publication of the notice, as the case may be:

Provided that, if the Board is satisfied that any creditor was, for good and sufficient cause, unable to comply with such directions, it may extend the period for the submission of his statement of the debt owed to him.

(2) Every debt of which a statement is not submitted to the Board in compliance with the provisions of sub-section (*1*) shall be deemed for all purposes and all occasions to have been duly discharged:

Provided that, if a creditor proves to the satisfaction of the Board or a civil court that the notice was not served on him and that he had no knowledge of its publication, the Board or Court may revive the debt.

9. (1) *Procedure on submission of statement of debts.*—Every creditor submitting a statement of the debts owed to him in compliance with a notice issued under sub-section (*1*) of section 8 shall furnish, along with such statement, full particulars of all such debts and shall at the same time produce all documents, including entries in books of account, on which he relies to support his claims, together with a true copy of every such document.

(2) The Board shall, after marking for the purpose of identification every original document so produced and verifying the correctness of the copy, retain the copy and return the original to the creditor.

(3) If any document which is in the possession or under the control of the creditor is not produced by him as required by sub-section (*1*), the document shall not be admissible in evidence against the debtor in any suit brought by the creditor or by any person claiming under him.

10. *Board to endeavour amicable settlement.*—The Board shall call upon the debtor and each creditor, respectively, to explain his case regarding each debt and shall endeavour to induce them to arrive at an amicable settlement.

11. (1) *Power of Board to require attendance of persons and production of documents and receive evidence.*—Subject to the provisions of sections 132 and 133 of the Code of Civil Procedure, 1908 (V of 1908), and to rules made under section 25 a Board shall have power to summon any person whose attendance it considers necessary either to be examined as a party or to give evidence as a witness or to produce any document for the purposes of any inquiry under this Act.

11. (2) Any person present may be required by a Board to give evidence or to produce any document then and there in his possession or power.

12. (1) *Agreement of amicable settlement, its registration and effect.*—If the creditors to whom not less than forty per cent. of the total amount of the debtor's debts are owing come to an amicable settlement with the debtor, such settlement shall forthwith be reduced to writing in the form of an agreement recording the amounts payable to such creditors and the manner in which and the times at which they are to be paid. Such agreement shall be read out and explained to the parties concerned, and shall be signed or otherwise authenticated by the Board and the parties:

Provided that, when a co-operative society is one of such creditors, no settlement, in so far as it affects the debts owing to such society, shall be valid without the previous approval in writing of the Registrar of Co-operative Societies.

(2) An agreement thus made shall, within fourteen days from the date of its making, be registered under the Indian Registration Act, 1908 (XVI of 1908), by the Chairman of the Board in such manner as may be prescribed and it shall then take effect as if it were a decree of a civil court.

(3) For the purpose of the registration of an agreement under sub-section (*2*), the Chairman of the Board shall be deemed to be an officer of Government empowered to execute such agreement within the meaning of section 88 of the Indian Registration Act, 1908 (XVI of 1908).

13. (1) *Recovery of sums due under agreement.*—If a debtor defaults in paying any amount due in accordance with the terms of an agreement registered under sub-section (*2*) of section 12, such amount shall be recoverable as an arrear of land revenue on the application of the creditor made within ninety days from the date of default.

(2) Where the Deputy Commissioner fails to recover as an arrear of land revenue any part of such amount, he shall certify that it is irrecoverable and thereupon the agreement shall cease to subsist.

(3) Where an agreement ceases to subsist, any amount which was payable under such agreement but has not been paid shall be recoverable as if a decree of a civil court had then been passed for its payment.

14. *Power of Board to dismiss application.*—If no amicable settlement is arrived at under sub-section (*1*) of section 12, the Board shall dismiss the application.

15. (1) *Grant of certificate by Board in respect of certain debts.*—Where, during the hearing of any application made under section 4, any creditor refuses to agree to an amicable settlement, the Board may, if it is of opinion that the debtor has made such creditor a fair offer which the creditor ought reasonably to accept, grant the debtor a certificate, in such form as may be prescribed, in respect of the debts owed by him to such creditor.

(2) *Power of Court to disallow costs or interest.*—Where any creditor sues in a civil court for the recovery of a debt in respect of which a certificate has been granted under sub-section (*1*), the Court shall, notwithstanding the provisions of any law for the time being in force, not allow the plaintiff any costs in such suit, or any interest on the debt after the date of such certificate in excess of simple interest at six per cent. per annum on the amount due on the date of such certificate.

(3) Where, after the registration of an agreement under sub-section (2) of section 12, any unsecured creditor sues for the recovery of a debt, other than a debt incurred subsequent to such agreement, in respect of which a certificate has been granted under sub-section (1) or any creditor sues for the recovery of a debt incurred after the date of such registration, any decree passed in such suit shall, notwithstanding anything contained in the Code of Civil Procedure, 1908 (V of 1908), not be executed until all amounts recorded as payable under such agreement have been paid or such agreement has ceased to subsist.

16 *Bar of civil suits.*—No civil court shall entertain—

(*a*) any suit in respect of—

(*i*) any matter pending before a Board, or

(*ii*) the validity of any procedure or the legality of any agreement made under this Act, or

(*iii*) the recovery of any debt recovered as wholly or partly payable under an agreement registered under sub-section (2) of section 12 from any person who, as a debtor, was party to such agreement, whether such agreement is subsisting or not, or

(*iv*) the recovery of any debt which has been deemed to have been duly discharged under sub-section (2) of section 8, except a debt which is revived under the proviso to that sub-section;

(*b*) any application to execute a decree, the execution of which is suspended under sub-section (3) of section 15.

17. *Avoidance of certain transfers of debtor's property.*—Every transfer of property made, with intent to defeat or delay the creditors of the debtor, after an application has been made to a Board under section 4 and until the agreement registered in respect of such application has ceased to subsist, shall be voidable at the option of any creditor so defeated or delayed.

18. *Bar of appeal or revision.*—No appeal or application for revision shall lie against any order passed by a Board.

19. *Power of Board to review its order.*—A Board may, on the application from any person interested made within ninety days of the passing of an order, review any order passed by it and pass such order in reference thereto as it thinks fit:

Provided that no order shall be varied or reversed unless notice has been given to the persons interested to appear and be heard in support of such order.

20. *Appearance of party before Board by agent but not by legal practitioner.*—In any proceedings before a Board any party may be permitted to appear by an agent authorized in writing, but not by a legal practitioner.

21. *Suspension of pending application or suit.*—When an application has been made to a Board under section 4, any suit or other proceedings then pending before a civil court in respect of any debt for the settlement of which application has been made shall be suspended until the Board has dismissed the application or an agreement registered under sub-section (2) of section 12 has ceased to subsist.

22. *Submission of reports by Boards regarding sums due to Government.*—Where in the course of an inquiry into an application made under section 4 a Board finds that there is any sum owing to Government on account of loans advanced under the Agriculturists' Loans Act, 1884 (XII of 1884), or the Land Improvement Loans Act, 1883 (XIX of 1883), or otherwise, the Board shall report this fact through the Deputy Commissioner to the Commissioner.

23. *Allowance of time for limitation.*—In calculating the period of limitation for any suit filed in, or proceeding before, a civil court for the recovery of a debt which was the subject of any proceedings under this Act, the time during which such proceedings had continued shall be excluded.

24. *Members of Board deemed to be public servants.*—The members of a Board shall be deemed to be public servants within the meaning of the Indian Penal Code (XLV of 1860).

25. *Power to make rules.*—In addition to any power specially conferred by this Act, the local Government may make rules—

(*a*) prescribing the quorum for, and regulating the procedure before, a Board;

(*b*) prescribing the manner in which notices shall be issued and served or published under sub-section (*1*) of section 8;

(*c*) prescribing the charges to be made by a Board for anything done under this Act and the persons by whom and the manner in which such charges shall be paid;

(*d*) prescribing the records to be kept and the returns to be made by a Board;

(*e*) prescribing the allowances, if any, to be paid to the Chairman and members of a Board;

(*f*) regulating the power of a Board to summon parties and witnesses under section 11 and the grant of expenses to witnesses;

(*g*) prescribing the place at which and the manner in which an agreement shall be registered under sub-section (*2*) of section 12;

(*h*) prescribing the form of certificate to be granted under sub-section (*2*) of section 13 or sub-section (*1*) of section 15; and

(*i*) generally, for the purpose of carrying into effect the provisions of this Act.

26. (1) *General provision regarding rules.*—All rules for which provision is made in this Act shall be made by the Local Government and shall be consistent with this Act.

(2) All rules shall be subject to the condition of previous publication.

(3) In making any rule the Local Government may direct that a breach thereof shall be punishable with fine which may extend to fifty rupees, and, where the breach is a continuing one, with further fine which may extend to ten rupees for every day after the first during which the breach has been persisted in.

Note for the Sub-Committee on the organisation and provision of financial machinery for the purpose of liquidating agricultural debt (by Secretary, Board of Economic Enquiry).

This note is a rough attempt to review the respective tasks before the Statistical Sub-Committee and the Financial Sub-Committee. To a great extent it appears their work will overlap.

The Statistical Sub-Committee will examine all the information bearing on the extent of the indebtedness of the agricultural population and the resources at their command for paying interest and their prospects of clearing it. The intensive enquiries of over 7,000 families are being analysed and figures of income, expenditure and debt, will be supplied separately for those families whose debts (a) exceed 2 years' income, (b) are between one and two years' income, and (c) are below one year's income. It is hoped that the Statisticians will be able to advise how far these figures can be taken as representative of different parts of the province by comparing and testing items of information which have been previously collected for the whole province, e.g., the average number of persons in a family, the average amount of land held, the average amount of rent paid, the average produce of different crops. The Sub-Committee as a whole may then be in a position to recommend that the Government scheme of reducing the debt by conciliation and transferring the balance to Land Mortgage Banks, Co-operative Banks, or any other similar institution should be tried in respect of say 40 per cent. of the agricultural families in the province or in certain districts or subdivisions.

2. *Control.*—It has been pointed out in the Government Note that the co-operative movement in Bengal has suffered from inadequate control and guidance. It may, perhaps, be mentioned that Mr. Wolff has often emphasised the need of a considerable measure of Government control in view of the special circumstances of India. The word control represents in all—three different processes, supervision, audit and inspection. Although audit and inspection are provided for in the Co-operative Societies Act of 1912, there is no specific provision dealing with supervision.

The foremost point of importance for decision of the Sub-Committee would, perhaps, be as to the form and nature of control, viz., administrative and financial, that should be exercised by Government with regard to the suggested machineries for taking over the adjusted loans. Because on it will depend the whole structure of the organisation.

If the Sub-Committee decides on a close control and supervision by the Government the nature of control and the approximate strength and cost of the supervising and audit staff required would have to be considered by the Sub-Committee to judge of the feasibility of the proposal.

3. *Finance.*—The next point that may be considered by the Sub-Committee is regarding the financing of the suggested organisations. The defect in the present type of Co-operative Societies, as has been stated in the Government Note, is that they are financed by short-term deposits which is unsuitable to supply the long-term loans required by agriculturists for redemption of debts. The Central Banking Enquiry Committee has suggested that in such cases financing should be by means of debentures as will appear from the scheme of the Committee

in the Statement. The Sub-Committee will be in a position to form an idea of the indebtedness of the different main areas of the province on the estimate of the statistical Sub-Committee.

It may be stated for the consideration of the Sub-Committee that under a properly organised system controlled and regulated by Government, the necessary finances can be raised on more favourable terms. In this connection the possibilities of securing help and advice from the agricultural credit department of the Reserve Bank may be considered coupled with the question of what security can be offered.

After dealing with the two main common points regarding the credit organisation, the Sub-Committee may, perhaps, consider the types of the different organisations that would be suitable to meet the needs of different areas or different classes of debtors.

4. (1) *Co-operative Societies.*—The defects in the present type of Co-operative Societies have been dealt with in the Government Note. It will be for the Sub-Committee to suggest a suitable type of Co-operative Credit Society that can be organised under the existing Act or an amended Act to meet the purpose.

(2) *Land Mortgage Banks.*—In the Statement the schemes for organisation of the Land Mortgage Banks as suggested by the Central Banking Enquiry Committee and that for the experimental banks referred to in paragraph 9 of the Government Note have been shown.

It will be for the Sub-Committee to consider the type that will be suitable in the special conditions prevailing in the province, and if any modifications are necessary.

5. *Approved Credit Organisation.*—Approved credit organisation is a very wide term. It is presumed by some competent observers that they may be institutions financed through Government, e.g., by debentures with interest guaranteed by Government as in case of land mortgage banks or from funds under the control and management of Government or they may be quite independent of the financial help from Government, subject, however, to the close supervision and audit of Government as contemplated before. It has been stated in paragraph 4 of the Government Note that the proposed organisations would be exempt from any restrictions contemplated to be imposed on private money-lenders and in the scheme suggested in paragraph 7, it has been stated that the adjusted debt would be transferred to the credit organisations. It has, however, been strongly emphasised that the credit organisation would require careful supervision, it would not be just to the original creditor to compel him to accept a smaller amount that was due unless it were possible to give him the assurance that his new debtor (the creditor organisation) would not default.

In the case of the first type of approved credit organisations, there is no danger of the assurance being wanting. But considering the vastness of rural indebtedness, which has been estimated by the Provincial Banking Enquiry Committee at rupees one hundred crores, some think it to be worth while to consider the possibilities of utilising the existing credit organisations of individual money-lenders and joint stock companies carrying on loan business. Some restriction has been imposed regarding the keeping of proper accounts and furnishing of the same to a debtor and penalty for non-compliance under sections 7 and 8 of the

Bengal Money-lenders' Act. But if the existing organisations are to take a share in the responsibilities and privileges of the suggested approved credit institutions, they must subject themselves to far greater and closer restriction and supervision.

6. If any scheme for the transference of debt to Government controlled banks is approved, it may be necessary to suggest legislative measures not only for preventing the debtors borrowing outside their own re-organised banks, but to ensure that if the debtors default in payment of interest without very good cause their lands should pass to the Bank without expensive and protracted litigation—the apprehension of which might prevent the bank from being able to sell the lands or settle them with other persons, in which case the banks would be bankrupt in a few years.

Consideration of this difficulty may not be primarily the duty of the Finance Sub-Committee but its ideas on the subject will certainly be welcomed.

7. A statement comparing the schemes for Land Mortgage Banks as suggested by the Indian Central Banking Enquiry Committee and the one adopted by the Co-operative Department, Bengal, is attached.

8. The points for decision of the Sub-Committee may be summarised as below:—

(1) To what extent is it desirable or practicable that adjusted debts should be taken over:

(*a*) by Co-operative Credit Societies;

(*b*) by Land Mortgage Banks; and

(*c*) by approved credit organisations.

(2) In case of 1(a), (i) what should be the scheme of these societies and (ii) what kinds of loans should be financed by them.

(3) In case of 1(b), (i) should these Land Mortgage Banks be formed with direct Government support or through Co-operative Organisations; (ii) what kinds of loans should be financed by them, and (iii) what should be the general scheme of these Banks.

(4) In case of 1 (c), what shall be the scheme of approved credit organisations managed directly by Government.

(5) In case of 1 (*c*), if other Credit Organisations managed by private individuals or by joint stock companies are to be approved, (i) what should be the scheme of control and supervision of the organisations by Government, and (ii) what should be the scheme of their management.

(6) In the schemes of different organisations recommended in what cases legislation would be necessary and the frame of such legislation.

(7) In case of legislation should any provision be made in particular for enforcement of mortgage security by any summary procedure for foreclosure and sale.

Note on the Punjab Bill on relief of indebtednesss as modified by Select Committee.

The Punjab Bill on relief of indebtedness as modified by the Select Committee is divided into 8 parts, viz.—

(1) Preliminary.

(2) Insolvency Procedure.

(3) Usurious Loans.

(4) Debt Conciliation Board.

(5) Damdupat.

(6) Deposit in Courts.

(7) Amendment of the Punjab Redemption Mortgages Act.

(8) Miscellaneous amendments of the civil law.

This note summarises the main points on which the Punjab Bill differs from the Bill for the relief of indebtedness drafted for the Board of Economic Enquiry, which is referred to here as "Bengal Bill" for the purpose of brevity.

2. The definition of "Loan" in part I of the Punjab Bill does not differ much from that in the Bengal Bill as they now stand.

3. Part II of the Punjab Bill amends the Provincial Insolvency Act (*a*) by adding a clause in section 10(*1*), which has the effect of reducing the minimum assets of an insolvent to Rs. 250 from Rs. 500 and (*b*) by substituting in section 74 "Rs. 15,000" for "Rs. 5,000" and thus raising the jurisdiction for summary administration of a debtor's property.

It may be noted that there is no minimum proposed in the Bengal Bill which provides in clause 14B for the reduction of an insolvent's debt to his paying capacity by an order of adjustment and for the fixing of instalments for payment accordingly: if there is default in an instalment it provides (in clause 15) for the sale of the insolvent's property excluding his homestead for the rateable distribution of sale proceeds and for granting of a discharge certificate.

4. In part III of the Punjab Bill several amendments of the Usurious Loans Act are contemplated. The main amendment is to the effect that all compound interest shall be deemed to be excessive except on loans from and deposits with Government, local bodies, joint stock companies and co-operative societies and in mortgages by any person other than an agriculturist.

The provisions are to have retrospective effect. There is nothing similar in the Bengal Bill as the Bengal Money Lenders' Act covers them.

5. It is in part IV of the Punjab Bill that the comparison with the Bengal Bill is most interesting.

The definition of "Debt" in the clause 7(*1*) of the Punjab Bill excludes—

(*a*) "Land Revenue" just as "rent" was excluded in the original draft of Bengal Bill. (The Board is now of opinion that "rent" should not be excluded but should be the subject of conciliation just like other debts);
(*b*) Debts barred by limitation. This is not of much importance as a time-barred debt is *ipso facto* legally in effective;
(*c*) Debts due to co-operative banks and societies, and
(*d*) to commercial banks.

There is much controversy as regards exclusion of debts to co-operative societies. The Bengal Bill does not exclude such debts but provides that proceedings which affect them are to be initiated subject to the approval of the Registrar of Co-operative Societies (clause 16). The minority of the Punjab Select Committee notes that the wisdom of excluding co-operative banks is open to question particularly as the Directors of these banks are of the borrowing class: and they hold that these banks require no special protection particularly if as is represented, their dealings are such as to show the utmost consideration for the borrowers.

The Punjab Bill defines "Agriculture" in clause 7(*3*) as in the English Small Holdings' Act, 1892, 55 and 56 V.C. 31. The Bengal Bill [clause 2(*1*)] would give it the same meaning as in the Bengal Tenancy Act, where, although it is not defined, it has been interpreted by judicial decisions to include horticulture, etc., "Creditor" and "supplementary income" are defined in the Bengal Bill but not in the Punjab Bill.

The Punjab Bill clause 8(*3*) provides for fixing the pecuniary limit of a Board's jurisdiction. The Bengal Bill does not fix any limit.

The Punjab Bill (clause 12) does not include a proviso empowering the Board to dismiss an application such as appears in the Bengal Bill (clause 11A).

Consequently the Punjab Bill clause 13(*1*) makes it obligatory on the Board to issue notices on creditors which the Bengal Bill clause 8(*1*) provides for issue of notices only if it is thought necessary after examination of the applicant.

The Punjab Bill lays down that if a creditor does not submit a statement of debt after receiving notice, the debt shall be deemed duly discharged [clause 13(*2*)], but the Bengal Bill [clause 8(*2*)] provides only that, in such a case, the debt shall be deemed to be the amount stated by the debtor in his application, subject to reduction under debt conciliation.

The Bengal Bill [clause 12(*1*)] provides for making an award when 60 per cent. of the debtor's debt is amicably settled between him and his creditors, whereas the Punjab Bill [clause 17(*1*)] provides for an authenticating agreement if "all or any of the creditors" agree (The minority of the Select Committee opposes this on the ground that it is fatal to the whole idea of conciliation. It would be open under the modified provision for a single creditor to effect the rights of other creditors.)

The Punjab Bill clause 17(*3*) omits provision of registration of an agreement or award such as appears in the Bengal Bill [clause 12(*2*)], as the Select Committee decided unanimously that the procedure for registration was complex and unnecessary.

Clause 19 of the Punjab Bill deals with the procedure when a creditor refuses a reasonable offer by a debtor: this corresponds to clause 14 of the Bengal Bill but differs fundamentally from it. Both Bills provide for the issue of a certificate or award by the Board in respect of the debts covered by the offer: but in the Punjab Bill the result is merely that a civil court will allow no costs in a suit for these debts and will not allow interest at more than 6 per cent. from the date of the certificate; while the award proposed by the Bengal Bill would have the effect of a decree and would actually reduce the debt though not to a figure below the original principal.

6. There is nothing in the Punjab Bill corresponding to the following clauses of the Bengal Bill:—

(*a*) realisation of an amount settled amicably or awarded under clause 14 under the Public Demands Recovery Act, in case of failure to pay instalments as fixed in the award;

(*b*) clause 17A(*ii*) barring execution of a decree for a loan incurred after an award till the amounts covered by them have been paid;

(*c*) clause 14A which provides that secured debts should have priority and that the mortgage or lien on the property will subsist till the awarded or certificated debts are paid; and

(*d*) clause 23 which provides that an award shall be negotiable and may be transferred to an approved credit organisation.

7. Part V (Damdupat) of the Punjab Bill is not necessary for Bengal in view of the Bengal Money-Lenders' Act.

8. There is nothing in the Bengal Bill to correspond with the following items in the Punjab Bill:—

(*a*) Part VI— Deposit in Court.

(*b*) Part VII—Amendment of the Punjab Redemption of Mortgages Act.

(*c*) Part VIII—Miscellaneous amendments of the civil law. The important provision is clause 33, prohibiting arrest of a debtor except under certain circumstances, one of which is refusing or neglecting to pay the amount of a decree in spite of having the means of paying it.

Clause 34 of the Punjab Bill restricts the prohibition contained in section 60(*1*) of the Civil Procedure Code against attachment of house or other buildings belonging to and occupied by an agriculturist, by adding the words "not let out on rent or let to others or left vacant for a period of a year or more."

Clause 35 omits rule 2(*3*) in Order XXI of the Civil Procedure Code, which is to the effect that no payment out of court will be recognised if not certified by a court.

Clause 36 amends section 48 of Civil Procedure Code by making the period of limitation for recovery under a decree six years instead of twelve.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 17th January 1935.

First Forecast of the Wheat Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1932-33, averaged (*a*) 41·4 and (*b*) 10·8 per cent., respectively.)

Explanatory.—Four forecasts of wheat crop are published. The present forecast deals only with the estimated area sown and the general condition of the crop in the early stages.

Acreage.—According to the estimates of the District Officers, the total area sown amounts to 151,600 acres this year as against 145,400 and 145,500 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—Rainfall in October and November was sufficient for the preparatory tillage and for the sowings of the crop which generally took place at the usual time. Subsequent weather was helpful for germination and growth. The present outlook is promising, on the whole.

K. McLEAN,
Director of Agriculture, Bengal (offg.)

Explanation (2).—For the purposes of exemption (7)—

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. It is proposed, subject to certain exemptions, to levy a small surcharge on electricity which is used for the purpose of lights and fans. The rates of surcharge are specified in the First Schedule. The exemptions are specified in the Second Schedule and include the exemption of persons who do not use more than 12 units of electricity in any one month. The rates of duty and the exemptions are so fixed that they will, it is believed, neither adversely affect the development of electrical facilities nor handicap the users of electricity.

Legislation on the same lines, passed in 1932, is in force in the Presidency of Bombay.

J. A. WOODHEAD,

CALCUTTA ;
The 11th January, 1935.

A. deC. WILLIAMS,
Secy. to the Govt. of Bengal.

PRESS COMMUNIQUE.

1. In order to supplement the revenues of Bengal, whose budgets since 1930-31 have shown large deficits, the Central Legislature voted in March last a grant to this province equal to half the net proceeds of the export duty on jute grown within her boundaries. The grant voted last year was for the year 1934-35, and its renewal for the ensuing year remains within the discretion of the Central Government and Legislature.

2. In connection with this grant the Hon'ble the Finance Member of the Government of India in his budget speech and in his speech during the general debate on the budget in the Legislative Assembly made the following statements:—

"While our financial position has been maintained in the sound manner which I have described, we have to recognise that the financial position in India is not merely a question of the Central Government budget, but that provincial finances also closely concern us. Not only does the Central Government at present act as the banker to the provinces, holding their balances and providing funds to meet their capital expenditure and deficits, but we have also in these days to consider our policy with some regard to the various proposals for Federal finance which are such an important part in the constitutional plan. I am not suggesting that we can in any way anticipate the new constitutional proposals, the form of which is still subject to consideration by the British Parliament, nor that we can attempt to take upon our shoulders the responsibility for dealing with the problems of Provincial Governments. There is, however, one case which has stood out in all the enquiries and proposals as requiring some special action, and that is the case of Bengal. The need for some special help has been recognised in the White Paper, and the Government of India is also prepared to accept a similar conclusion. At the same time if any action is to be taken, it is right that something should be done without delay, because Bengal has been since 1930 incurring deficits at the rate of about two crores per annum, and its debt on this account is piling up to figures which may become really unmanageable. If we are prepared to take account of this, and ask the Central Legislature to support us in raising funds to help Bengal, we can only fairly claim to be satisfied that the Bengal Government and Legislature are doing all that is possible to help themselves. Everything which I have to propose is subject to this condition."

* * * * *

"I must add a few words as to the significance in relation to Bengal of the proposal to render it possible to surrender part of the jute duty. I have already stated that it is necessary to stipulate, and indeed we feel sure that we shall be supported in this view by the Legislature and particularly by those who represent other provinces, that if the special assistance, out of what are under the present constitution Central funds, is to be given, it is fair that we should satisfy ourselves that the Government of Bengal is taking every possible measure on its own account to restore financial equilibrium. On the other hand the present proposal is, as I have already stated on several occasions, only intended as a provisional proposal. It is not intended to be a permanent commitment, nor do we intend to take the line that it is to be regarded as a full and final settlement of the Bengal Government's financial position. Further enquiries will have to be made before any such settlement could be reached, nor can it be reached until the constitutional plan is determined by the British Parliament. There are several difficult points involved, amongst which I must mention the treatment of the debt which has already accrued against Bengal as a result of budget deficits which have been incurred since 1930."

* * * *

"But the position is this, and I want the House to be very clear about this, because this is the issue which is before the House. We, as the Government of India, having given a very careful consideration to the position, had come to the conclusion that the position of the Bengal Government was such that it could not be expected, by its own efforts, to be able to restore financial equilibrium. That is the whole basis of our proposals and we feel that, in their position, the Bengal Government is in a special position, and that there is no province in India to-day which is in a comparable position. Now, that being our conclusion, the position was this. The Bengal Government was incurring deficits at the rate of almost 2 crores a year. They were piling up a debt which, as I said in my budget speech, would soon have reached unmanageable figures. Our position as the banker of that Government must have been this. We ought to have said to them either 'We cannot go on advancing you money to meet your deficits, you must put your house in order,' or 'we must recognise the fact that you yourselves are unable to put your house in order, and, therefore, we must try and devise some means to help you.' We felt that in any case the position, as it was, could not be allowed to continue: and as we had been convinced that they were unable to restore their own position in present conditions, we felt that the time had come when we must put forward some proposal which would enable us to bring it within the bounds of possibility that they could help themselves to fill up the remainder of the gap."

3. The condition laid down by the Hon'ble the Finance Member was endorsed by the Central Legislature, and the grant of an amount equivalent to one-half of the jute export duty was voted (for the year 1934-35) on the understanding that it would not be paid unless the Government of India were satisfied that the Bengal Government and the

Bengal Legislature were doing all that was possible to help themselves. The position at that time was as follows:—

	Rs.
Deficit on revenue account in the Bengal Estimates for the year 1934-35	2,09,22,000
Estimated amount of half the net proceeds of the jute Export duty	1,67,00,000
Reduced deficit	42,22,000

Final figures for the Budget Estimates for the year 1935-36 are not yet available; but the preliminary figures disclose no improvement in the revenue position, and the problem of balancing the budget in the year 1935-36 is very much the same as it was in the year 1934-35.

4. When a Government's expenditure exceeds its revenue, in order to effect adjustment, it must either retrench its expenditure or increase its taxation, or do both. Assisted by a Retrenchment Committee which they appointed in 1932, the Bengal Government have exhaustively considered the possibilities of retrenchment and measures for the reduction of expenditure have been adopted wherever retrenchment was considered feasible without seriously affecting the efficiency of the administration. The effect of those measures was analysed in the speech given by the Hon'ble the Finance Member when introducing the budget estimates for 1934-35 in the Legislative Council. His analysis showed that on a true comparison of the expenditure on revenue account in 1929-30 with that in 1933-34 the aggregate reduction in expenditure effected was no less than Rs. 94¾ lakhs. Since then, rules have issued revising the scales of pay for the large majority of the services and posts under the rule-making power of the local Government, and their effect will be a saving eventually of approximately Rs. 45 lakhs per annum.

5. Apart from (*a*) an enhancement in registration fees, and (*b*) the introduction of a provincial tax on motor vehicles the proceeds of which, being earmarked for additional expenditure on communications, do not however relieve the revenue position, no additional taxation has been imposed in Bengal since the year 1922. The position as regards taxation has accordingly been examined, both generally and with particular reference to measures taken in other provinces, and the local Government have decided to introduce certain taxation Bills at the ensuing session of the Legislative Council. The additional revenues expected from these Bills will not completely fill the gap between revenue and expenditure that will remain after receipt of one-half of the jute export duty, but they will considerably reduce it.

This decision does not mean that the Government of Bengal have abandoned either their claim that the jute export duty should be a provincial source of revenue or their claim for an adjustment to cover the excess of expenditure over receipts on revenue account that has accumulated since 1930-31. On the contrary, they will continue to press those claims, and they are satisfied that the case which they intend to put forward will certainly not be weakened by the adoption of the measures now proposed.

6. The taxation measures which it has been decided to place before the legislature have been published in the Gazette. They are—

	Estimated yield in a full year. Rs.
(*a*) The Bengal Electricity Duty Bill, 1935	10 lakhs.
(*b*) The Bengal Tobacco (Sales Licensing) Bill, 1935	5 ,,
(*c*) The Court Fees (Bengal Amendment) Bill, 1935	3½ ,,
(*d*) The Indian Stamp (Bengal Amendment) Bill, 1935	4 ,,
(*e*) The Bengal Amusements Tax (Amendment) Bill, 1935 ..	2 ,,
Total ..	24½ ,,

7. *The Bengal Electricity Duty Bill, 1935.*—Legislation on the lines of this Bill has been in force in the Presidency of Bombay since 1932. The Bill provides, subject to certain exemptions, for the levy of a surcharge on electricity used for the purpose of lights and fans. The surcharge proposed is 6 pies per unit of energy. This is the surcharge in force in the Presidency of Bombay. The exemptions include Government, Railway Administrations and Local authorities, save in respect of premises used for residential purposes; Tramway Companies and all places or premises wherein any manufacturing process [as defined in clause (*g*) of section 2 of the Indian Factories Act, 1934] is carried on, save in respect of premises used for residential and office purposes; hospitals and dispensaries which are not maintained for private gain; and all consumers using not more than 12 units in any one month.

8. *The Bengal Tobacco (Sales Licensing) Bill, 1935.*—This Bill requires licences to be taken out for the sale of tobacco, but expressly provides that cultivators of tobacco may sell the produce of their own cultivation without taking out a licence. The Bill places no restrictions whatsoever on the sale by the cultivator of tobacco grown by himself or with the aid of the members of his family or by hired labour.

The fees which it is proposed to levy are modest:—

	Rs.
(*a*) Wholesale licences ...	6 per annum.
(*b*) Retail licences ...	3 per annum.
(*c*) Hawker's licences ...	1 per annum.

Tobacco is subject to internal taxation in most countries of the world and in several parts of India. In the city of Bombay a system of taxation has been in force since the year 1857. Under this system all tobacco imported into the town of Bombay and intended for consumption therein is subject to a town duty of Rs. 30 a maund levied at bonded warehouses, and retail sale is permitted under licence on payment of a nominal fee of Re. 1 per annum. In French India the privilege of vend of tobacco is sold by auction, and the site of each

shop is defined in the licence. In Portuguese India a licence fee is charged for wholesale and retail vend. In the State of Travancore cultivation of tobacco is prohibited, and a duty is levied on tobacco entering the State. In the State of Cochin cultivation is prohibited, and both wholesale and retail shops are sold by auction.

In 1933 the Bombay (District) Tobacco Bill was passed into law. This law, which applies to the whole of the Presidency of Bombay except the City of Bombay, requires licences to be taken out for the sale of tobacco and provides for the levy of licence fees on both wholesale and retail vend. A similar measure was passed into law in the Punjab in 1934. The Punjab Act, which also requires licences to be taken out for the sale of tobacco, extends to municipalities, notified areas, small towns, cantonments and railway stations and not to the whole province.

9. *The Court-Fees (Bengal Amendment) Bill, 1935.*—The Bill provides for a higher court-fee than that now levied on Probates, Letters of Administration and Certificates under the Indian Succession Act, 1925, when the value of the property or the amount of the debt exceeds Rs. 2,50,000. The rates in the Bill have been in force in the Presidency of Bombay since 1932.

10. *The Indian Stamp (Bengal Amendment) Bill, 1935.*—This Bill provides for an increase in the rates of certain stamp duties. The rates proposed are, with one exception, in force in one or more of the other provinces.

11. *The Bengal Amusements Tax (Amendment) Bill, 1935.*—Under the Bengal Amusements Tax Act tickets of admission not exceeding 8 annas are not liable to the Amusements tax. The Bill provides for the imposition of a tax on tickets costing more than 3 annas. The tax proposed is half an anna on tickets above 3 annas and not exceeding 4 annas and one anna on tickets exceeding 4 annas and not exceeding 12 annas. At present tickets exceeding 8 annas and not exceeding 12 annas are liable to a tax of one anna. Amusement taxes on tickets exceeding 4 annas are in force in the Presidencies of Madras and Bombay.

12. It will be seen that throughout their proposals Government have been at pains to avoid imposing any further charge on the resources of the really poor man.

44. The driver of a motor car shall not cause the car to travel backwards for a greater distance or time than is consistent with the public safety.

Emission of smoke or vapour.

45. (*1*) No person shall cause or permit the emission of smoke or visible vapour from a motor vehicle in such quantity as to cause annoyance or danger to the public.

(*2*) No driver of a motor vehicle shall use any cut-out, fitting or other apparatus or device which will allow the exhaust gases from the engine of the motor car to escape into the atmosphere without first passing through a silencer, expansion chamber or other contrivance suitable and sufficient for reducing as far as may reasonably be practicable the noise which would otherwise be caused by the escape of the said gases.

Compliance with directions of police.

46. The person in charge of a motor vehicle shall obey all directions of police officers in uniform posted or stationed at crossings or other places for the regulation of traffic.

(*d*) 12 miles an hour in the case of a heavy motor car if all the wheels of such vehicle are fitted with soft or elastic tyres other than pneumatic tyres:

Provided that if the axle-weight of the axle of a heavy motor car exceeds six tons in weight or if it draws a trailer the speed of such heavy motor car shall not exceed 8 miles an hour.

(*2*) The District Magistrate may, in consultation with the District Board or Municipality or other local authority concerned, restrict in any area within his jurisdiction by means of road signs the maximum speeds prescribed in sub-rule (*1*) at which motor vehicles of different classes may be driven therein, and no motor vehicle shall be driven within such area at a speed exceeding such restricted speed.

(*3*) The provisions of this rule shall not apply to such motor vehicles as may be specially exempted by the local Government in this behalf by a notification in the *Calcutta Gazette*.

Road Signs.

48. (*1*) Under section 12 of the Act, the District Magistrate may, in any public place, cause signboards or notice-boards to be exhibited or marks to be made on the surface of the road for the purpose of controlling motor vehicles, and may also cause islands or refuges of such character as he may consider appropriate, to be erected for the purpose of facilitating the crossing of the road by the public.

(*2*) The signs or notice-boards, which the District Magistrate may cause to be exhibited under the provisions of sub-rule (*1*) of this rule, shall include signs of the designs shown in Appendix B to these rules and no person shall drive any motor vehicle in contravention of any sign or notice-board which is one of the Prohibitory Signs shown in Part II of the said Appendix.

Stopping of vehicles.

49. (*1*) The person in charge of a motor vehicle shall cause the vehicle to stop and to remain stationary so long as may reasonably be necessary—

(*a*) when requested to do so by any police officer in uniform for the purpose of regulating traffic or of ascertaining the name and address of such person, or for any other reasonable purpose, or

(*b*) when requested to do so by any person having charge of a restive horse or other animal, or

(*c*) when the presence of the vehicle has caused an accident to any person or to any animal or vehicle in charge of any person.

(*2*) The request referred to in clauses (*a*) and (*b*) of sub-rule (*1*) may be made by such police officer or person putting up his hand as a signal to stop, or at night in such manner as the District Magistrate may direct.

(*3*) The person in charge of a motor vehicle, on the request of any police officer in uniform, or on the occurrence of an accident such as is referred to in clause (*c*) of sub-rule (*1*) on the reasonable request of any other person, shall produce his licence for inspection and

Conditions of driving or using.

50. No person shall drive or have charge of, or cause or permit to be used, any motor vehicle or trailer—

(*a*) which does not in all respects conform to these rules, or

(*b*) which is so driven or used as to contravene any of these rules, or

(*c*) without the permission or consent of the owner.

Registers to be maintained by dealers or manufacturers.

51. (*1*) Every manufacturer, or dealer, shall maintain a register containing the following particulars with respect to every motor vehicle using a general number which leaves his premises, namely—

(*a*) the date and time when the vehicle goes out,

(*b*) the name and licence number of the person in charge thereof,

(*c*) the purpose for which the vehicle is sent out,

(*d*) the date and time of the return of the vehicle to the premises, and

(*e*) the distinguishing number and letters affixed to the vehicle in accordance with rule 14(4),

(*2*) The said register shall be in such form as the District Magistrate may from time to time prescribe and shall be open at all reasonable times to the inspection of the District Magistrate or any police officer not below the rank of Sub-Inspector.

Supply of information concerning drivers or conductors.

52. (*1*) Every owner, or in the case of a motor vehicle let out on hire, every person hiring such vehicle, shall give such information as may be required by a Magistrate or a police officer not below the rank of assistant sub-inspector as to the identity of the driver or conductor who is alleged to be guilty of an offence under the Act or the rules and if he fails to do so, shall be guilty of an offence, unless he shows to the satisfaction of the Court that he did not know and could not with reasonable diligence have ascertained the identity of the driver or conductor.

Responsibility of owners, hirers, drivers or conductors.

(*2*) Every owner, or in the case of a motor vehicle let out on hire every person hiring such vehicle, shall be held equally liable with the actual driver or conductor of a lorry or omnibus for the offence of overloading.

Explanation.—Any person in temporary possession of a motor vehicle under the provisions of rule 8 shall, for the purposes of this rule, be deemed to be the owner.

Supply of information regarding driving licences or registered motor vehicles.

53. A certified copy of the particulars entered in the registers of driving licences and registered motor vehicles shall be furnished to every person applying for the same on payment of a fee of eight annas in respect of each licence or registered motor vehicle.

Part III.

The provisions of this Part unless otherwise stated shall apply to all heavy motor cars inclusive of motor lorries, to all motor omnibuses unless otherwise provided for in Part IV of the rules and to all tractors.

Additional rules regarding registration.

54. (*1*) For the purpose of the registration of heavy motor cars—

(*a*) the register of such vehicles shall be maintained in Form I appended to these rules, and

(*b*) the application for the registration of such vehicles shall be made in Form J appended to these rules.

(*2*) Before a heavy motor car is registered, the weight of the car when unladen, and if the District Magistrate so directs, the axle-weight of each axle of the car, shall be ascertained to the satisfaction of the District Magistrate.

(*3*) The owner of the car shall, for the purpose of sub-rule (*2*) of this rule, cause the car to be driven or brought to any such place as the District Magistrate may appoint.

(*4*) Upon the registration of a heavy motor car—

(*a*) the weight of the car when unladen, as certified under sub-rule (*2*) of this rule,

(*b*) the axle-weight of each axle as so certified or (if not so certified) as declared by the owner of the car,

(*c*) the diameter of each wheel,

(*d*) the width and material of the tyre of each wheel, and

(*e*) the highest rate of speed at which, in conformity with rule 47, the car may be driven,

shall be entered in the register of motor vehicles.

Marking.

55. (*1*) Upon receiving from the District Magistrate a copy of the entries made in the register relating to a heavy motor car, the owner of

the car shall cause to be painted or otherwise plainly marked in a conspicuous place—

(*a*) on the right or off-side of the car—

(*i*) the registered weight of the car when unladen, and

(*ii*) the registered axle-weight of each axle, and

(*b*) on the left or near side of the car—

(*i*) the highest rate of speed at which, in conformity with rule 47, the car may be driven, and

(*ii*) the owner's name and address.

(*2*) The said marking shall be made in letters and figures not less than one inch in height and of such shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made.

(*3*) The owner of the car shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary, to keep the letters and figures clearly legible and clearly distinguishable.

(*4*) This rule shall not apply to private motor cars.

Fresh registration or certification of vehicles.

56. (*1*) Notwithstanding anything contained in rule 4 (*1*) the owner of every heavy motor car registered in any other province under rules framed in that province under the Act, shall, before the vehicle is brought into use in Bengal, either—

(*a*) apply to the District Magistrate for the registration of the car under these rules, or

(*b*) cause the car to be taken to the District Magistrate, or to an officer appointed by him in this behalf, for the purpose of obtaining a certificate showing that the provisions of rules 54 and 55 have been sufficiently complied with in respect of the car.

(*2*) If the District Magistrate or the said officer is satisfied that the provisions of rules 54 and 55 have been sufficiently complied with in respect of a vehicle brought to him under either clause (*a*) or (*b*) of sub-rule (*1*), he may grant a certificate to that effect, and thereupon the car shall be deemed to have been registered under these rules, and the District Magistrate shall cause to be made in the register of motor cars such entries in respect of the car as are required by clause (*b*) of rule 54 (*1*).

Until it has been registered under these rules, or the certificate referred to in sub-rule (*2*) has been obtained, no heavy motor car shall be used, except for the purpose of being taken to be registered or examined for the purposes of sub-rule (*1*) or (*2*) of this rule.

Axle-weights.

57. (*1*) The axle-weight of a heavy motor car shall not exceed the registered axle-weight.

(2) The registered axle-weight of an axle of a heavy motor car shall not exceed eight tons, and the sum of the registered axle-weights of all the axles of a heavy motor car shall not exceed twelve tons:—

Provided that if a heavy motor car—

(*a*) draws a trailer which is so partially superimposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer or

(*b*) is provided with six road wheels mounted on three separate axles under a rigid frame and that the distance between the middle axle and the rear axle is not greater than 4 feet 6 inches and is not less than the exterior diameter of the tyre of the largest wheel,

the sum of the registered axle-weights shall not exceed sixteen tons, or

(*c*) is provided with six road wheels of which two are mounted on the front axle and four on the rear axle, the latter wheels on each side being mounted one in front of and one behind the axle, the registered axle-weight on the rear axle shall not exceed twelve tons and the sum of the registered axle-weights shall not exceed sixteen tons.

Tyres.

58. No heavy motor car shall be registered unless the car is fitted with pneumatic tyres on all wheels:

Provided that this rule shall not apply to tractors nor to any heavy motor cars which are in use or in stock with dealers or importers on the date on which these rules come into force:

Provided also that the Government may prohibit the driving of a heavy motor vehicle in any public place when in the opinion of the Government the driving of such vehicle would be likely to cause damage to the roadway or danger or inconvenience to the public.

Length.

59. The maximum overall length of a heavy motor car measured from the dumb irons, or, if there are no dumb irons, from the foremost part of the vehicle exclusive of the starting handle must not exceed twenty-seven feet six inches in the case of a four-wheeled vehicle and thirty feet in the case of a rigid frame six-wheeled vehicle:

Provided that if a heavy motor car draws a trailer which is so partially imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the maximum overall length of the heavy motor car and the trailer so attached shall not exceed thirty-three feet.

Overhang of a heavy motor car.

60. The overhang of a heavy motor car shall not exceed—

(*a*) in the case of a heavy motor car not being a tractor, seven twenty-fourths of the overall length of the heavy motor car, and

(*b*) in the case of a heavy motor car being a tractor, six feet.

For the purposes of this rule, the expression "overhang" means the distance measured horizontally and parallel to the longitudinal axis of the heavy motor car between two vertical planes at right angles to such axis the one passing through that point of the heavy motor car (exclusive of any hood when down) which projects furthest to the rear and the other passing—

(*i*) in the case of a heavy motor car having two axles, one of which is not a steering axle, through the centre point of that axle, and

(*ii*) in the case of a heavy motor car having three axles—

(*a*) where the front axle is the only steering axle, through a point four inches in rear of the centre of a straight line joining the centre points of the rear and middle axles, and

(*b*) where the rear axle is the only steering axle, through the centre point of the middle axle, and

(*c*) where all the axles but one are steering axles, through the centre point of the rearmost axle which is not a steering axle, and

(*iii*) in the case of a heavy motor car (whether having two axles or having three axles) where all the axles are steering axles, through a point situated on the longitudinal axis of the vehicle and such that a line drawn from it at right angles to that axis will pass through the centre of the minimum turning circle of the vehicle.

Brakes of heavy motor cars.

61. (*a*) Brakes must be of sufficient strength and be capable of stopping and holding the vehicle under all conditions.

(*b*) There must be two entirely independent and efficient braking systems or one efficient braking system having two independent means of operation in each case so designed and constructed that notwithstanding the failure of any part of any braking system there shall still be available for application by the driver to not less than half the number of the wheels of the vehicle brakes sufficient under the most adverse conditions to bring the vehicle to rest within a reasonable distance.

In all cases the brakes operated by one of the means of operation shall be capable of being applied by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

Where one braking system only is fitted—

(*i*) all the wheels of the vehicle shall be fitted with brakes all of which are operated by one of the means of operation; and

(*ii*) one at least of the means of operation shall cause brakes to be applied by direct mechanical means, and not through the transmission gear, to not less than half the number of wheels of the vehicle.

Where two independent braking systems are fitted the brakes of at least one of the braking systems shall act directly and not through the transmission gear on at least half the number of wheels of the vehicle.

For the purpose of this rule—

(*i*) not more than one front wheel shall be taken into account in reckoning half the number of the wheels of the vehicle;

(*ii*) braking systems shall not be deemed to be entirely independent if they are capable of being applied by the same means of operation;

(*iii*) any shaft, fixed or moving, to which any part of a braking system or any means of operation thereof is connected or by which it is supported shall be deemed to be part of that system.

(*c*) The brakes of one of the braking systems shall be applied by a pedal.

(*d*) The operation of either brake must not in any case declutch the engine from the transmission gear:

Provided that this clause shall not apply to motor vehicles already registered and in use nor to the motor vehicles in stock with dealers or importers on the date on which these rules come into force.

(*e*) The brake gear must be properly adjusted and nothing shall be placed on the vehicle which will prevent easy access to the brakes for adjustment.

(*f*) All brake connections secured with bolts or pins must have such bolts threaded and fitted with nuts, which latter must be locked or pinned.

Mechanical signalling device.

62. Every heavy motor vehicle including a motor lorry or a motor omnibus shall be fitted with a mechanical signalling device. Such device must fulfil the following conditions, that is to say—

(*a*) It shall signal a stop or change of direction in sufficient time to prevent danger to other traffic and in a clear and unmistakable manner by day and night.

(*b*) When it signals a change of direction, such signal shall be visible both from the front and the rear on the side to which the vehicle is about to turn, that is to say, on the inner side of the turn.

(*c*) It shall be such that the driver can at all times operate and control it from his seat.

Use of heavy motor cars upon bridges.

63. (*1*) When any authority which is liable for the repair of a bridge affixes or sets up in suitable and conspicuous positions on the bridge and on each approach to the bridge notices stating that the bridge is insufficient to carry a heavy motor car, the registered axle-weight of any axle of which exceeds such weight as may be specified in such notices, the owner of any such car shall not cause or suffer the car to be driven and the person driving or in charge of any such car shall not drive the car upon the bridge.

(*2*) No owner of a heavy motor car, the axle-weight of any axle of which exceeds six tons, shall cause or suffer the car to be driven, and no person driving or in charge of any such car shall drive the car upon any bridge at any time while another heavy motor car is on the bridge.

Trailers.

64. (*1*) No trailer shall be used unless it is fitted with pneumatic or resilient tyres of a soft and elastic material:

Provided that the District Magistrate may, for special reasons to be recorded in writing, permit non-resilient tyres if he is satisfied that their width and diameter is such that the vehicle will not damage road surfaces.

(*2*) The maximum length of a trailer excluding the coupling shall be 14 feet:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit a trailer to be used whose length is in excess of 14 feet upon such conditions as may be specified in the order.

(*3*) The coupling shall not be more than 4 feet in length; it must be rigid and so constructed as to bear the strain put on it.

(*4*) Every trailer must be provided with suitable springs between each axle and the frame:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit a trailer to be used without springs between the axle and the frame upon such conditions as may be specified in the order.

(*5*) No heavy motor car which is used either as a motor omnibus or otherwise for the conveyance of passengers for remuneration or hire shall draw a trailer.

(*6*) Not more than one trailer shall be drawn by any motor car:

Provided that the District Magistrate may by order for special reasons to be recorded by him permit more than one trailer to be drawn by any such car upon such conditions as may be specified in such order.

(*7*) A heavy motor car which exceeds twenty-six feet in overall length or which has more than four road wheels shall not draw a trailer.

Marking of trailers.

65. The owner of every trailer shall cause to be painted or otherwise plainly marked on a conspicuous part of the right or off-side of the trailer in letters and figures not less than one inch in height and of such

shape and colour as to be clearly legible and clearly distinguishable from the colour of the ground whereon the said marking is made—

(*a*) the weight of the trailer when unladen, and

(*b*) the axle-weight of each axle of the trailer and shall cause the said marking to be from time to time repaired or renewed, as often as may be necessary, to keep the said letters and figures clearly legible and clearly distinguishable.

Axle-weight of trailers.

66. The axle-weight of an axle of a trailer shall not exceed four tons:

Provided that if a heavy motor car draws a trailer which is so partially super-imposed upon and attached to the heavy motor car that at all times the weight upon the rear axle of the heavy motor car shall exceed the weight upon the axle of the trailer, the axle-weight of the axle of the trailer shall not exceed 6½ tons.

Determination of axle-weights.

67. (*1*) Whenever the District Magistrate, or any other officer duly authorised by him in this behalf, has reasonable grounds for suspecting that the axle-weight for the time being of any axle of any heavy motor car or trailer drawn thereby exceeds the registered or marked axle-weight of that axle, he may—

(*a*) require the person driving or in charge of the car to drive the car or cause it to be drawn with or without the trailer to a weighing machine, and

(*b*) cause the axle-weight for the time being of any such axle to be ascertained.

(*2*) The person driving or in charge of such car shall comply with any such requirements and shall to the best of his ability afford all such facilities as may reasonably be necessary for the purpose of ascertaining the axle-weight as aforesaid.

Height of load.

68. The load of a heavy motor car or trailer shall not exceed 10 feet from the roadway in height, or overlap the extreme width of the vehicle:

Provided that the District Magistrate may by order for special reasons to be recorded permit the height of a load to exceed 10 feet and/or to overlap the width of the vehicle upon such conditions as may be specified in the order.

Part IV.—Special rules governing Public Service Vehicles.

Limit of Public Service Vehicles.

69. The District Magistrate shall not sanction an application for the registration of a public service vehicle if he is satisfied—

(*a*) that there are already an adequate number of public service vehicles in the district; or

(*b*) that the plying of a public service vehicle on the route or any addition to the number of public service vehicles on the route on which the applicant intends that the public service vehicle shall ply would involve danger, injury or annoyance to the public.

70. There shall be one appeal to the Divisional Commissioner against an order of the District Magistrate refusing to sanction an application for registration of a public service vehicle. The orders of the Divisional Commissioner shall be final:

Provided that no such appeal shall be entertained unless it is presented within one month from the date of the order appealed against.

Routes.

71. The District Magistrate may, with the view to securing the public safety and the convenience of traffic, define, by reference to terminal points and to the course to be followed between those points, the routes upon which regular services of omnibuses may be established. Any person who proposes to establish a regular service of omnibuses upon a route which is not an approved route may apply to the District Magistrate to define that route as an approved route.

72. When licensing an omnibus to ply for hire, the District Magistrate may attach to any such licence, the following conditions:—

(*a*) a condition that the omnibus shall maintain a regular public service on the approved route or routes.

(*b*) a condition that the omnibus shall not ply for hire other than on the approval rpute or routes for which it is licensed,

(*c*) a condition that the omnibus shall not be withdrawn from public hire except with the permission of the District Magistrate.

73. (*1*) The District Magistrate may call on all persons to whom a public service vehicle licence for an omnibus has been granted to deposit, within 14 days of such order, with the District Magistrate, a schedule in such form and identified in such manner as he may require showing—

(*a*) the approved routes upon which a regular service of omnibus is maintained,

(*b*) the time at which the service on each route is to commence and end on each day,

(*c*) the service to be maintained on each such route, distinguishing, if the service to be maintained on different days or at different hours is to vary, the service to be maintained on the several days or at the several hours,

(*d*) the maximum number of omnibuses to be used to maintain such service on each such route distinguishing, if the service is to vary on different days, the maximum number to be so used on the several days,

(*e*) the stages into which he intends to divide each route and the fares which he intends to charge in respect of such stages, distinguishing, if the stages and fares are to vary on different days or at different hours, the stages and fares on the several days and at the several hours and shall supply to the District Magistrate such number of copies of the deposited schedule as the District Magistrate may require.

(*2*) With a view to public convenience the District Magistrate may direct that such schedule shall be amended in such respect as he thinks fit.

(3) On the order of the District Magistrate such schedule or amended schedule shall come into force.

74. The holder of such a licence may, at any time but only at intervals of not less than four weeks, amend any such schedule or substitute a new schedule therefor by depositing with the District Magistrate the proposed amended or new schedule in such form and identified in such manner as the District Magistrate may require, and after the deposit of the amended or new schedule with the concurrence of the District Magistrate, the amended schedule or new schedule, as the case may be, shall come into force.

75. A person to whom a licence for an omnibus has been granted subject to the condition that it shall not ply for hire except in maintaining a regular service, shall, except when prevented by accident or other unavoidable cause, or when otherwise authorised by the District Magistrate establish and maintain a service in accordance with the schedule for the time being in force with respect to his omnibus and shall not use for the maintenance of any service omnibuses other than those specified in such schedule, and shall not charge different fare or fares with respect to different stages from those specified in the schedule.

76. Where, as respects any route or part of a route, the Governor in Council is of opinion that by reason—

(*a*) of the width of the road or part of the road or the density of traffic thereon, or

(*b*) of the existence of alternative facilities for the conveyance of passengers along that route or part of the route or in proximity thereto, or of the omnibus accommodation on the route or part of the route being excessive,

it is desirable that an order under this rule shall be made, he may by order declare the route or part of the route to be a route in which the plying for hire by omnibuses and motor cabs shall be prohibited or restricted either generally or during particular hours, and a route or part of a route with respect to which such an order is made is hereinafter referred to as a "restricted route".

77. Where the Governor in Council has so declared any route or part of a route to be a "restricted route" the District Magistrate may prohibit or restrict the plying for hire by omnibuses and motor cabs on that route either generally or during particular hours and limit the aggregate number of journeys which may be made in either direction along the route during particular hours by omnibuses plying for hire.

78. All routes which are approved routes shall be numbered and classified in such a manner as may be directed by the District Magistrate and a list of all such approved routes shall be maintained at the office of the District Magistrate. In any case where it is necessary to refer to any routes in connection with any licence granted in respect of a motor omnibus, it shall for the purpose of identification be sufficient to refer to the classification or numbers of the routes.

79. An omnibus shall not ply for hire except on approved routes, provided that the District Magistrate may grant permission which may be either of special or of general application and may be either absolute or subject to any conditions, for an omnibus to ply for hire on other than an approved route.

80. The District Magistrate may allot places along approved routes for omnibuses to stop for picking up or setting down passengers. These places shall be called "Bus Stops" and no omnibus shall stop to pick up or set down passengers at any places other than such "Bus Stops."

Public Service Vehicle Licence.

81. No person shall cause or permit a motor vehicle to be used as a public service vehicle unless he has obtained for it from the District Magistrate a public service vehicle licence of the appropriate class.

The public service vehicle licence shall be in Form L appended to these rules. It shall consist of two parts. One part shall be kept in the custody of the District Magistrate. The other part, hereinafter called the licence card, shall be attached to and carried on the vehicle in a holder at all times when the motor vehicle is standing or plying for hire in a public place or street. The holder must be of metal and of weather-proof construction. It must be circular and conform to the following specifications:—

Card Tray—The licence card should fit neatly into a sheet metal tray of suitable thickness having a turned-up edge of sufficient depth to hold the card and a stout cover of transparent white glass.

Ring Cover—A circular ring of sheet metal shaped to fit down closely on the tray and adapted for fixing by screws, bolts or otherwise to the vehicle in the prescribed position. A rubber packing ring should be arranged to fit between the ring cover and cover glass and tray so as to render the whole carrier weather-proof.

Dimensions—The aperture within the ring cover should clearly exhibit the whole of the licence card and should have a diameter of 2·5/8 inches.

82. The licence shall be fitted on the vehicle in such a position that it shall be clearly visible in day light to a person standing beside the vehicle.

83. (*a*) An applicant (which expression shall mean an individual, firm or corporate body as the case may be) desirous of obtaining a public service vehicle licence for either a motor cab or a motor omnibus shall apply in Form K appended to these rules to such place as the District Magistrate may appoint.

(*b*) An application for a licence on behalf of a co-partnership or company shall be made by, and the licence if granted shall be issued to, the senior partner or the Secretary or Manager or other responsible official of the company as the case may be.

84. (*1*) A public service vehicle licence shall not be granted to any person under the age of 21 years and if granted to any such person it shall be void.

(*2*) The District Magistrate may, in his discretion, refuse to grant a public service vehicle licence if the applicant has previously obtained a licence for a public service vehicle and such licence has been revoked or suspended.

(3) The District Magistrate shall not grant a public service vehicle licence, if the applicant fails to satisfy him—

(a) that the public service vehicle conforms to the conditions of fitness from time to time laid down;

(b) that suitable and sufficient garage accommodation is provided with proper facilities for the maintenance and cleanliness of the vehicle;

(c) that he is of good character, that his financial position is such that he is a fit and proper person to hold a licence and that he is otherwise in a position to carry out his responsibilities as licensee of a public service vehicle, and

(d) where the application is made on behalf of a firm or a company that the applicant is of good character and that the firm or company is of good business repute and its financial position is such that a licence may properly be granted.

(4) If the application is approved by the District Magistrate, the applicant shall bring the vehicle, to which he desires the licence shall attach, to such place as the District Magistrate shall direct for examination together with a current registration certificate for the vehicle in the name of the applicant granted under Part II of these rules.

(5) If, however, after the District Magistrate has approved of the application, anything comes to his knowledge or circumstances arise which satisfy him that it is undesirable that such licence should be granted, he may withdraw or suspend such approval and if such approval is finally withdrawn, a licence shall not be issued. The District Magistrate shall record in writing the reasons for the withdrawal or suspension of such approval.

(6) A public service vehicle licence shall, unless suspended or revoked or rendered null and void in the meantime, continue in force up to the date on which the registration of the vehicle expires but not for a longer period than one year.

(7) The person to whom a licence has been issued whether individually or on behalf of a co-partnership or company, shall be responsible for the observance of the conditions under which the licence is granted as if he were the person solely interested in the licence.

(8) The licensee—

(i) shall not knowingly permit his public service vehicle to be used for an illegal or immoral purpose, or

(ii) shall not deface or mutilate his licence, or

(iii) shall at all times when required produce his licence to the District Magistrate or to such person as the District Magistrate may appoint, or

(iv) shall at all reasonable times for the purpose of inspection, examination or testing of the vehicle to which the licence relates—

(a) produce the vehicle at a time and place to be notified.

(b) afford to any officer, appointed by the District Magistrate, full facilities for such inspection, examination or testing, including access to his premises for the purpose;

(*v*) shall within three days after notice shall have been delivered to him personally or left at the address mentioned in or last endorsed upon his licence, deliver up his licence card to the District Magistrate or any officer appointed by him unless the licence card has previously been removed from the vehicle under the provisions of rule 85.

(*vi*) shall cause the public service vehicle and all its fittings and furniture to be maintained and kept in good order and repair and shall take all practicable means to secure that all parts of the mechanism, including the brakes and steering gear are free from defects and in efficient working order, that the inside and outside of the body and all other parts of the vehicle are kept clean and the whole ready and efficient for the purpose of hire, and shall not suffer any printed, written or other matter to appear on the outside or inside of the vehicle except such as shall be approved by the District Magistrate;

In all cases the brakes operated by one of the means of operation shall be capable of being applied by direct mechanical action without the intervention of any hydraulic, electric or pneumatic device.

Where one braking system only is fitted—

(*i*) all the wheels of the vehicle shall be fitted with brakes all of which are operated by one of the means of operation; and

(*ii*) one at least of the means of operation shall cause brakes to be applied by direct mechanical means, and not through the transmission gear, to not less than half the number of wheels of the vehicle.

Where two independent braking systems are fitted the brakes of at least one of the braking systems shall act directly and not through the transmission gear on at least half the number of wheels of the vehicle.

For the purpose of this rule—

(*i*) not more than one front wheel shall be taken into account in reckoning half the number of the wheels of the vehicle;

(*ii*) braking systems shall not be deemed to be entirely independent if they are capable of being applied by the same means of operation;

(*c*) The brakes of one of the braking systems shall be applied by a pedal.

(*d*) The operation of either brake must not in any case declutch the engine from the transmission gear:

Provided that this clause shall not apply to motor vehicles already registered and in use nor to the motor vehicles in stock with dealers or importers on the date on which these rules come into force.

After the lapse of this period, the vehicle should be allowed to proceed with the necessary warning. If no train is on its way from the next station the driver may proceed, and on his so doing the station-master shall take steps immediately to advise the next two stations ahead of having started in order that drivers of subsequent trains and motor vehicles may be made aware of the presence of a motor vehicle on the section. [*See* rule 48 (*2*).]

The designs of signs in Appendix B have been prescribed by the Government of India. The designs in Part I are of warning signs, that is to say, of danger signs erected merely for the information of the public. The first design shows how these warning signs are to be erected.

The designs in Part II are prohibitory or mandatory signs drawing attention to local restrictions or limits and have force of law. Design No. 1 shows how these signs are to be erected.

The design in Part III merely indicates where parking is to be allowed.

While there is no necessity to adopt standard specifications in respect of the posts upon which road signs are to be erected, the following points should be borne in mind—

(*a*) that they should be rigid and that the height from the ground to the bottom of the triangle should not be more than 9 feet for country roads, or 8 feet if in towns and particularly if reflecting devices are to be used on the signs;

(*b*) that a space of 6 inches should be left between the bottom of the triangle and the top of the explanatory plate below it;

(*c*) that the posts should be painted in black and white bands, 9 inches deep; and

(*d*) that the road signs should always be on the left of the road approaching the object of which they give notice.

The normal surplus which may be expected in future, i.e., difference between the average ordinary income and expenditure, calculated in figures in the columns 13 to 15 and 17 to 19, respectively.

In addition to the details required on the reverse, clear informations are given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the district board has taken or has agreed to take to make good the deficiency.	(*a*) The ordinary surplus is not insufficient if the closing and opening balances of the years are taken into account.
(*b*) Possible means of income in the revenue of the district board.	(*b*) As the bridge will be a toll bar one there will be an extra income out of the same. Moreover the cess rates have been reduced for the present. There will be substantial increase in income on the re-imposition of the full rates.
(*c*) A statement of all outstanding loans as well as the annual charges involved on their account.	(*c*) (1) Loan of Rs. 40,000 taken on 20th March 1923, out of which 22 instalments of Rs. 1,873-2 each were paid up to date out of 40 instalments. (2) Loan of Rs. 30,000 taken on 14th February 1925, out of which 19 instalments of Rs. 1,404-13 each were paid up to date out of 40 instalments. (3) Loan of Rs. 30,000 taken on 11th March 1926, out of which 16 instalments of Rs. 1,404-13 each were paid up to date out of 40 instalments. (4) Loan of Rs. 30,000 taken on 1st February 1928, out of which 13 instalments of Rs. 1,297-14 each were paid up to date out of 40 instalments. (5) Loan of Rs. 20,000 taken on 16th November 1929, out of which 9 instalments of Rs. 865-4 each were paid up to date out of 40 instalments.
(*d*) Any explanation in regard to receipts and expenditure to show the financial position of the board when such is otherwise than the ordinary surplus would indicate.	(*d*) Out of current income Rs. 66,000 were spent per year on an average during the last three years for original communication. If the loan is granted there would be no difficulty in repaying it out of this allotment, besides from the income from the toll on the bridge.

RESOLUTION—No. 754M.

Calcutta, the 28th January 1935.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

The mal-administration of the South Suburban Municipality (in the district of the 24-Parganas), particularly in respect of the Collection Department, has been under the notice of Government for some time past. In the year 1933-34 a case of embezzlement by a tax collector during the previous year was brought to light. On detailed scrutiny by the auditors the amount embezzled was found to be Rs. 9,789. The defalcation appears to have gone on during 1932-33, and up to the middle of January 1934, and it appears that this was rendered possible by inadequate supervision and by non-observance of the Municipal Account Rules regarding collection on the part of those in charge of the Collection Department. Contrary to the usual practice prevailing in other municipalities in the province, the Collection Department of the municipality was not placed in charge of the Vice-Chairman, nor were any powers delegated to the Vice-Chairman, under section 52 of the Bengal Municipal Act, although the Municipal Account Rules require that some powers should be exercised by the Vice-Chairman for the proper supervision of the Collection Department. In fact the Chairman of the South Suburban Municipality chose to keep all powers to himself, with the result that important checks and verifications provided by the rules were neglected, and this greatly facilitated the defalcation referred to above.

2. The Audit Report for the year 1933-34 estimates the unrealised taxes at Rs. 61,845. The statement below* shows the percentage of current collections in the municipality during the last six years. It will be observed that the rate of collection has been falling below the standard of 95 per cent., fixed by Government, since the year 1931-32, when the present body of Municipal Commissioners came to office. No effective measures appear to have been taken to collect arrears of taxes. It is reported that as many as 637 warrants, issued during the years 1932-33 and 1933-34, were not executed at all and there was no order of the municipal executive either for the cancellation of these warrants or for further action regarding them. The Audit Report also mentions that out of 381 warrants issued during the year 1933-34 only 146 were executed, and no orders for remission could be pointed out in cases where the warrant fees were not realised. The Audit Report further reveals that very little control is exercised by the municipal executive over the proper maintenance of the stock account of the receipt books issued to the tax collectors—

*1928-29	.. 97·3	per cent.
1929-30	.. 97·2	,,
1930-31	.. 95·4	,,
1931-32	.. 80·2	,,
1932-33	.. 77·5	,,
1933-34	.. 77·5	,,

As a result of the poor collection of taxes, the financial condition of the municipality has become precarious. The actual cash position of the municipal fund at the end of the year 1933-34 was one of deficit to the extent of Rs. 17,887 as shown below:—

		Rs.
Cash-book balance	..	16,189
Unpaid bills	..	23,064
Refundable deposits and balances of subsidiary funds and unspent contributions	..	11,012
Real cash-book balance	..	17,887

The amount of unpaid bills rose from Rs. 8,161 to Rs. 23,064 during the three years ending 1933-34. In August 1934 the Subdivisional Officer of Alipore made a personal enquiry into the affairs of the municipality and his report revealed various irregularities and abuses of power in the administration of the municipality, particularly in respect of the Collection Department.

3. In view of the above state of affairs, Government called upon the Municipal Commissioners under section 550, sub-section (*1*) of the Bengal Municipal Act to show cause why steps should not be taken to appoint a suitable person to take charge of the Collection Department of the municipality. In reply, the Municipal Commissioners have stated that they have no objection to the action proposed to be taken by Government, and that they have no views to offer to the contrary.

The Government of Bengal (Ministry of Local Self-Government) have come to the conclusion that the Commissioners of the South Suburban Municipality have, in respect of the Collection Department of the municipality, abused their powers and persistently made default in the performance of duties imposed on them by the Municipal Act. In exercise of the power conferred by section 550, sub-section (*2*) of the Bengal Municipal Act, 1932, they accordingly direct that the Sadar Subdivisional Officer, 24-Parganas, will take charge of the above department for a period of one year with effect from the date of publication of this resolution in the *Calcutta Gazette*.

4. Ordered that this resolution be published in the *Calcutta Gazette*.

By order of the Govt. of Bengal
(Ministry of Local Self-Govt.),

The rules will come into force with effect from the 1st March 1935:—

Rules.

Add the following after Rule 46, Order XXI:—

46 (A).—The Court may in case of a debt, other than a debt secured by a mortgage or a charge or by a negotiable instrument, which has been attached under rule 46 or 51 of this order, upon the application of the attaching creditor, issue notice to the garnishee liable to pay such debt calling upon him either to pay into Court the debt due from him to the judgment-debtor or so much thereof as may be sufficient to satisfy the decree and costs of execution, or to appear and show cause why he should not do so.

Provided that if the debt in respect of which the application aforesaid is made is in respect of a sum of money beyond the pecuniary jurisdiction of the Court, the Court shall send the execution case to the Court of the District Judge to which the said Court is subordinate, and thereupon the Court of the District Judge or any other competent Court to which it may be transferred by the District Judge will deal with it in the same manner as if the case had been originally instituted in that Court.

Such application shall be made on affidavit verifying the facts alleged and stating that in the belief of the deponent the garnishee is indebted to the judgment-debtor.

46 (B).—Where the garnishee does not forthwith pay into Court the amount due from him to the judgment-debtor or so much thereof as is sufficient to satisfy the decree and the costs of execution or does not appear and show cause in answer to the notice, the Court may order the garnishee to comply with the terms of such notice, and on such order execution may issue as though such order were a decree against him.

46 (C).—Where the garnishee disputes liability, the Court may order that any issue or question necessary for the determination of liability shall be tried as if it were an issue in a suit, and upon the determination of such issue shall make such order or orders upon the parties as may seem just.

46 (D).—Where it is suggested or appears to be probable that the debt belongs to some third person or that any third person has a lien or charge on, or other interest in, such debt, the Court may order such third person to appear and state the nature and particulars of his claim (if any) to such debt and prove the same.

46 (E).—After hearing such third person and any other person or persons who may subsequently be ordered to appear, or where such third or other person or persons do not appear when so ordered, the Court may make such order as is hereinbefore provided, or such other order or orders upon such terms, if any, with respect to the lien, charge or interest if any of such third or other person as may seem fit and proper.

46 (F).—Payment made by the garnishee on a notice under rule 46 (A) or under any such order as aforesaid shall be valid discharge to him as against the judgment-debtor and any other person ordered to appear as aforesaid for the amount paid or levied although such judgment may be set aside or reversed.

46 (G).—The costs of any application made under rule 46 (A) and of any proceeding arising therefrom or incidental thereto, shall be in the discretion of the Court.

46 (H).—An order made under rules 46 (B), 46 (C) or 46 (E) shall be appealable as a decree.

PART IV

Bills introduced in the Bengal Legislative Council, Reports of Select Committees presented or to be presented to that Council, and Bills published before introduction in that Council.

BENGAL LEGISLATIVE COUNCIL DEPARTMENT.

NOTIFICATION.

No. 728L.C.—5th February, 1935.—The following report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1934, with the Bill as amended by the Committee, is hereby published for general information.

Report of the Select Committee on the Bengal Village Self-Government (Amendment) Bill, 1935.

We, the members of the Select Committee of the Bengal Legislative Council to which the Bengal Village Self-Government (Amendment) Bill, 1934, was referred by a motion carried in the Bengal Legislative Council on the 18th December, 1934, have the honour to submit this our report with the Bill embodying amendments recommended by us annexed. All matter recommended to be omitted by the Select Committee has been printed in italics and enclosed in square brackets and all new matter recommended to be inserted has been underlined.

2. The Bill was published in English in the *Extraordinary Calcutta Gazette* of the 6th December, 1934.

3. We do not consider that the Bill has been so altered by our recommendations as to require republication.

4. The Committee met for the first time on the 14th January, 1935, and concluded its sitting on the 17th January, 1935.

5. The more important changes made in the Bill are as follow :—

Clause 3, sub-clause (4).—We think it desirable to widen the franchise in the proposed section 7(*1*) (*iv*) as far as possible and have, therefore, recommended that those persons who have passed the Junior Madrassah or the Middle English or Middle Vernacular Examinations shall be entitled to vote.

Sub-clause (5).—We have retained the latter part of the existing Explanation to section 7(*2*) as being necessary.

We have also modified the new Explanation proposed by the Bill in order to make it less drastic and more practicable to work.

Clause 5.—We have made a necessary addition in proposed section 10A(*b*) to extend the disqualification for membership to persons who have been directed to execute a bond under section 110 of the Criminal Procedure Code, 1898.

In the proviso to proposed section 10A(*b*) we have substituted "District Magistrate" for "Commissioner" as we consider the former the proper authority for removing a disqualification under proposed section 10A(*b*).

Clause 6.—We have inserted a proviso in section 11 to provide that the former President shall continue till a new President is elected or appointed as the case may be, as this matter has given rise to difficulty in the past.

Clause 7.—We have supplied an obvious omission in section 17(*2*).

Clause 8, proposed section 17B.—We think it desirable that parties should be given the opportunity of being heard and of furnishing evidence in regard to election disputes referred to the District Magistrate and we have also provided a power of revision by the Commissioner of the orders of the District Magistrate.

Clause 9.—We have included "cattle disease" in proposed section 23(*1*)-(*viia*). This follows a suggestion of the Veterinary Department which we accept.

Clause 10.—The amendment proposed in section 26 (*4c*) is of a purely drafting character.

Clause 11.—We have made it clear in proposed section 26A that it is the duty of the union board, as a whole, and not specifically of the President, to report the outbreak of epidemic diseases to the health authorities.

We have added "cattle disease" to the proposed section and have also provided that outbreaks of the latter should be reported to the local veterinary authority. This is another suggestion of the Veterinary Department which we accept.

In proposed section 26B we have suggested that the approval for the grant of rewards should be that of the Chairman of the district board and not of the "District Magistrate" as the rewards are to be paid from union board funds.

Clause 14.—The majority of us think that it would be sufficient if the union boards' help, towards agricultural and technical teaching, is restricted to the grant of stipends to students only.

Clause 17.—The emendation made in proposed section 34(*4*) supplies an obvious omission.

Clauses 20 and 21.—The emendations made in sections 37, first paragraph, and 38(*1*) are important and are intended to make it clear—

(*1*) that if the owner or occupier is the same person he should not be taxed twice over, and

(*2*) that the assessment under section 38 should be solely in regard to the circumstances and property of the assessee within the union itself and not in regard to his circumstances outside the union.

We have omitted proposed section 38(*3*) as unnecessary.

Clause 25.—We have proposed an amendment to new section 55A to make the matter more specific.

Clauses 27 and 28.—The additions suggested by us are in the nature of safeguards.

Clause 30.—We have suggested a re-draft of proposed section 72A so as to provide that an offender may be released after due admonition.

We have also made a slight emendation in proposed section 72B as being necessary.

Clause 32.—We have, by a majority, recommended the omission of the proposed section 74A as we do not consider that the time is ripe for the grant of these powers even to selected union courts.

Clause 33.—We have recommended the omission of the proposed "Explanation" to section 81 and have proposed an emendation in the section itself to make it clear as to the latest time when the applicant should notify the court that he has applied or intends to apply for the transfer of the suit.

The other changes are consequential.

Clause 34, proposed section 90(1).—The words "an additional fee" are liable to misconstruction. We have omitted them to make the intention more clear.

The other changes are of a consequential character owing to the deletion of proposed section 74A.

Clause 36.—We have extended the disability contained in this clause, which was restricted to cases in which a member of the union board is interested, to cases in which the union board itself is interested.

Clause 37.—We have recommended certain important amendments in proposed section 100D by which—

(*1*) the order of removal by the Commissioner of a member of a union board or a union court shall be subject to the approval of the Local Government;

(*2*) the member against whom such an order is pending shall be given an opportunity of being heard in his defence.

The language generally follows that of section 62(*3*) of the Bengal Municipal Act, 1932.

New clause 39.—We have suggested an emendation in Schedule IV of the Act to provide that union benches shall not have jurisdiction over offences provided by the Act as we consider this desirable.

We recommend that the Bill, as reported on by us, be passed.

The official members or the Committee desire to make it clear that as the changes made in clauses 8, 28, 30, 33 and 36 require the previous sanction of the Governor General, they are unable to accept responsibility for them in the absence of such sanction.

NOTE.—The signature of Rai Sahib Sarat Chandra Bal and Khan Bahadur Maulvi Emaduddin Ahmed had not been received up to the time of publishing the Report.

Joint minute of dissent by the Hon'ble Sir B. P. Singh Roy, Mr. G. S. Dutt and Rai Bahadur G. C. Sen.

Clause 32.—We consider that the Select Committee should not have omitted this clause, as the provisions in proposed section 74A relating to exclusive jurisdiction of union courts for the trial of specified classes of suits confer a privilege on the people and are intended to bring simple justice to the door of the villagers, and save them from expensive litigation. The provisions of the section are permissive in character and they do not apply automatically to all courts. Adequate safeguards have been provided. It is proposed therefore to move an amendment for reinsertion of the clause during the consideration of the Bill.

Minute of dissent by Mr. N. K. Basu, M.L.C.

Clause 6(2).—I think section 11 needs further amendment. What will happen if the old President is not a member of the new Board ?

In my opinion, the old Board, and not the President alone, should function till a new President came in.

Clause 8.—I cannot agree to the opening words of proposed section 17A: "No election of a member of a union board shall be called in question in any court, and ".

I have never been able to reconcile myself to the ousting of Judicial authority.

Clause 25.— The same remark as noted under clause 6(*2*) applies to the proviso here.

Clause 28.—I very strongly object to this clause. The time is not yet ripe for this sort of legislation. It will lead to corruption, injustice and denial of justice.

The reasons for omitting clause 32 apply with much greater force here.

Clause 33. The words should be "any evidence *is* taken in " and "not any evidence taken in ".

Minute of dissent by Babu Satish Chandra Ray Chowdhury, M.L.C.

I sign the Report subject to the following minute of dissent :—

Clause 8 (proposed section 17B).—I think the jurisdiction of the civil courts should not be ousted especially on questions of law, but to cut down frivolous disputes some sort of penal clause may be added.

Clause 28.—The reasons which led the Select Committee to omit clause 32 of the Bill should have also led them to omit clause 28 which proposes to give selected union benches exclusive jurisdiction. In fact, the reasons apply with even greater force to the latter, because civil claims are generally backed by documents of some kind or other and the loss involved in case of failure of justice is of money only ; but in criminal trials, a failure of justice—involved in wrong convictions—has very far-reaching consequences. The man convicted looses his character in the eyes of the public and looses his self-respect too ; and whenever he has to turn up thereafter in courts he is at a tremendous disadvantage. The chances of wrongful convictions and wrongful acquittals are also very great as most of our villages are torn by factions and parties given rise to often by ludicrously slight causes which it is difficult to establish legally before a Magistrate, the safeguards added therefore being quite illusory. Then some of the sections relating to which exclusive jurisdiction is proposed to be given involves very delicate questions of law, *e.g.*, what amounts to grave and sudden provocation. It is difficult to expect right decision in many cases especially when lawyers are excluded. The healthy checks on vagaries of Courts and Magistrates provided by our Codes, such as full recording of evidence, testing of the same by cross-examination by lawyers, appeals on facts and law, are all absent in the case of union courts and benches. Many therefore not unreasonably think that this drastic clause will result in installing undiluted autocracy and establishing Star Chambers in many of our villages making it difficult for decent people to lead a decent life therein. It may be that in some cases union courts and benches have acquitted themselves well ; but if confidential information is gathered from district and subdivisional officials such cases will be found to be few and far between, whereas instances of gross failures will be found to be too pathetic and too many. Past experience in similar matters shows that selection of union benches for investing them with exclusive jurisdiction cannot always be wise and unerring for obvious reasons. It is contended that such increased powers will bring more revenue to the union boards. The simple answer is that no such mercinary considerations should be allowed to affect or jeopardise the purity of the administration of justice. I might go even further and say that these self-governing institutions should have no direct connection with the administration of justice. Our municipalities and district boards have no less public utility because they do not exercise judicial functions. Lastly, all parts of the country are not equally advanced in education and outlook. We should therefore be content to wait instead of rushing into an unchartered sea.

Minute of dissent by Haji Badi Ahmed Chowdhury, M. L. C.

Bill clause 32.—I do not agree to the omission of this clause.

Minute of dissent by Rai Bahadur Satish Chandra Mukherji, M. L. C.

I enjoin the following minute of dissent, namely :—

Clause 3 (4).—In my opinion with the drastic change in proposed section 7(*1*) (*iv*) the retention of the proviso limiting membership of a joint undivided family to one person is illogical and the proviso should be omitted.

Clauses 12 and 13.—In sub-section (*3*) of section 27 and in sub-section (*4*) of section 28 I want to add the following words, namely :—

" Or within such further time as may be allowed by the appellate authority."

Clause 20(1).—In section 37 I want to add the word " permanent " between the words " owners " and " occupiers."

Clause 21.—In section 38 I want to keep the following words, namely :—

" circumstances and the property held within the union." This will remove the controversy whether money earned outside but spent inside the union is taxable. In my opinion the proposed amendment by the Select Committee does not dispose of this controversy.

Clause 28.—I want to omit proposed section 66A like proposed section 74A. There is no sufficient reason to discriminate between the two sections. Secondly, I am not in favour of the addition of the last few lines to the proviso of the proposed section as it unnecessarily restricts the exercise of the discretion of the officers mentioned therein.

Minute of dissent by Rai Bahadur Keshab Chandra Banerji, M. L. C.

Clause 3, sub-clauses (1), (2) and (3).—The electorate is proposed to be widened in two ways, *viz.*, (*i*) by lowering the minimum franchise qualifications, and (*ii*) by including educational qualifications. I am entirely at one with the Committee so far as the latter is concerned. But I regret to have to differ from the majority in regard to the provisions for the lowering of the franchise qualifications to eight annas as cess and six annas as union rate as originally proposed in the Bill. The franchise is a sacred trust and it must be exercised with due caution and with a full sense of responsibility. The arguments against adult franchise in India apply here too. If the voters have no education, they cannot be expected to record their votes with due care and consideration. I am, therefore, of opinion that the time is not yet ripe when anybody who pays union rate should have the right to vote at a union board election. I think we should wait until the Bengal (Rural) Primary Education Act, 1930, has been in operation for some years in Bengal and the masses have been sufficiently educated so that they may appreciate the value of franchise, the sacred trust reposed in them.

Clauses 28 and 32.—The proposal in the original Bill to confer " exclusive jurisdiction " upon certain selected union benches and courts in regard to any or all classes of suits or cases triable by them does not appear to be at all desirable.

I entirely agree with the majority that the time has not come for the grant of such powers even to selected union courts.

For the same reasons, I do not agree that the same privilege should be extended to selected union benches also. The arguments against the grant of such power to union courts apply with equal force, if not greater, to union benches as well. The safeguards suggested by the Select Committee are not adequate. I am in favour of entirely omitting proposed sections 66A, 72A and 72B along with proposed section 74A.

The union benches have been enjoying concurrent jurisdiction for some time. Has the experiment been perfectly satisfactory ? Has there been no miscarriage of justice ? Have not the District Magistrates in some cases found it necessary to withdraw the concession from a large number of union benches and courts ? The fact that Government have found it necessary to confer upon the Divisional Commissioners power to remove members of benches and courts has a tale to tell. I am very strongly of opinion that considering their past record, the union benches, not even a selected few, should be given the privilege of "exclusive jurisdiction" for offences triable by them. There are other cogent reasons for which I consider it inadvisable at present to invest the union benches with the power contemplated in the proposed sections referred to above.

I sign the report subject to the above minute of dissent.

Minute of dissent by Babu Khetter Mohan Ray, M.L.C.

Clause 14.—In proposed section 31A, clause (*a*) should not be omitted. The union board should have power to make such grants as mentioned in clause (*a*) for the propagation of agricultural education amongst the rural population. The principle is accepted by the Select Committee when they have approved clause (*b*).

Clause 28.—This clause should be omitted. To empower the union bench with exclusive jurisdiction to try certain offences is a dangerous experiment in the present state of development of the union boards in general. The criminal courts should not be ousted of its ordinary jurisdiction over this class of offences.

There are other points on which I do not agree with the majority, which I shall try to get rectified by way of amendments at the time of the second reading of the Bill in the Council.

GOVERNMENT OF BENGAL.

Revenue Department.

Cinchona.

CALCUTTA, THE 1ST FEBRUARY 1935.

RESOLUTION—No. 2024Cin.

Read—

The Seventy-second Annual Report of the Government Cinchona Plantations and Factory in Bengal for the year 1933-34.

Read also—

The reports of the previous three years. Mr. C. C. Calder held charge of the office of Superintendent throughout the year.

2. Of the accumulated stock of crude quinine sulphate which Government are endeavouring to reduce, only a sample of 115 lbs. was sold to Messrs. Smith Stanistreet and Company during the year under report. The balance of the stock of this drug on 31st March 1934 stood at 126,962·29 lbs. Of the accumulated stock of bark 230,400 lbs. were sold to the Government of Madras and 800 lbs. to others during the year, and the closing balance on 31st March 1934 was 1,291,485 lbs. By these sales a reduction of the surplus stock of bark by over two lakhs of pounds was effected. The total quantity of cinchona products manufactured during the year was 65,614 lbs. and the total quantity sold was 61,800 lbs. Sales of manufactured products were, therefore, less than production by 3,814 lbs. Steps are now being taken to restrict the bark harvests to prevent the further accumulation of stocks.

3. The total area under cinchona at the end of the year was 2,686 acres. Extensions amounting to 132·5 acres were carried out during the year under review in the Munsong Plantation only.

4. The Mungpoo Plantation is relatively free of disease and it continues to be in a thriving condition, thus making good the losses caused by disease in Munsong. In the latter plantation disease seems to have caused serious damage, and attempts to eradicate it have not yet met with success. The work of investigation into the disease has been in progress at Pusa, Toklai, Delhi and Edinburgh and during the year, Munsong was visited by Miss Burt of the Lady Hardinge Medical College, Delhi, with a view to obtaining further specimens to work on. In Munsong all the bark harvested came from dead and dying trees with the exception of a small area of 4 acres coppiced in the Sangseer division. A fire broke out during the year at the bottom of this plantation alongside the Sikkim-Bengal boundary, but it was prevented from spreading to areas containing cinchona. The cause of the fire is unknown.

5. The quantity of Bengal bark harvested in the year of report was 1,131,960 lbs. against 1,445,762 lbs. in the previous year.

6. Altogether 1,436,796 lbs. of dried bark were treated in the factory during the year—the largest quantity on record. Of this 1,268,365·5 lbs. were Bengal bark and the rest belonged to the Government of India.

7. In recent years all the quinine has been extracted in the crude or semi-purified form and thus stocked. The total quantity of quinine sulphate manufactured during the year was 51,094 lbs., of which 5,366 lbs. belonged to the Government of India. The cost of manufacture from the bark amounted to Rs. 2·721 per lb. The total quantity of cinchona febrifuge manufactured during the year was 28,523 lbs., of which 3,394 lbs. represents the share of the Government of India. The manufacturing cost of the febrifuge was Rs. 1·820 per lb. As in

previous years the demand for cinchona febrifuge exceeded the supply. The deficiency was met in part by taking 5,054 lbs. from Government of India stocks, but these are now running low, and will no longer be available for the Bengal area of distribution.

8. The gross receipts were Rs. 9,73,244-5, and after deducting Rs. 45,486 due to the Government of India on account of the sale of that Government's febrifuge powder, Rs. 47,412-12 due to the Jail Department for distribution work, and Rs. 5,293 on account of sales outstanding, the net receipts amounted to Rs. 8,75,052-9. The total expenditure of the department including pensionary charges was Rs. 4,33,168-13. The receipts and expenditure were higher by Rs. 2,37,773-9 and Rs. 37,796-11, respectively, than in the previous year. The profit on the year's working according to the profit valuation account amounted to Rs. 4,01,722-4, as compared with Rs. 4,38,238-3 in 1932-33, which would seem to indicate that the financial result of the year's working was not so satisfactory as in the previous year. Actually, however, the reverse is the case. In 1932-33 sales increased by approximately 2½ lakhs of rupees and net receipts (excess of actual money receipts over actual money expenditure) by about Rs. 2 lakhs. The accumulation of stocks has also been checked. Whereas in 1932-33 the value of the stocks held rose by approximately 3½ lakhs of rupees, the corresponding rise in 1933-34 was only about Rs. 8,000—a very satisfactory result, which however, was due to special causes, notably the heavy sale of bark to the Government of Madras, and the larger amount purchased by Government itself for free distribution.

9. Government are satisfied from the report that the Bengal Cinchona Department has been efficiently managed during the year under review. The thanks of Government are due to Mr. Calder, the Superintendent of Cinchona Cultivation, to Mr. S. C. Sen, the Quinologist, and to the other officers of the department for the good work done by them.

Order—Ordered that this resolution be published in the *Calcutta Gazette* and that a copy with a copy of the report be submitted to the Government of India.

RESOLUTION—No. 831M.

Resolution under section 7 (2) of the Garden Reach Municipality Act, 1932.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read—

The Report of the Garden Reach Committee.

In order to provide for the exclusion of the "Garden Reach area" from the limits of the Corporation of Calcutta and to constitute the area as a municipality under the Bengal Municipal Act, 1884 (re-enacted by Bengal Act XV of 1932), the Garden Reach Municipality Act, 1932 (Ben. Act III of 1932) was passed by the Bengal Legislative Council in February 1932, and was published in the *Calcutta Gazette* of the 7th April 1932, for general information. Under section 3 of this Act, a Committee was appointed by Government to report on all matters incidental to the exclusion of the area from the limits of the Corporation and its constitution as a municipality under the Bengal Municipal Act. The Committee submitted its report on the 28th April 1933 and it was published at pages 738-793 of the supplement to the *Calcutta Gazette* of the 29th June 1933. In pursuance of section 7 (2) of the Garden Reach Municipality Act, Government invited the views of the Corporation on such of the recommendations of the Committee as mainly concerned them. The opinion of the Corporation was not received by Government till February 1934. An informal conference was held on the 23rd August 1934, with the representatives of the Corporation and of the Garden Reach area, to discuss some of the recommendations of the Committee. It was at first proposed to start the new Garden Reach Municipality from the 1st October 1934; but in view of certain practical difficulties in constituting the new municipality in the middle of a financial year, Government decided that the municipality should begin to function with effect from the 1st April 1935.

2. The Committee's recommendations have been carefully considered by Government along with the views expressed by the Corporation, and the Government of Bengal (Ministry of Local Self-Government) are pleased to pass the following orders, under section 7 (2) of the Garden Reach Municipality Act, on the various points raised in the Committee's report:—

(1) **Boundaries.**—The Committee has noticed certain minor discrepancies between the definition of the "Garden Reach area" in section 2 (1) of the Act and the Schedule to the Act which amends the boundaries

of the Calcutta Municipality as defined in Schedule I of the Calcutta Municipal Act, 1923. It has accordingly proposed certain alterations of the eastern boundary of the Garden Reach Municipality so as to include certain areas in, and exclude certain other areas from, the "Garden Reach area" as definied in the Act. The Committee has also suggested that the southern boundary of the Garden Reach Municipality should be notified as the northern boundaries of the mouzas Akra, Jaganathnagar, Panchur, Makhalhati and Ramdashhati as determined during the last survey and settlement operations in the district of 24-Parganas and that these alterations might be adopted by Government under section 20 of the Act.

Government have taken legal opinion and are advised that section 20 of the Garden Reach Municipality Act can be invoked only if any practical difficulty arises in carrying out the provisions of the Act. As there is no difficulty in adopting the eastern boundary of the Garden Reach Municipality as defined in the Act, Government have decided not to accept the Committee's recommendations in regard to this boundary. In view, however, of the practical difficulties, mentioned by the Committee, in adopting the statutory southern boundary of the old Garden Reach Municipality, Government are pleased to direct, under section 20 of the Act, that the southern boundary of the municipality shall be as recommended by the Committee.

(2) **Division of the municipality into wards and the number of Commissioners.**—The Committee has recommended that the new municipality be divided into five wards for general electorate constituencies and one industrial constituency and that the number of Municipal Commissioners be fixed at twenty, five of whom should be appointed by the Local Government and ten and five should be elected from the general electorate and industrial constituencies respectively. If, however, it is found impossible to constitute an industrial constituency under section 18 (1) of the Bengal Municipal Act, 1932, the Committee recommends that the number of appointed Commissioners should be increased to ten, of whom five should represent the industrial concerns and two of the remaining five should represent labour.

Government accept the Committee's recommendation that the number of Commissioners should be twenty. The first Commissioners of the municipality will be appointed by Government under section 9 of the Act and shall hold office for 2 years. As regards the other recommendations of the Committee mentioned above, these will be taken into consideration by Government when passing orders under section 10 of the Act in respect of the division of the municipality into wards, the number of Commissioners to be elected from each ward and other matters.

(3) **Adjustment of finances and loans.**—The Committee has divided this subject into two parts, viz.—

(*i*) liability of the Garden Reach Municipality for loans and contracts in respect of the Moore-Bateman Water-supply scheme, and

(*ii*) liability of the Calcutta Corporation under section 90 of the Calcutta Municipal Act, 1923.

With regard to (*i*) the Committee observes as follows:—

"The total expenditure on the Moore-Bateman scheme up to 30th November 1932, came to Rs. 2,47,01,303 inclusive of the cost of laying

the Garden Reach main, *i.e.*, Rs. 6,76,283. The Corporation claim that the share which should be apportioned to the Garden Reach Municipality amounts to Rs. 20⅞ lakhs (Appendix B). * * * *"

The sum of Rs. 20⅞ lakhs is made up of the following items:—

	Rs.
(*a*) Enlargement of plant and machinery of the Pulta and Talla pumping stations and provision of an enlarged main to carry the increased supply of water from Pulta to Talla	9,82,373
(*b*) Provision of a wider zone main for District No. IV so as to enable a larger quantity of water to be carried to this district and thus made available for Garden Reach	3,09,631
(*c*) Provision of a sub-zone main for Garden Reach	6,76,283

The Committee is of opinion that the Garden Reach Municipality should not bear any liability for those portions of the Moore-Bateman scheme which are not exclusively for its benefit and can be put to good use by the Calcutta Corporation for the benefit of other areas, and its conclusions are as follows:—

Item (*a*).—No portion of the expenditure under this item should be apportioned to the Garden Reach Municipality because—

(*i*) the framers of the Moore-Bateman scheme overestimated the increase in the population of the Garden Reach area which was likely to occur between 1921 and 1941, and underestimated the probable increase in the population of Calcutta, with the result that the increased water-supply made available by the revised scheme will not be used in Garden Reach but will be required in Calcutta proper; and

(*ii*) the overestimate of the population of Garden Reach has saved the Corporation from the necessity of framing a fresh scheme of water-supply for wards 21, 22 and 27 (Ballygunge, Bhowanipore and Tollygunge which have been extensively developed by the Calcutta Improvement Trust), and it is therefore unfair to saddle Garden Reach with expenditure which is unnecessary for the needs of Garden Reach but is immediately required for the needs of Calcutta.

Item (*b*).—No part of the expenditure under this item also can properly be allocated to Garden Reach as, in the opinion of the Committee, the population of District No. IV in 1941 was similarly underestimated in the Moore-Bateman scheme and the increased water-supply made available through the wider mains is for all practical purposes necessary for the increased population in District IV and the Dock area of Garden Reach (without Garden Reach itself).

Regarding *item* (*c*) the Committee observes as follows:—

"We consider that the difference between the cost of the 42" main from Sterndale Road to the junction of Garden Reach Road and Circular Garden Reach Road and the cost of the main of 24" dimensions which it is claimed would have been sufficient for the Dock area should be the liability to be assigned to the Garden Reach Municipality. According to the evidence of the Waterworks Constructional Engineer of the Calcutta Corporation, the cost of construction of a 24" main to Hide

Road would amount roughly to about Rs. 2 lakhs while the actual expenditure on the 42" main will amount to Rs. 7,71,000; the difference being Rs. 5,71,000.

"A separate line of enquiry leads us to approximately the same conclusion. The Waterworks Engineer also stated before us that one-third of the total supply of water available at the Garden Reach main will be required for the Dock area and two-thirds will be available for Garden Reach. On this basis, two-thirds of the expenditure on the Garden Reach main might be apportioned to Garden Reach and one-third to the Dock area, that is to say, to the Calcutta Corporation. Two-thirds of Rs. 7,71,000 amount to Rs. 5,14,000."

The Committee, therefore, recommends that Garden Reach should be made liable for a sum of about Rs. 5½ lakhs in respect of the Moore-Bateman scheme.

As regards (*ii*), viz., the Corporation's liability under section 90 of the Calcutta Municipal Act, 1923, from an examination of the annual accounts of the Corporation, the Committee has come to the conclusion that items of expenditure amounting to Rs. 2,75,039-9-3, shown in column 8(*a*) of Appendix D of their report, may fairly be adjusted against the sum of Rs. 6 lakhs which the Corporation is required to spend on "Original improvement works" within Garden Reach under this section.

The liability of the Garden Reach Municipality is calculated by the Committee (page 21 of the Committee's Report) in the following manner:—

	Rs.	a.	p.
(*i*) Liability of Garden Reach for loans and contracts in respect of the Moore-Bateman scheme ..	5,50,000	0	0
Add—Expenditure from loan account for tube wells ..	9,100	0	0
Liability of Garden Reach	5,59,100	0	0
(*ii*) Liability of the Calcutta Corporation under section 90, Calcutta Municipal Act, 1923	6,00,000	0	0
Less—Amount spent on "original improvement works" (Appendix D to the Committee's Report) ..	2,75,039	9	3
Liability of Calcutta	3,24,960	6	9

The nett liability of the Garden Reach Municipality, according to the Committee's calculations, comes to Rs. 2,34,139-9-3 or Rs. 2,34,000 in round figures.

After careful consideration of the points raised by the Committee Government have come to the following decisions in this matter:—

(*i*) *Liability of the Garden Reach Municipality for loans and contracts in respect of the Moore-Bateman scheme.*

(*a*) *Enlargement of plant and machinery at Palta and Talla and provision of an enlarged main from Palta to Talla (Rs. 9,82,373).*—It will be seen from the figures given in Appendix A to this resolution that the increased water-supply made available by the Moore-Bateman scheme would be just sufficient in 1941 to meet the needs of Calcutta proper, Maniktolla, Cossipore-Chitpur and the Dock area of Garden

Reach. As the distribution system has not been completed in the Garden Reach area, Garden Reach has not so far benefited from the Moore-Bateman scheme to any appreciable extent. Government have, therefore, decided that no part of the cost under this head should be borne by the new Garden Reach Municipality.

(*b*) *Provision of a wider zone main for District No. IV* (*Rs. 3,09,631*).—Government do not consider that the arguments advanced by the Committee in support of its recommendation that Garden Reach should not bear any liability for the cost under this head are convincing, as the figures of population on which these arguments are based have been found on scrutiny to be not quite correct. It appears from the report of the Moore-Bateman scheme and from the figures given in Appendix B of the Committee's report that District No. IV zone mains were meant to supply the needs of the estimated population of wards 21 to 25 of Calcutta proper and the municipalities of Garden Reach, South Suburban and Tollygunge in 1941.

This estimate was based on the census figures of 1911 and on the figures of population for the years 1921, 1931 and 1941, as calculated on the assumption that there would be an increase of 16·7 per cent. in each decade, the increase during the decade from 1911 to 1921 being 16·7 per cent. On this assumption the population of wards 21 to 25 in 1941 was estimated to be 285,000. According to the census figures of 1921 and 1931, however, the actual population of these wards, as shown below, increased from 196,315 in 1921 to 242,218 in 1931, showing an increase of 23·3 per cent.:—

Name of ward.	Population. 1921.	1931.
Ballygunge 21	50,854*	30,999
Bhowanipore 22	57,378	79,684
Aliporo 23	22,184	30,020
Ekbalpur 24	31,420	32,822
Watganj 25 (including Hastings)	34,479	32,463
Tollygunge 27	..	40,730
	196,315	246,718
Deduct—For Hastings		4,500
		242,218

*Including Tollygunge ward.

If this rate of increase is maintained during the next decade, there is likely to be an increase of nearly 56,000 over the population of 1931; that is to say, the population of these wards would be 298,000 in place of 285,000 as taken in the Moore-Bateman scheme. It would not, therefore, be quite correct to hold that the population of the area to be served by the District No. IV zone mains in 1941 was materially underestimated in the Moore-Bateman scheme and Government do not accept the Committee's recommendation that no portion of the cost of these mains should be debited to Garden Reach. As, however, about one-third of the total supply of water made available for Garden Reach by the District IV mains will be required for the Dock area, which will remain within Calcutta, Government have come to the conclusion that the Garden Reach Municipality should not be made liable for more than two-thirds of the amount of Rs. 3,09,631, or, in other words, the municipality should pay to the Calcutta Corporation a sum of *Rs. 2,06,000* in round figures under this head.

(*c*) *Provision of the sub-zone main for Garden Reach.*—For the reasons given by the Committee in regard to this item, Government have come to the conclusion that not more than *Rs. 5·71 lakhs* is debitable to the Garden Reach Municipality under this head.

(*d*) *Supervision charges and Moore-Bateman's fees.*—A sum of Rs. 95,467 has been apportioned under these heads by the Corporation to the Garden Reach Municipality (*vide* items 8 and 9 of Appendix B to the Committee's report). Government have decided that a proportionate share of the cost under these heads should be debited to the Garden Reach Municipality and that this should bear the same proportion to Rs. 95,467 as the total liability of Garden Reach for the Moore-Bateman scheme, as now fixed by Government, viz., Rs. 7·77 lakhs, bears to the sum of Rs. 19,70,916, which was claimed by the Calcutta Corporation. On this principle, the amount of the liability of Garden Reach under this head comes to Rs. 37,636 or *Rs. 38,000* in round figures.

(*ii*) *Liability of the Corporation under section 90 of the Calcutta Municipal Act, 1923.*

From a statement furnished by the Corporation it appears that the Committee has left out certain items of expenditure amounting to Rs. 4,918-13-2 which, the Corporation considers, ought to be taken into account as expenditure on works of a permanent nature. Government accept this view of the Corporation. The total expenditure by the Corporation on "Original improvement works" in Garden Reach would thus come to Rs. 2,79,958-6-5. The nett liability of the Corporation under this head is therefore:—

Rs.	a.	p.
6,00,000	0	0
2,79,958	6	5
3,20,041	9	7

The resultant position may be stated in balance sheet form as follows :—

(*i*) Liability of Garden Reach for loans and contracts in respect of the Moore-Bateman scheme—

		Rs.	a.	p.
Provision of wider zone main in District No. IV ..		2,06,000	0	0
Garden Reach zone main		5,71,000	0	0
Supervision charges and Moore-Bateman's fees ..		38,000	0	0
		8,15,000	0	0
Add—Expenditure from loan account for tube wells ..		9,100	0	0
		8,24,100	0	0
(*ii*) Liability of the Calcutta Corporation under section 90 of the Calcutta Municipal Act, 1923 ..		6,00,000	0	0
Less—Amount spent on "Original improvement works"		2,79,958	6	5
		3,20,041	9	7
	(*a*)	8,24,100	0	0
	(*b*)	3,20,041	9	7
		5,04,058	6	5

The nett liability of the Garden Reach Municipality is, therefore, Rs. 5,04,058-6-5 or say Rs. 5,04,000 in round figures.

(4) **Method of payment of the liability of the Garden Reach Municipality.**—Government are pleased to direct that the amount of Rs. 5,04,000 payable by the Garden Reach Municipality shall be paid by means of equated annual payments spread over a period of 30 years, commencing from the fifth year of the constitution of the municipality.

The annual charges for the loans incurred by the Corporation in respect of the Moore-Bateman scheme are calculated at 7·5 per cent., namely, interest at 6 per cent. and sinking fund charges at 1·5 per cent. As recommended by the Committee, the annual payment to be made by the Garden Reach Municipality should be similarly calculated and the amount would thus be Rs. 42,674-4-11 per annum.

(5) **Arrangements for water-supply.**—Government have considered the recommendations of the Committee and the views of the Corporation on this subject and have come to the following decision :—

(*i*) The existing arrangements for the supply of filtered water in the Garden Reach area will be continued by the Corporation until the Garden Reach main is brought into operation.

(*ii*) As soon as the Garden Reach main is brought into use the Corporation will make over to the Commissioners of the Garden Reach Municipality all motor lorries, water-carts and other appliances for water-supply, bought for, or in service in, the Garden Reach area, with

the exception of the water-boat, which is now used for supplying water to certain public places and industrial concerns on the river side.

(iii) After the Garden Reach main has been laid, the Corporation shall supply filtered water to the Garden Reach Municipality, at the point where this main ends, at the rate of *4 as. per 1,000 gallons*, the maximum quantity of supply being 62·1 gallons per head per diem. This arrangement shall hold good for a period of six years from the date of constitution of the municipality.

(iv) *A Venturi meter* should be installed on the Garden Reach main, as quickly as possible, for calculating the supply of water and the unmetered supply shall be charged for on the basis of the average of the readings actually recorded when the meter is put in.

(6) **Liability for the sums advanced under section 5.**—Government accept the Committee's recommendation that the total cost incurred for the preparation of their report should be apportioned between the Corporation of Calcutta and the Garden Reach Municipality in equal shares. The half share debitable to the Garden Reach Municipality shall be adjusted against the first annual payment of Rs. 2½ lakhs to be made by the Corporation to the Garden Reach Municipality.

(7) **Provision of initial funds.**—Under section 90A of the Calcutta Municipal Act, 1923, as inserted by section 4 of the Schedule to the Garden Reach Municipality Act, the Corporation shall pay an annual contribution of Rs. 2½ lakhs to the Garden Reach Municipality with retrospective effect from the 1st April 1932. This means that at the beginning of the year 1935-36 the Garden Reach Municipality will have to its credit a sum of Rs. 7½ lakhs, of which half would be reserved for expenditure on new works of improvement in the municipality and the other half would be available for its normal activities. Government are pleased to direct that the entire amount payable by the Corporation to the Garden Reach Municipality for the three years ending the 31st March 1935 shall be paid immediately on the 1st of April 1935. As 50 per cent. of this sum would be available for ordinary expenditure of the new municipality, Government consider that no provision for further initial funds is necessary.

(8) **Revival of Acts and notifications.**—*(i)* *Licensed Warehouse and Fire Brigade Act.*—This Act applies to Calcutta and such portion of the suburbs as are subject to Bengal Act II of 1866 (Calcutta Suburban Police Act) and to any other municipality in the neighbourhood of Calcutta to which it is extended.

The police jurisdiction in Garden Reach is divided between the Calcutta Police (police-station Garden Reach) and the Bengal Police (police-station Metiabruz). For the portion of Garden Reach within the jurisdiction of the Calcutta Police, no notification under the Licensed Warehouse and Fire Brigade Act is necessary. But for the portion outside, where there are godowns, the services of the Fire Brigade are equally necessary and for that reason the Notification No. 797 M., dated the 11th April 1912, was published. The Committee recommends that a notification should be published extending the Act to the area notified previously and that the notification should also include certain additional areas including the South India Jute Mills within the purview of the Act.

Government accept the Committee's recommendation and the necessary notification will be issued when the report stating the boundaries of

the area proposed to be notified is received from the Commissioner of the Presidency Division.

Government also accept the suggestion made by the Corporation that the incidence of the Fire Brigade Contribution payable by it should be revised and split up into two percentages—one for Calcutta and the other for Garden Reach.

(*ii*) *The Calcutta Hackney Carriage Act.*—Under section 82, the fees realized under the Act are apportioned between the Corporation and the municipalities included in Calcutta under section 2 (*b*) of the Act. By Notifictaion No. 1098 Pl., dated the 25th April 1921, the Garden Reach Municipality was included in Calcutta for this purpose. To enable the new municipality to get its share of the fund, so much of the notification as relates to Garden Reach will be republished.

(*iii*) *Cattle Trespass Act.*—Under a general notification the Commissioners of municipalities under the Bengal Municipal Act were vested with the powers of the District Magistrate under section 31 (*a*) of the Cattle Trespass Act and authorised to receive the proceeds of cattle pounds. As Garden Reach will be a new municipality, it will automatically come under the Bengal Municipal Act and no fresh notification is required.

(*iv*) *Bengal Motor Vehicles Tax Act, 1932.*—Under section 10 (*1*) of the Act, a sum of Rs. 4½ lakhs from the proceeds of the motor vehicles tax is payable annually to the Calcutta Corporation. The Committee recommends that when Garden Reach is separated from Calcutta the section should be amended to enable Garden Reach to obtain a share of this sum of Rs. 4½ lakhs.

When Garden Reach is constituted as a separate municipality it will be entitled under section 11 of the Motor Vehicles Tax Act to receive grants from the proceeds of the motor vehicles tax like other municipalities, and Government do not consider that any reduction of the statutory contribution payable to the Calcutta Corporation is necessary.

(*v*) *Cart Registration Fees.*—Government accept the Committee's recommendation that a notification under section 185 of Calcutta Municipal Act should be published declaring the Garden Reach Municipality to be entitled to a share of the proceeds of the Cart Registration Fees.

(*vi*) *Extension of some of the provisions of the Calcutta Municipal Act, 1923, to certain wards of the Garden Reach Municipality.*—As the Garden Reach area has, for the last ten years, been controlled by the Calcutta Municipal Act, the Committee considers that no relaxation of the regulations regarding buildings, bustees and streets should be permitted at any rate in the urban areas of the Garden Reach Municipality. It, therefore, recommends that these provisions of the Calcutta Municipal Act (*i.e.*, Chapters XX, XXI, and XXII of the Act) be extended, under section 541 of the Act, to the proposed wards I, II, III and IV of the Garden Reach Municipality simultaneously with its constitution.

Government accept the Committee's recommendation, but effect cannot be given to it until the Municipal Commissioners have *divided* the municipality into wards for administrative purposes.

(9) **Staff.**—The Committee recommends that for a period not exceeding six months after the constitution of the new municipality the staff

at present employed in the Garden Reach area should be retained. This will enable the Municipal Commissioners to examine the working of the staff and formulate a policy regarding the activities with which they are connected.

The Committee recommends that the employees of the Corporation who are taken over by the Garden Reach Municipality should retain all the privileges regarding scales of pay, provident fund and gratuities which they enjoy at present under the Corporation; that the Garden Reach Municipality should decide, within a period of six months, as suggested above, whether the retention of each member of the staff is necessary or desirable, or not; that such staff as are not engaged by the new municipality should be retained by the Calcutta Corporation by absorption in other departments, whenever possible, and that any member of the existing staff not retained either by the Garden Reach Municipality or by the Calcutta Corporation should be compensated at the expense of the Corporation.

The Committee further recommends that the employees of the Corporation who may be discharged in consequence of the separation of Garden Reach should be allowed the same concessions as if they had been discharged by the Corporation in order to reduce establishment, with this added concession that for the purpose of payment of provident fund and gratuities there should be no minimum time limit of service. Under the present rules of the Corporation, no employee is entitled to employer's contribution to provident fund if he voluntarily leaves the service within five years or to gratuity unless he has served for at least 15 years. The Committee recommends that there should be no minimum qualifying period of service for these concessions and that the amount of gratuity so admissible, where service of less than 15 years has been put in, should be a fraction of the sum ordinarily admissible represented by the number of actual years served divided by fifteen. The Committee further recommends that in calculating actual years of service, the period of service under the former Garden Reach Municipality should be taken into account according to the Rules for Gratuity framed under section 73 (*b*) of the Calcutta Municipal Act.

Government accept all the above recommendations with the modification that the entire responsibility for the payment of compensation to each discharged employee, on the terms recommended by the Committee, shall rest on the Garden Reach Municipality, and that no liability shall attach to the Corporation for reabsorbing such members of the staff as are discharged by the Garden Reach Municipality on grounds of inefficiency or otherwise.

(10) **Apportionment of arrears due to the Corporation other than those on account of rates, taxes and fees.**—Government accept the Committee's recommendation that all such arrears should be received by the Corporation as in the case of arrears of taxes, rates and fees under section 15 of the Act.

(11) **Movable property.**—The Committee's recommendations are as follows:—

All registers, documents and account books which concern the Garden Reach area exclusively should be made over to the Garden

Reach Municipality. If any documents, books or registers concern other areas besides Garden Reach and copies have to be made, the cost of copying should be borne equally by the Calcutta Corporation and the Garden Reach Municipality. The copying of all such papers should be completed within six months of the constitution of the new municipality and in the meantime the employees of the Garden Reach Municipality should have free access to records with which the Garden Reach Municipality and the Corporation are jointly concerned.

All water lorries and carts, conservancy carts, etc., and all other movable property, plant, material, or furniture, employed in the area of the Garden Reach Municipality on the 1st January 1933, should be made over to the Garden Reach Municipality, when constituted, free of cost. Similarly, all schools, dispensaries, maternity centres, milk kitchens, etc., should be made over to the Garden Reach Municipality as going concerns and with the equipment in their possession on 1st January 1933.

The trenching ground and a portion of the Trenching Ground Road which will fall outside the area of the Garden Reach Municipality should vest in the Commissioners of that municipality.

Under section 12(*2*) of the Act, all immovable property in Garden Reach area and all interests of whatever nature therein vested in the Corporation of Calcutta shall vest in the Commissioners of the Garden Reach Municipality. The trenching ground of the old Garden Reach Municipality situated in mauza Alampur (J.L. No. 5 of police-station Metiabruz comprising plots Nos. 570-582 and 584) and the Trenching Ground Road in mauza Ramdashhati (J.L. No. 4 of police-station Metiabruz comprising plots Nos. 852 and 939) have been recorded in the name of the Corporation of Calcutta in the settlement records. The trenching ground and a portion of the Trenching Ground Road are outside the limit of both the Garden Reach Municipality and the Corporation of Calcutta, *i.e.*, in villages Alampur and Ramdashhati within a Union Board area. This cannot, therefore, properly be vested in the Commissioners of the Garden Reach Municipality under section 12(*2*) of the Act. The Committee, therefore, recommends that all rights and interests in the trenching ground and the road as described above should be vested in the Commissioners of the Garden Reach Municipality by an order under section 20 of the Act.

Government accept all the recommendations of the Committee mentioned above, except that as stated in paragraph 2(*5*)(*ii*) of this resolution, the motor lorries and other appliances for water-supply, except the water-boat will be made over to the Garden Reach Municipality after the Garden Reach main has been laid. Government are also pleased to direct, under section 20 of the Act, that all rights and interests in the trenching ground and the road shall vest in the Commissioners of the Garden Reach Municipality.

(12) **Budget for the year 1935-36 and other preliminary arrangements.**—Under section 20 of the Garden Reach Municipality Act, Government are pleased to direct that the Commissioners of the Garden Reach Municipality may at an informal meeting, held as soon as possible, after the publication of the notifications under sections 8 and 9 of the Act, prepare in detail estimates showing the probable receipts and expenditure during the year 1935-36 and the objects in respect

of which it is proposed to incur such expenditure; the Municipal Commissioners may also at the same meeting consider and make such preliminary arrangements, as may be necessary, for the collection of taxes, *e.g.*, by printing rate bills, etc., and for other matters relating to the working of the municipality. The estimates and other arrangements adopted at such meeting shall be sanctioned by the Commissioners as soon after the constitution of the municipality as possible.

Ordered that the above resolution be published in the *Calcutta Gazette*.

By order of the Government of Bengal
(Ministry of Local Self-Government),

G. S. DUTT,
Secretary to the Government of Bengal.

APPENDIX A.

(1) *Population of Garden Reach in 1941.*—In 1921, the population of Garden Reach was 45,567. The Moore-Bateman scheme anticipates a population of 78,000 in 1941 (70 per cent. increase). This figure is not likely to be reached, since the increase in 1931 (census) was only 20 per cent. (55,872). Under normal conditions the population of Garden Reach is likely to increase by another 20 per cent. to about 66,000 in 1941.

(2) *Population of Calcutta (excluding added areas) in 1941.*—The population of Calcutta proper increased from 908,000 to one million in 1931 (census). This gives an increase of about 92,000, *i.e.*, by 10 per cent. If this rate of increase is maintained during the next ten years, it is likely that the population of Calcutta would go up to about 1,100,000 in 1941, whereas the Moore-Bateman scheme assumes that Calcutta proper would have a population of only 1,047,000 in that year.

(3) A comparative statement of (*a*) the population of Calcutta and added areas in 1941 as given in the Moore-Bateman scheme and (*b*) that of Calcutta and added areas, excluding the new Garden Reach Municipality, based on the above calculations is given below:—

(*a*) Moore-Bateman scheme—

Calcutta Districts, I to IV	1,047,000
Manicktola	118,000
Cossipore-Chitpore	79,000
Garden Reach	78,000
Total	1,322,000

(*b*) Estimated—

Calcutta Districts, I to IV	1,100,000
Manicktola	118,000
Cossipore-Chitpore	79,000
Dock area and Port Commissioners' properties (*i.e.*, one-third of the population of Garden Reach in 1941) ..	22,000
Total ..	1,319,000

The Registrar shall also send, forthwith, intimation of any such refusal or removal to the body or bodies from whom the Practitioner received his qualification or qualifications, and shall request them not to admit him without previous reference to the Council to any examination for any new qualification, which is registrable in the Register of Registered Practitioners. [See Rule 29.]

NOTICE is hereby given that, under rule 28 in Schedule II to the Bengal Public Demands Recovery Act, 1913, an order has been passed by me for the sale of the property mentioned in the annexed schedule, in satisfaction of the claim of the certificate-holder under the certificate mentioned below amounting, with costs and interest up to date of sale, to the sum of Rs. 132-11-8—

Certificate No. 14M. of 1933-34, under which State Secretary is the certificate-holder and Sudhirendra Kumar Sannyal and another are the certificate-debtors.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the certificate-debtors abovenamed as mentioned in the schedule below.

In the absence of any order of postponement, the sale will be held by the undersigned at 12 o'clock on the 18th March 1935 at the Malda Certificate Court. In the event, however, of the debt above specified, and of the costs of the sale, being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorised agent. The following are the further conditions of sale :—

1. The particulars specified in the schedule below have been stated to the best of the information of the Certificate Officer; but the Certificate Officer will not be answerable for any error, misstatement or omission in this proclamation.
2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.
3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.
4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of rule 32 in Schedule II to the Bengal Public Demands Recovery Act, 1913.
5. In the case of movable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and re-sold.
6. In the case of immovable property, the persons declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and re-sold.
7. The full amount of the purchase-money shall be paid by the purchaser before the office of the Certificate Officer closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.
8. In default of payment of the balance of the pruchase-money within the period allowed the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Certificate Officer thinks fit, be forfeited to the Government, and the defaulting purchaser shall forfeit all claims to the property or to any part of the sum for which it may be subsequently sold.

THE BENGAL DEVELOPMENT BILL, 1935.

A

BILL

to provide for the development of lands in Bengal and to impose a levy in respect of increased profits resulting from improvement works constructed by the Government.

WHEREAS it is expedient with a view to the development of land in Bengal to impose a levy in respect of increased profits resulting from improvement works constructed by the Government and to provide further powers in regard to such works ;

AND WHEREAS the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act ; 5 & 6 Geo. V, c. 61. 6 & 7 Geo. V, c. 37, 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Bengal Development Act, 1935.

(*2*) It extends to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification, appoint.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "benefited area" means any area in respect of which a notification has been issued under sub-section (*2*) of section 5, and includes any part of such area ;

(*2*) "Collector" includes any officer specially appointed by the Local Government to perform the functions of a Collector under this Act ;

(*3*) "dead or decayed river" includes any river into which, or along any part of which, water has ceased to flow as freely as it would have flowed if it had not been diverted or obstructed whether owing to natural causes or as a result of interference by man, and includes also any depression which at one time formed part of a river-bed but in which there is no longer any flow of water ;

(*4*) "improvement work" means any work of improvement constructed by the Government which the Local Government has, by notification, declared to be an improvement work for the purposes of this Act ;

(*5*) "notification" means a notification published in the *Calcutta Gazette* ;

(*6*) "period for objection" means a period to be mentioned in a notification under section 3, sub-section (*2*) of section 6, sub-section (*1*) of section 7 or sub-section (*1*) of section 25 within which objections or suggestions will be considered by the Local Government ; and

(*7*) "prescribed" means prescribed by rules made under this Act.

The Bengal Development Bill, 1935.

(Clauses 3—6.)

Notification of intention to impose improvement levy.

3. Whenever the Local Government has constructed, or contemplates constructing, any improvement work which in the opinion of the Local Government has increased or is likely to increase the profit from the agricultural produce from any land or to increase the outturn of such produce, or the profits from any land not used for agricultural purposes, within any area, the Local Government may, by notification, declare its intention to impose an improvement levy within that area.

Publication of particulars.

4. A notification under section 3 shall state the following particulars—

(*a*) a brief description of the improvement work which has been, or is proposed to be, constructed ;

(*b*) the object for which such work has been, or is proposed to be, constructed ; and

(*c*) the boundaries of the area within which the Local Government intends to impose the improvement levy.

Abandonment of intention or declaration of decision to impose and imposition of improvement levy.

5. (*1*) After the expiry of a period of objection to be mentioned in a notification under section 3 the Local Government shall consider the objections and suggestions, if any, received by it and thereafter shall, by notification, declare its intention either wholly to refrain from imposing the improvement levy or to impose the same with or without modification, in the area concerned, and such declaration shall be final and shall not be questioned in any Court or in any other manner whatsoever.

(*2*) At any time after the issue of a notification under sub-section (*1*) declaring the intention of the Local Government to impose an improvement levy, the Local Government may, by notification—

(*a*) declare the area concerned to be a benefited area, whereupon such area shall, for the purpose of this Act, be deemed to be a benefited area, and the issue of a notification under this sub-section shall be conclusive proof that the work in question has benefited or will benefit that area ;

(*b*) impose the improvement levy in the area concerned from such date as may be specified in the notification ;

(*3*) The Local Government may, so far as may be in the manner hereinbefore provided, from time to time revise the boundaries of a benefited area so as to include or exclude any area to which, in the opinion of the Local Government, the benefits in question extend or do not extend, as the case may be.

Estimate of increased outturn of agricultural produce.

6. (*1*) From time to time an officer appointed by the Local Government shall, in accordance with rules made under this Act, prepare in relation to land throughout a benefited area an estimate of the average increase in the outturn of the agricultural produce from land of any class which, in his opinion, has been, or is likely to be, made possible by any improvement work, on the assumption that the land has produced and will produce the staple food crop notified under section 39 of the Bengal Tenancy Act, 1885, in respect of that land : Act VIII of 1885.

Provided that the Local Government may, at its discretion, direct that the estimate be made without such assumption.

(*2*) The Local Government shall, by notification, publish such estimate and after a period for objection to be specified in such notification shall consider the objections and suggestions, if any, received by it and shall, by notification, either wholly accept or reject the

The Bengal Development Bill, 1935.

(Clauses 7, 8.)

estimate or accept it with such modifications as may be specified in the notification, whereupon the accuracy of such estimate, as accepted, shall not be questioned in any Court or in any other manner whatsoever.

Fixing value for agricultural produce in benefited area.

7. (*1*) From time to time the Local Government may, by notification (hereinafter in this section referred to as the preliminary notification), publish a figure which it intends to fix, for such period not exceeding ten years as may be specified in the notification, for the value per acre of the outturn of the agricultural produce from land of any class in any benefited area for the purposes of this Act.

(*2*) After a period for objection to be mentioned in the preliminary notification the Local Government shall consider the objections and suggestions, if any, received by it and thereafter shall, by notification, fix, for a period not exceeding that specified in the preliminary notification, a figure, not exceeding that specified in the preliminary notification, for the value per acre of the outturn of the agricultural produce from land of any class in the area specified in the preliminary notification, whereupon the accuracy of such figure shall not be questioned in any Court or in any other manner whatsoever.

(*3*) When the increase in the outturn of the agricultural produce is estimated under sub-section (*1*) of section 6 on the assumption that the land produces the staple food-crop notified under section 39 of the Bengal Tenancy Act, 1885, the figure fixed under this section for the value of the outturn shall not exceed the sum of— Act VIII of 1885.

(*a*) the value of the grain calculated on the average, for the ten years immediately preceding the year in which the figure is fixed, of the prices published under sub-section (*4*) of section 39 of the Bengal Tenancy Act, 1885, for such staple crop, and

(*b*) the value of the straw calculated in such manner as may be prescribed.

Maximum limit and incidence of improvement levy on agricultural lands.

8. (*1*) Notwithstanding anything contained in any other Act the improvement levy shall, as regards agricultural lands within any benefited area, be imposed for such period at such rate (not exceeding one-half of the estimated increased profits, resulting from an improvement work or one-half of the net value of the estimated increase in outturn) as the Local Government may, by notification, from time to time declare, and shall be payable by the occupiers of such lands.

Explanation.—In this sub-section the expression "estimated increase in outturn" means the average increase in the outturn of agricultural produce as estimated under section 6.

(*2*) For the purposes of sub-section (*1*) the increased profits and the net value of the estimated increase in outturn shall be estimated, in accordance with rules made under this Act, on the figure fixed under section 7.

(*3*) The Local Government may, by rules made under this Act, declare what persons or classes of persons shall be deemed, for the purposes of sub-section (*1*), to be occupiers of land, and prescribe what proportion of the improvement levy different classes of occupiers shall, notwithstanding any contract to the contrary, be liable respectively to pay.

(*4*) Without prejudice to the generality of the power conferred by sub-section (*3*), the Local Government may under that sub-section declare that any person who, under the system generally known as "*adhi*," "*barga*" or "*bhag*," cultivates the land of another person on condition of delivering a share of the produce to that person or receiving a share thereof from him, shall be deemed to be an occupier.

The Bengal Development Bill, 1935.

(Clauses 9—11.)

(*5*) Any contract empowering an occupier to recover from another occupier any amount, or part of any amount, recovered or recoverable under section 16 shall, to that extent, be void.

Maximum limit and incidence of the improvement levy on non-agricultural land.

9. (*1*) Notwithstanding anything contained in any other Act, the improvement levy shall be imposed as regards land not used for agricultural purposes within any benefited area for such period and at such rate (not exceeding one-half of the net increased profits as ascertained or estimated under sub-section (*2*) which result from an improvement work in the profits from such land whether such profits be capital or recurring profits) as the Local Government may, by notification, from time to time declare and shall be payable by the persons who receive such profits.

(*2*) The Collector may from time to time, in accordance with rules made under this Act, exercise the following powers, namely :—

(*a*) he may decide whether any piece of land within a benefited area is to be deemed to be land not used for agricultural purposes ;

(*b*) he may decide what persons or classes of persons shall be deemed for the purposes of this section to be in receipt of profits from any land not used for agricultural purposes ;

(*c*) he may call upon any person who, in his opinion, is receiving or likely to receive profits in connection with such land, to submit to him within a specified period a written statement with such particulars as the Collector may specify relating to such profits ;

(*d*) if such a written statement is not submitted within the specified period or if the Collector is not satisfied that the profits received in connection with such land have been fully and correctly shown in such written statement, he may proceed to prepare an estimate of the increased profits which result from the improvement work ;

(*e*) he may permit any person to commute his liability for payment of the improvement levy in respect of any such land on such terms as may be settled by agreement, and thereafter no liability for payment of improvement levy shall attach to such land unless the profits from it are further increased by fresh improvement works.

Preparation and publication of statements of imposition of improvement levy.

10. The Collector shall from time to time prepare and publish in the prescribed form and manner a statement showing—

(*a*) the names of persons who are liable to pay the improvement levy in respect of any lands within a benefited area, and

(*b*) the amount of improvement levy to be imposed annually or otherwise in respect of such lands,

and may from time to time revise such statement in the prescribed manner.

Appeals regarding the improvement levy.

11. (*1*) Any person may appeal to the prescribed appellate authority—

(*a*) within thirty days of the date of any decision or order of the Collector under clause (*a*), clause (*b*) or clause (*d*) of sub-section (*2*) of section 9, if he is aggrieved by such decision or order, or

The Bengal Development Bill, 1935.

(*Clauses 12—16.*)

(*b*) within thirty days of the date of the publication of the statement under section 10 if he objects to the amount of improvement levy imposed on him under that section, on the ground that he has been wrongly shown in the statement as liable to pay the improvement levy or that the amount shown as payable by him is incorrect,

and the order of the appellate authority on any such appeal shall be final.

(*2*) In every appeal the costs shall be at the discretion of the appellate authority.

Other objections barred.

12. No objection shall be taken to the imposition of the improvement levy under this Act, nor shall the liability of any person to pay the same be questioned in any other manner than that provided in this Act. [*Cf.* U. P Act I of 1920, s. 22.]

Confirmation or modification of statement.

13. After forty days from the date of publication of the statement under section 10 the Collector shall confirm the statement in regard to all entries therein except those in respect of which appeals have been made under sub-section (*1*) of section 11 and after the disposal of each appeal he shall either confirm the relevant entries in the statement or make such modifications therein as may be necessitated by the decision of the appellate authority.

Each entry shall upon such confirmation or modification be presumed to be correct in every particular for the purposes of this Act.

Copies of entries in statement.

14. Copies of entries as originally made in the statement prepared under section 10, or as confirmed or modified under section 13, shall be made available to the persons to whom they relate in the prescribed manner on payment of the prescribed fee.

Power of Collector to grant abatement or remission of improvement levy.

15. Notwithstanding anything contained in this Act, the Collector may, subject to rules made by the Local Government, at any time grant abatement or remission of the improvement levy payable under this Act. [*Cf.* Bon. Act IX of 1880, s. 107 N.]

Recovery of improvement levy.

16. (*1*) Subject to the provisions of section 15, the Collector shall recover in the prescribed manner from the person concerned the amount of the improvement levy as confirmed or modified under section 13 together with any interest thereon due from him.

(*2*) If the improvement levy or any instalment thereof due from any person is not paid within the prescribed time, interest at the prescribed rate upon the amount outstanding shall, subject to the provisions of the Bengal Public Demands Recovery Act, 1913, be payable from the time of such default. Ben. Act III of 1913.

(*3*) The Local Government may employ such agency, other than the Collector, as it may consider desirable for the recovery of the improvement levy in the prescribed manner, and may pay the charges of collection at the prescribed rate to such agency from the amount recovered.

(*4*) Any agency employed under sub-section (*3*) by the Local Government to recover the improvement levy may recover the amount of such levy together with all interest due thereon as though it were a debt due to such agency or an arrear of rent due to such agency on account of the land in respect of which such levy is payable.

(*5*) If such agency makes default in the recovery or payment to the Local Government of the improvement levy the amount of such default shall be recoverable from such agency by the Collector as a public demand.

The Bengal Development Bill, 1935.

(Clauses 17—20.)

Recovery of arrears and other dues.

17. All arrears of improvement levy together with interest due thereon and all costs incurred and other dues payable to the Local Government under this Act shall be recoverable as public demands.

Power to enter on land and to cut and remove crops.

18. (*1*) If, in the opinion of the Local Government, it is desirable for the purpose of collecting information in connection with the preparation of an estimate under section 6 or section 9, the Local Government may, by general or special order, authorise any officer and his servants and workmen, subject to rules made under this Act, to enter upon any land situated within a benefited area and to do any acts necessary for the purpose of obtaining such information : [*Cf.* Act I of 1894, s. 4.]

Provided that no person shall enter into any building or upon any enclosed courtyard or garden attached to a dwelling house (except with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

(*2*) If, in the opinion of any officer authorised under sub-section (*1*), it is necessary to remove any crop for the purpose of ascertaining by weighment or otherwise the amount of the produce derived from any land situated within an area notified under section 3 or within a benefited area, he may, subject to rules made under this Act, and after giving notice in writing, forthwith take possession of any standing crop on such land or part thereof and may cause such crop to be cut and to be removed within such reasonable period as he may consider necessary. [*Cf.* Act I of 1894, s. 7(*3*).]

(*3*) In every case under sub-section (*2*) such officer shall offer to the persons interested compensation for the standing crop cut and, subject to the prescribed restrictions, for any other damage caused during the process of cutting and removal ; and if such offer is not accepted the value of the crop cut and the amount of the damage so caused shall be assessed by the Collector in the prescribed manner.

Power to enforce attendance of witnesses and production of documents.

19. (*1*) Subject to rules made under this Act any officer authorised under sub-section (*1*) of section 18 may, by notice, require any person to make and deliver to him a statement or to produce records or documents relating to any land mentioned in that sub-section, at a time and place specified in the notice.

(*2*) Every person required to make or deliver a statement or to produce any record or document under this section shall be deemed legally bound to do so within the meaning of sections 175 and 176 of the Indian Penal Code. Act XLV of 1860.

(*3*) For the purpose of any enquiry under this Act the Collector shall have power to summon and enforce the attendance of witnesses including the persons interested or any of them and to compel the production of documents by the same means and so far as may be, in the same manner as is provided in the case of a Civil Court under the Code of Civil Procedure, 1908. [*Cf.* Act I of 1894, s. 14.] Act V of 1908.

Supply of water and application of rules under the Bengal Irrigation Act, 1876.

(*2*) In any benefited area specified by the Local Government, by notification, in this behalf any person by whom an improvement levy is payable under section 8 of this Act shall be subject to the provisions of any rules made under the Bengal Irrigation Act, 1876, for the time being in force, as if he had presented an application under section 75 of the said Act and such application had been granted.

22. Whenever it appears expedient to carry out any scheme of drainage for the betterment of public health or for the improvement of any land or in connection with irrigation works, the Local Government may, after issuing a notification and calling for and considering objections, cause such a scheme to be drawn up and carried into execution, and any officer authorised in this behalf by the Local Government may exercise in connection with such scheme all or any of the powers conferred on Canal Officers by sections 33, 34 and 35, and shall be liable to any or all of the obligations imposed on Canal Officers by sections 36 and 37 of the Bengal Irrigation Act, 1876. Ben. Act III of 1876.

23. The Local Government may, if it is of opinion that in any area to be specified in a notification the whole or part of any river, stream, natural water-channel or natural drainage-course should be open to the unrestricted passage of water, exercise such powers as may be exercised under the Bengal Irrigation Act, 1876, with regard to the prohibition, removal or modification of obstructions in any river, stream, natural water-channel or natural drainage-course, and the provisions contained in that Act with regard to the exercise of such powers shall be applicable *mutatis mutandis* so far as they may reasonably be applied.

(*1*) The Local Government may, by notification, declare that in any area specified in the notification every person shall be bound, for irrigation purposes or for the drainage of land which has been irrigated, to afford a free passage to water through or over any land in his possession or under his control.

(*2*) After the issue of a notification under sub-section (*1*) the Collector, if in his opinion the free passage of water through or over any land in such area is necessary for irrigation purposes or for the drainage of land that has been irrigated, may, subject to rules made under this Act, from time to time issue a general or special order upon persons who have such land in their possession or under their control to modify, in such manner and within such period as may be specified in the order, any obstruction that exists on such land to such free passage, or to show cause against such order.

(*3*) After the expiry of a period of objection to be mentioned in a notification under sub-section (*1*), the Local Government shall consider the objections and suggestions, if any, received by it and thereafter may, by notification, declare any river or depression notified under that sub-section to be a dead or decayed river, and such declaration shall be final and shall not be questioned in any Court or in any other manner whatsoever.

Limitation of claims for compensation.

26. No person shall have any claim as of right to any compensation under this or any other Act for any injury, damage or loss—

(*b*) caused by a dead or decayed river which has been revived as a result of an improvement work, or by any other river into which it flows or spills unless the injury, damage or loss is such as would have rendered the Local Government liable to pay compensation had the river not been revived :

Provided that the prescribed authority may, subject to rules made under this Act, grant compensation for any such injury, damage or loss.

Explanation.—A dead or decayed river is said to be revived when an increased volume of water is, by any means whatsoever, caused to flow freely into or along any part of such dead or decayed river.

27. (*1*) Subject to the provisions of section 26, whenever—

(*a*) any damage is caused as a result of the prohibition, removal or modification of an obstruction under section 23 or section 24, or

(*b*) any land or right of property is injuriously affected by any improvement work for which an improvement levy is imposed under this Act,

the person by whom any damage or loss is sustained may, not later than six months after the first occurrence of the injury in respect of which the claim is preferred, prefer to the Collector a claim for compensation.

STATEMENT OF OBJECTS AND REASONS.

The Committee constituted in November, 1929, in accordance with the recommendation contained in paragraph 292 of the report of the Royal Commission on Agriculture in India discussed not only questions of river-conservation, for which provision has since been made in the Bengal Waterways Act, 1934, but also the work undertaken by the Irrigation Department in respect of irrigation, the resuscitation of rivers, the control of floods and the drainage of water-logged areas. They were unable to recommend any definite scheme for dealing with these problems but their report lays great emphasis on their complexity and their urgency. In Western Bengal, in their opinion, the main problem to be solved if fertility is to be restored and disaster avoided is that presented by the protective embankments which have caused the level of the bed of at least one river to rise so greatly that sooner or later a calamity is bound to occur. In Central Bengal they consider the most important problem to be the restoration of the flow of water in the rivers which after building up the delta of Bengal now lie stagnant; they refer to this tract as decadent and highly malarious with a steadily decreasing population and with land going out of cultivation and they even debate whether deterioration has already progressed so far that the tract is bound to revert gradually into swamp and jungle. In addition they draw attention to the urgent need for drainage in various parts of the province and to the demand for irrigation both in Western and in Northern Bengal to safeguard crops against the risks of a comparatively short monsoon and a small and badly distributed rainfall. They characterise as false the belief that the improvement of the decadent tracts can be other than a difficult and lengthy operation and they comment strongly on the fact that the rivers of Bengal, in spite of their great importance and their influence on the health and prosperity of the people, have in the past been singularly neglected. The reason for this they find to be the difficulty of finance. In Northern India, they point out, Governments are always ready to finance projects for the improvement of drainage and agriculture because, even though yielding no direct return from water-rates, they lead to an increase in the land revenue and therefore constitute a remunerative investment; in Bengal on the other hand the Government secures no increase of land revenue from improvements financed by it and often fails to recover for the tax-payer even the cost of the work and its maintenance. The proposals embodied in this Bill are designed primarily to avoid this financial difficulty which prevents Government from taking up works undoubtedly necessary for the prosperity of the province and to enable complex and far-reaching schemes of improvement to be undertaken with the knowledge that so far from being a burden on the provincial revenues they will prove remunerative. They are a development of a suggestion in the Committee's report that the cost of schemes financed by the Government out of loan-funds should be met by means of a cess levied at a flat rate on the total area benefited, and they have been so framed as to satisfy the recommendation of the Committee that any provisions for apportionment and realisation should be made as elastic as possible so that the procedure should be adapted to the requirements of each case. The main principle on which the proposals are based is that the Government should be entitled to recover a portion of the increased profits which accrue to private individuals and companies from land of any description, whether used for agriculture or not, owing to works undertaken at the cost of the State and which they would otherwise not have enjoyed. It is contemplated that this principle should be applicable to areas where schemes for the improvement of land have only recently been carried into effect, as well as to areas where such schemes are undertaken in the future.

The works to which the Bill refers would for the most part be carried out under the Acts, such as the Bengal Irrigation Act of 1876 and the Bengal Embankment Act of 1882, but it is proposed by this Bill to give the Local Government more general powers with regard to drainage schemes than it possesses under the latter Act. The opportunity is also being taken to improve the procedure for dealing with obstructions to water channels which constitute one of the great difficulties in dealing with drainage and irrigation in Bengal.

Notes on Clauses.

Clause 3 embodies the principle on which the concept of the improvement levy is based : where profit results from improvement works constructed by Government, Government is entitled to a share of that profit. The clause requires previous intimation to be given by the Local Government of its intention to impose an improvement levy.

Clause 4 provides for the publication of the notification under clause 3 in sufficient detail to place the public in a position to criticise the scheme.

Clause 5 provides for two further notifications after action has been initiated under clause 3. By the former the Local Government shall declare its final intention after considering any objections and suggestions received after the publication of the notification under clause 3. At a later date the Local Government may declare the area to be a benefited area and impose the levy from a specified date. Several years may elapse between the two notifications under this clause, as the second would not issue until the improvement work has been constructed.

Sub-clause (*1*) of this clause ensures that the decision of the Local Government made after objections and suggestions have been considered shall be final, a necessary condition precedent to embarking upon big schemes of improvement. Sub-clause (*2*) removes the possibility of any argument to the effect that the improvement work does not benefit the area. The eventuality of a scheme not fulfilling its promise is covered by sub-clause (*3*) and clause 15. Sub-clause (*3*) gives the Local Government power to revise the boundaries of a benefited area if it is found that the benefits are actually limited or extended. Uneven incidence of benefit within a benefited area would be dealt with by having different estimates for different classes of land under clause 6(*1*) or by granting remission or abatement under clause 15.

Clauses 6 and 7 set out the methods and procedure to be adopted in estimating and valuing the increase in the outturn from agricultural lands within a benefited area.

Clause 8 sets a maximum limit to the levy to be imposed on agricultural lands. Subject to this limit, the amount of the levy can be revised from time to time, though it is not contemplated that normally revision would be frequent. The clause further lays down that the levy shall be payable by the occupiers of the lands. A bar is imposed by sub-clause (*5*) upon contracts which seek to defeat the proper incidence of the levy.

Clause 9 imposes a similar maximum in the case of non-agricultural land, and sets out the procedure to be adopted in estimating the profit due to the improvement work. The Collector may also determine whether a piece of land is to be deemed "non-agricultural" and what persons shall be deemed to be in receipt of the profits. Provision is also made for optional commutation of liability to pay the levy.

Clause 10 provides for the publication and revision (consequent upon transfer of interest, for example) of a demand list.

Clause 11 provides for appeals to the prescribed authority against certain orders passed under clause 9 (*2*) or against the demand list published under clause 10.

Clause 12 bars any objection being taken to the imposition of a levy or (except in the manner provided in this Bill) to the liability of any person to pay the same.

Clause 13 permits the Collector to continue the final preparation of the statement under clause 10, modifying, if necessary, such items as have been appealed against in accordance with the appellate authority's order.

Clause 14 makes copies of the statements prepared under clause 10 or 13 available to persons concerned on payment of the prescribed fee.

Clause 15 has already been referred to in these notes (*vide* notes on clause 5). It confers wide powers of alleviation when, through no fault of the persons liable, an improvement work does not in whole or in part, in any particular area or in any particular year, provide the benefits anticipated.

Clauses 16 and 17 prescribe the machinery for realising the levy together with arrears and costs, if any. Clause 16 allows for the employment upon prescribed terms of agencies other than the Collector (landlords, for example, who are willing to act in this capacity).

Clause 18 provides necessary powers of entry and of removal of crops, provision being made for payment of compensation in the latter case.

Clause 19 provides for the production of necessary evidence.

Clause 20 departs from the provisions of the Bengal Irrigation Act, 1876, inasmuch as water may be supplied without being applied for and the levy shall be payable whether application has been made or not.

Clause 21 is a necessary provision as it may not be possible for a canal to supply water to everyone during the winter months.

Clause 22 provides certain powers to carry out drainage works.

Clause 23 is wider than section 40 of the Bengal Irrigation Act, 1876, inasmuch as it provides for the removal of obstructions from waters which are not drainage channels.

Clause 24 authorises Government to require persons in specified areas to afford free passage of water over their land for the purposes of irrigation or of draining irrigated land. The clause also sets out the procedure to enforce, if necessary, compliance.

Clause 25 empowers the Local Government, after considering objections, to declare certain rivers or depressions to be dead or decayed rivers as defined in clause 2(*3*) and provides that such declaration shall be final.

Clause 26 provides for rules to be made in respect of the grant of compensation for damage or loss resulting from action under clause 23 or from works reviving a dead or decayed river. At the same time, no person shall be entitled as of right to such compensation except in certain cases.

Clauses 27 and 28 set out the procedure to be adopted in presenting and determining claims for compensation.

Clause 29 provides for appeals against compensation awards and lays down that the prescribed appellate authority's decision shall be final.

Clause 30 is designed to prevent persons who have not contributed to the cost of the improvement work appropriating a portion of the profits (in the form of increased rent).

Clause 31 deals with the publication of notifications under this Bill.

Clause 32 is the customary indemnity provision.

Clause 33 groups together the rule-making powers.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 5th February 1935.

Third and Final Report on the Winter Rice Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years' ending 1932-33, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in British India.)

Character of the season.—After the issue of the second forecast in December last harvesting operations were carried on under favourable conditions and a satisfactory outturn was reaped for the province, as a whole.

Acreage.—According to District Officers' estimates the total area under winter rice is 14,760,000 acres as compared with 15,498,700 acres last year.

Outturn.—From the summary of the district returns appended it will be seen that one district reports a bumper crop, three districts report a normal crop, fifteen districts a crop varying from 74 to 92 per cent. and the rest below 74 per cent. of the normal. According to the above estimates the provincial outturn works out to 85 per cent. of the normal as against 81 per cent. last year.

Accepting 85 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 13½ maunds of clean grain per acre, is estimated at 6,221,800 tons this year as against 6,225,700 tons last year.

(*Note.*—On an average of the five years ending 1932-33, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the third forecast in December last, picking was generally carried on under favourable conditions and a fairly satisfactory outturn was reaped for the province.

Area sown.—The total area sown with early cotton is returned at 72,903 acres and that with late at 1,032 acres this year as against 74,760 acres and the same estimate, respectively, last year.

Outturn.—The outturn of the early crop is estimated at 23,462 bales and the late crop at 296 bales as against 23,499 and 303 bales, respectively, last year.

Section 60 proviso.

The Secretary shall, as far as possible, issue a supplementary agenda containing notice of such motions.

Provided that no previous notice is necessary for certain classes of motions as provided for in these rules.

Such motions shall be considered at meetings to be specially called for the purpose by the Mayor or in his absence the Deputy Mayor. *New.*

(*e*) The President, may, with the consent of the majority of the members present, submit for consideration as one subject, any two or more items of business relating to the same subject although these items may not have been grouped together in the agenda. The President may also divide any motion or amendment into two or more distinct propositions which in his opinion are likely to make the issues contained in them clearer or more convenient for the purposes of discussion and voting; in such a case the divided motion or amendment need not be again separately moved and seconded. *Vide* present rule 5 (*b*).

(*f*) No motion or amendment shall be moved at any meeting or if such be postponed, at an adjourned meeting, which has already been resolved in the affirmative or negative.

Vide present rule 19.

(*g*) (*i*) No motion to alter any resolution or any portion of a resolution which has been passed by the Corporation within the preceding six months shall be considered until such resolution or the portion sought to be altered has first been rescinded. New.

(*ii*) When once such motion or recommendation has been disposed of by the Corporation it shall not be admissible to move a similar motion or make a similar recommendation within a further period of six months, except with the consent of three-fourths of the number of members present and voting.

(*vi*) to close the debate on a motion by moving that "the question be now put".

These motions may be moved at any time during the meeting but not so as to interrupt a speech and not until sufficient time has elapsed after a similar motion has been rejected by the House. A motion for adjournment shall be decided upon first before either the original motion and the amendments thereon are taken into consideration.

Vide rule 12.

(*i*) (*i*) When a motion is moved "that the question be now put" or "that the House pass on to the next item of business", the President shall put the same forthwith and the motion shall be decided without amendment or debate.

Provided that such motion shall not be moved by a member who has already spoken and the member moving it does not make a speech.

(*ii*) If the motion "that the question be now put" be carried, the question on the original motion and on all its amendments shall be put and decided without amendment or further debate.

(*iii*) If the motion "that the Corporation pass on to the next item of business" be carried, the item of business under discussion shall be considered to have been dropped.

Section 62 (*3*).

(*iv*) The President of any meeting may, with the consent of a majority of the members present, adjourn the meeting from time to time and place to place.

Vide rule 7 (*b*).

(*v*) No amendments with regard to a motion for the adjournment of the debate on an item or of the meeting shall be allowed unless it relates to time and place.

Amendments.

18. (*a*) An amendment must be relevant to and within the scope of the subject matter of the clause or motion to which it relates. It shall be in writing and must be in conformity with the provisions of the Act and the rules.

(*b*) An amendment which has the effect of a negative vote shall not be moved.

(*c*) Any number of amendments may be before the meeting at the same time.

(*d*) An amendment unless seconded shall fail.

(*e*) The mover of an amendment has a right of reply and a member who had previously spoken on the original motion or its other amendments may, with the permission of the House, speak on a new amendment provided that in doing so, he confines himself strictly to the fresh matter introduced by the new amendment.

(*f*) An amendment once moved and seconded cannot be withdrawn except with the permission of the House.

(*g*) In case of more than one amendment to a motion being proposed, it shall be within the discretion of the President to put the amendments to the vote in such order as he may deem fit.

Appointment of Officers by the Corporation.

19. (*a*) In all cases of appointments to be made by the Corporation, the matter shall first be placed before the appropriate Committee. The Committee shall, if so directed by the Corporation, advertise for applications from candidates or issue notifications of such vacancies. In cases in which it is decided to advertise, the terms of advertisement shall first be approved by the Corporation. All applications and any motions by members of the Corporation regarding such appointments shall be considered by the Committee who will send up their recommendation to the Corporation. When such recommendation of the Committee is on the agenda, the only proposition which may be moved in this connection shall be to fix a day for making the appointment to which amendments may be moved to refer the matter back to the appropriate Committee, or to adjourn the consideration of the same and not to propose the name of any person for appointment at that stage. *New.*

(*b*) At the time of making such appointment on the date so fixed, no member shall be allowed to propose any name not previously considered by the Committee.

(*c*) In making appointments under section 51, if there be more than one candidate proposed the Corporation shall proceed by the system of elimination until one candidate obtains an absolute majority of the votes of the members present at the meeting and voting. *Vide* present rule 21.

Provided that the above rules (*a*), (*b*) and (*c*) shall apply only to permanent appointments.

Appointment of Committees.

20. A motion for the appointment of a Committee shall contain the number of members to constitute the Committee and set out precisely the terms of reference to such Committee. Amendments on the number of members or on the terms of reference may be moved. When the motion, amended or otherwise, is carried, the mover shall propose a list of as many members as may have been fixed to constitute the Committee. On this list being seconded any other member may either move the substitution of any one or more names for one or more contained in the list, or draw up a different list, and move that it be substituted for the list proposed by the mover of the original resolution. *Vide* present rule 24.

Provided that the mover of the motion or the amendment shall satisfy himself that the members proposed by him are willing to serve on the Committee.

Provided further that in proposing names no discussion regarding the merits of such persons shall be allowed.

Reports of Committees.

21. Upon the consideration of the report of a Committee it shall be the duty of the Chairman of the Committee or in his absence, or in the event of his disagreeing with the report of, some member of the Committee to submit to the Corporation a motion for the confirmation thereof. *Vide* present rule 25.

Any candidate may withdraw his candidature by notice in writing subscribed by him and delivered to the Returning Officer on or before 3 o'clock in the afternoon on the date succeeding that appointed for the scrutiny of nominations. A candidate who has withdrawn his candidature shall not be allowed to cancel the withdrawal or to be renominated as a candidate for the same election. The candidature of any candidate shall remain valid for all purposes of these rules unless withdrawn in accordance with this rule (*vide* notification No. 4101Medl., dated the 20th December 1929).

(*1*) If in the case of an entire election, whether general or casual, to be held at any time under any clause of section 4 other than clause (*d*) and clause (*e*), the total number of duly nominated candidates with or without special qualifications as required by the section who stand for election or remain in the field after withdrawal of candidates before the completion of scrutiny of nomination papers does not exceed the number of members with or without the same qualifications to be elected at the time under that clause, the Returning Officer shall on the completion of such scrutiny in the presence of the candidates, their proposers and seconders forthwith declare such candidate or candidates (if duly qualified) to be elected.

Should this contingency arise as a result of withdrawal under rule 18 communicated after the scrutiny no poll shall be held for the particular electorate concerned and the fact shall forthwith be notified in the *Calcutta Gazette*, but the formal declaration of result of its election shall be held over until the date of counting of votes in respect of other electorates.

(*2*) If the number of such candidates *with or without special* qualifications exceeds the numbers *with or without the same qualifications* to be so elected, the Returning Officer shall—

(*a*) cause the names, qualifications, with any special qualifications required by section 4, registration numbers and addresses of the candidates offering for election under each such clause to be entered alphabetically in the order of their surnames in a separate voting paper in Form III in the Appendix, and

Such a voting paper with an identification envelope shall also be issued to such an elector (if any) to whom a voting paper has not been sent already, on his applying to the Returning Officer for the same at any time before the latest date and time appointed by him for return of voting papers. In no other case shall a voting paper be issued after the last date prescribed under rule 26 for the issue of voting papers nor shall a voting paper not delivered to a voter by the post office be re-issued to him on its return to the office of the Returning Officer.

(*4*) No election shall be invalidated by reason of the non-receipt by any elector of a voting paper.

20. In the event of a single candidate thus supported possessing both qualifications the second additional vote may be recorded in favour of a qualified candidate who is neither a teacher nor a registered practitioner practising outside Calcutta.

(*b*) in the case of a casual vacancy affecting a member originally elected to provide a special qualification or qualifications as teacher or

registered practitioner practising outside Calcutta or both, the candidate voted for must possess the particular qualification or either of such qualifications, as the case may be.

The qualified elector shall sign with full particulars the requisite declaration printed on the identification envelope received with the voting paper, place the voting paper in this envelope, close it and deliver it personally to or send it singly by post to reach the Returning Officer on or before the latest day and time fixed by him for the return of voting papers.

No voting paper will be accepted unless it is enclosed in the identification envelope supplied, and any defect, *e.g.*, any incompleteness in the entries required on the envelope or its receipt after the latest day and time fixed for its return with the proper voting paper shall invalidate both the envelope and the voting paper enclosed.

Every voting paper in respect of which any requirement of these rules has not been complied with or on which a mark is placed in such a manner as to make it doubtful to which candidate the vote is given or on which the elector has placed any mark whereby he may be afterwards identified or (on which an alteration or erasure occurs indicating a change of vote) or which is not received by the Returning Officer on or before the latest day and time fixed for the return of voting papers, shall be invalid.

All these bundles of voting papers and identification envelopes will be placed in safe custody for disposal under rule 24.

23. (*1*) When the counting of the votes of each electorate has been completed by the conduct of the operation on one or more days as necessary the Returning Officer shall, subject to the provisions of section 4, and of the subsequent portion of this rule, forthwith declare the duly qualified candidate or candidates, as the case may be, to whom the largest number of valid votes has been given to be elected.

(*2*) When an equality of votes is found to exist between any candidates, and the addition of a vote will entitle any of the said candidates to be declared elected, the determination of the person or persons to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn in the presence of the Returning Officer and in such manner as he may determine.

(*3*) When a candidate indicated for election under sub-rule (*1*) happens to receive the highest number of valid votes of more electorates than one, he shall be allowed to choose for which of these electorates he shall serve.

When a seat of a particular electorate remains unfilled by the operation of this sub-rule or becomes vacant by the refusal of the elected candidate to serve, such refusal being signified before his name is published in the *Calcutta Gazette*, the seat may be filled by that one among the other candidates willing to accept office who has received the highest number of votes among unsuccessful candidates of the electorate affected at the election.

The Returning Officer shall determine which candidate should be declared as elected under this sub-rule and announce the results as soon as possible after the counting of votes.

The declaration in this case may be made either in the presence of the candidates or their representatives if present or merely by notification in the *Calcutta Gazette* under rule 25.

N. B.—(*a*) To select the two candidates elected for the electorate under clause (*g*) the candidate with the requisite qualification of teacher who has secured the largest number of votes should first be declared as elected and then the candidate who has secured the largest number among the rest. To select respectively the four and three candidates elected for the electorates under clauses (*f*) and (*h*) a separate list shall be prepared for each electorate showing all candidates with an indication of special qualifications as teacher or registered practitioner practising outside Calcutta where such exist, the number of votes received by each from the registered practitioners practising within and outside Calcutta separately and the total number of such votes polled. The mufassal candidate with the largest number of mufassal votes shall first be declared as elected in each electorate and, secondly, the candidate with the special qualification of teacher who has polled the highest number of total votes and, lastly, the remaining member or members, two for the electorate under clause (*f*) and one for that under clause (*h*) shall be declared as elected with reference to the highest number of total votes polled. In the event of the first selection made as above possessing both special qualifications the remaining members three for the electorate under clause (*f*) and two for that under clause (*h*) shall be elected with reference to the largest totals of votes polled, (*vide* Government of Bengal letter No. 128T.—Medl., dated the 10th June 1922).

(*b*) Temporary changes of station of practice should be disregarded.

(*4*) Should the election fail to secure members with the requisite special qualification or qualifications required by section 4 in any case, the defect in respect of each electorate under clause (*f*), clause (*g*) and clause (*h*) should be reported for the information of the President along with any defect in the number of candidates with or without special qualification that offered for election and the want of candidates willing to accept office in circumstances contemplated in paragraph 2 of sub-rule (*3*).

24. Upon the completion of the counting of votes and after the results have been declared by him, the Returning Officer shall seal up the voting papers with their identification envelopes and all other documents relating to the election and shall retain the same for a period of six months and thereafter cause them to be destroyed.

25. The Returning Officer shall publish the names of the elected candidates in the *Calcutta Gazette*.

26. The Returning Officer shall appoint and shall notify in the *Calcutta Gazette* and in such other manner as he may think fit such date or dates or latest date, as the case may be, and, if necessary, such time and place as may be deemed suitable, for each of the following operations of an election, namely:—

(*a*) the receiving of nominations under rule 13;

(*b*) the scrutiny of nomination papers under rule 17;

(*c*) the sending of voting papers with identification envelopes under rule 19;

(*d*) the receiving of voting papers with identification envelopes under rule 20; and

(*e*) the counting of the votes under rule 22.

The dates appointed must ensure the completion of the election, in the case of a general election in ample time before the expiry of the term of office of the sitting members and, in the case of a casual vacancy under section 9 (*1*) or resulting from the death or resignation of a member or from the operation of rule 30, within the month prescribed by section 10.

General Rules for election under clauses (c) to (h) of section 4—Report of results of elections by the President to the Local Government.

27. The President shall report to the Local Government the results of all elections for action under section 7. He shall at the same time report, for action under section 5, what seats, if any, of any electorates could not be filled by election owing to defect in the number of candidates offering, or of candidates with the requisite special qualification of teacher or registered practitioner practising outside Calcutta where necessary or to want of candidates willing to accept office under rule 23 (*3*).

Finality of decisions of the Local Government.

28. The Local Government may, of its own motion or on objection made, declare any election to the Council to be void on account of corrupt practice (*e.g.*, bribery, undue influence, personation, publication of false statements) or any other sufficient cause, and may call on the electorate affected to make a fresh election within a specified date, and any decision of the Local Government under this rule shall be final.

29. The decision of the Local Government on any question that may arise as to the intention, construction or application of these rules shall be final.

Rule under section 33 (1) of the Act—Vacation of seat.

30. If a registered practitioner having been elected or nominated a member is found guilty of infamous conduct in any professional respect and his name is removed from the Register of Registered Practitioners, the Council shall, at the same time, declare his seat to be vacant.

The President shall report the fact to the Local Government and the vacancy shall be filled like a casual vacancy within one month by fresh election or nomination as the case may be, under sections 4 and 10 and these rules.

Instructions.

1. Each elector has as many votes as there are members to be elected on each particular occasion (number to be specified in each case). If he does not wish to use all his votes (in the cases where more than one vote is allowed), he need not do so, but more than one vote may not be given to any one candidate.

2. (*a*) At a general election—

(*i*) for an electorate under clause (*g*) of section 4 a qualified elector may give a maximum number of two votes to two candidates, of whom one must be a teacher. Should he vote for more candidates than one, one of the candidates favoured must be a teacher.

(*ii*) For an electorate under clause (*f*) of section 4 and an electorate under clause (*h*) of section 4 a qualified elector may give a maximum number of four and three votes respectively to as many candidates, of whom one shall be a teacher and another a registered practitioner practising outside Calcutta in each case.

Should he vote for more than two candidates for the former and more than one candidate for the latter electorate, in case he records a single additional vote it must be in favour of a candidate who is either a teacher or a registered practitioner practising outside Calcutta or who combines both these special qualifications in himself, in case he records two additional votes they must be in favour of two candidates who possess in the alternative the qualification of teacher or registered practitioner practising outside Calcutta or combine both qualifications in themselves. In the event of a single candidate thus supported possessing both qualifications the second additional vote may be recorded in favour of a qualified candidate who is neither a teacher nor a registered practitioner practising outside Calcutta.

He shall vote by placing *in the proper column of the voting* paper a *single* mark X (and no other mark) opposite to the name or names of the candidate or candidates (not exceeding the number of members to be elected) whom he prefers. A vote recorded otherwise than on the voting paper shall be invalid.

The voting paper shall be invalid if the mark X is placed opposite to the name of more candidates than are to be elected, or if the mark denoting any vote is so placed as to render it doubtful to which candidate such vote is intended to apply or if more votes than one are recorded in favour of a single candidate.

4. Each qualified elector shall sign the requisite declaration giving full particulars required on the identification envelope, place the voting paper in this envelope, close it and return it in the manner prescribed in instruction 6. Without such signature and entry the identification envelope as also the enclosed voting paper shall be invalid.

No. 1257F.—16th February 1935. — The following corrections, which have been authorised, are published for general information:—

CORRIGENDA.

Fundamental and Subsidiary Rules, 1st edition (Reprint).

Page 172—S. R. 284 as corrected by correction slip No. 229, dated 24th May 1932.—Under clause (*c*) *insert* the following as a note:—

Note.—Sundays intervening the gazetted holidays, which are counted against leave admissible to piece-workers, need not be treated as leave and paid for under this clause.

Bengal Financial Rules, 1st edition (Reprint), 1930.

Page 23—Rule 40.—Substitute the following for note 1:—

Ordinarily ministerial and other Government servants, who are required to give security to Government against loss through dishonesty, negligence or disregard of rules, should deposit the whole amount of the security on appointment or bind themselves by two sureties for the whole amount and agree to monthly deductions of 25 per cent. of their pay. As an alternative to this rule the following procedure may be adopted in the case of all securities of Rs. 500 or less:—

(*1*) The Government servant may give a fidelity bond of an Insurance Company approved by Government for the full amount of the required security guaranteeing Government against losses through dishonesty, negligence or disregard of the rules on the part of the Government servant.

(*2*) Deductions will then be made at the rate of 10 per cent. of the Government servants' salary, the fidelity bond to be cancelled only after the full amount of the security bond has been deposited in cash.

(*3*) Government servants in charge of offices will be responsible for seeing that fidelity bonds, which expire before the full amount of security has been recovered by deduction from salaries, are renewed in good time so as to cover the outstanding amounts.

Substitute the following for note 2:—

Fidelity bonds with the firms noted below may be accepted, subject to the form of the bond in individual cases being accepted by heads of departments in consultation with law officer when necessary:—

(*1*) Messrs. Gillanders, Arbuthnot & Co., Managing Agents of the Clive Insurance Co., Ltd., Calcutta (Gillanders House, Calcutta).

(*2*) General Accident, Fire & Life Assurance Corporation, Ltd., Bombay.

(*3*) Messrs. Martin & Co., Managing Agents, the National Indian Life Insurance Co., Ltd., Calcutta.

(*4*) The Ocean Accident and Guarantee Corporation, Ltd.

Add the following as notes 3 and 4:—

Note 3.—The security of Government servants of 20 years' pensionable service or upwards may, however, be diminished by a sum calculated on their monthly pay, multiplied by 25, with the proviso that the security will in no case be diminished by more than one-half.

Note 4.—When a Government servant who has furnished security takes leave or is deputed to other duty for not more than six months, he should ordinarily be required to stand surety for the Government servant appointed to act for him to the extent of his own security or for the difference between the security offered by the acting incumbent and that prescribed for the appointment. If, however, in special circumstances the permanent incumbent is unable to do so, the Government servant acting for him must furnish the full amount of the security, or, at the discretion of the head of the office, half the amount in cash and the rest in fidelity bonds. Security to the full amount should always be taken when the acting appointment is made for more than six months.

Provided further that if a Government servant holding substantively a post in which no security is demanded is appointed for a period not exceeding three months to a post in which security is required, the head of the office may permit him to furnish security for a reduced amount or, when the security required does not exceed Rs. 500, may, for special reasons to be recorded, exempt him from furnishing any security.

These estates are being advertised for sale for instalments of revenue which were due on or before the 30th Agrahayan, 1341 B.S., of which the latest date of payment was 12th January 1935.

Chittagong, the 14th February 1935. K. G. MURSHED, Addl. Collector.

Proclamation of Sale.

[See Rule 29.]

NOTICE is hereby given that, under rule 28 in Schedule II to the Bengal Public Demands Recovery Act, 1913, an order has been passed by me for the sale of the property mentioned in the annexed schedule, in satisfaction of the claim of the certificate-holder under the certificate mentioned below amounting, with costs and interest up to date of sale, to the sum of Rs. 132-11-8—

Certificate No. 14M. of 1933-34, under which State Secretary is the certificate-holder and Sudhirendra Kumar Sannyal and another are the certificate-debtors.

The sale will be by public auction, and the property will be put up for sale in the lots specified in the schedule. The sale will be of the property of the certificate-debtors abovenamed as mentioned in the schedule below.

In the absence of any order of postponement, the sale will be held by the undersigned at 12 o'clock on the 18th March 1935 at the Malda Certificate Court. In the event, however, of the debt above specified, and of the costs of the sale, being tendered or paid before the knocking down of any lot, the sale will be stopped.

At the sale the public generally are invited to bid, either personally or by duly authorised agent. The following are the further conditions of sale :—

1. The particulars specified in the schedule below have been stated to the best of the information of the Certificate Officer; but the Certificate Officer will not be answerable for any error, misstatement or omission in this proclamation.

2. The amount by which the biddings are to be increased shall be determined by the officer conducting the sale. In the event of any dispute arising as to the amount bid, or as to the bidder, the lot shall at once be again put up to auction.

3. The highest bidder shall be declared to be the purchaser of any lot, provided always that he is legally qualified to bid, and provided that it shall be in the discretion of the officer holding the sale to decline acceptance of the highest bid when the price offered appears so clearly inadequate as to make it advisable to do so.

4. For reasons recorded, it shall be in the discretion of the officer conducting the sale to adjourn it, subject always to the provisions of rule 32 in Schedule II to the Bengal Public Demands Recovery Act, 1913.

5. In the case of movable property, the price of each lot shall be paid at the time of sale or as soon after as the officer holding the sale directs, and in default of payment the property shall forthwith be again put up and re-sold.

6. In the case of immovable property, the persons declared to be the purchaser shall pay immediately after such declaration a deposit of 25 per cent. on the amount of his purchase-money to the officer conducting the sale, and in default of such deposit the property shall forthwith be put up again and re-sold.

7. The full amount of the purchase-money shall be paid by the purchaser before the office of the Certificate Officer closes on the fifteenth day after the sale of the property, exclusive of such day, or if the fifteenth day be a Sunday or other holiday, then on the first office day after the fifteenth day.

8. In default of payment of the balance of the pruchase-money within the period allowed the property shall be re-sold after the issue of a fresh notification of sale. The deposit, after defraying the expenses of the sale, may, if the Certificate Officer thinks fit, be forfeited to the Government, and the defaulting purchaser shall forfeit all claims to the property or to any part of the sum for which it may be subsequently sold.

Given under my hand and seal, this 5th day of February 1935.

[ILLEGIBLE], Certificate Officer, Malda.
